## Freedom in the World 2018

## The Annual Survey of Political Rights and Civil Liberties

*Rowman & Littlefield* **Freedom in the World** is the standard-setting comparative assessment of global political rights and civil liberties. The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories.

# The Struggle for a Democratic Austria

## Bruno Kreisky on Peace and Social Justice

*Berghahn Books* Bruno Kreisky (1911-1990) is undoubtedly the most prominent and influential politician to emerge in postwar Austria. For some thirty years, he helped to shape his country's politics and raise its status in the world, first as secretary of state, then as leader of the opposition Social Democratic Party and as foreign minister, and finally as chancellor from 1970 to 1983. During his long tenure of public office, Austria achieved unprecedented levels of prosperity; he promoted electoral and educational reform and weathered the occasional scandal. His analytical mind and intelligence were much appreciated by statesmen in East and West as well as in the academy, as were his deeply felt humanism, integrity, untiring advocacy of tolerance and social justice, and his earnest sense of responsibility. These won him the trust and admiration of the leading international figures of his era, including Tito, Nehru, Nasser, De Gaulle, and Pope John XXIII. His international connections and his position as leader of a non-aligned state allowed him to assume the role of honest broker in international peace, human rights, and development initiatives. His stature enabled him to play an active part in the promotion of the Arab-Israeli dialogue and pave the way for President Jimmy Carter's mediation of the Israeli-Egypt peace accord through his close relationship with Sadat. As a result of such activity, Kreisky was respected and praised by every U.S. administration from Kennedy to Brezhnev, despite his support for the containment of Soviet communism. This annotated volume - a condensed version of the three volumes of the German edition and compiled by Jill Lewis, University of Wales, and Oliver Rathkolb, Director of the Stiftung Bruno Archiv - gives a fascinating insight into Kreisky's life and his many activities. He lets us participate in the big decisions in which he was involved and shares his encounters with other world leaders of this time. Austria be a small country, but it produced at least one major leader whose lively and immensely readable account and wisdom many readers will find inspiring.

# The Unknown American Revolution

## The Unruly Birth of Democracy and the Struggle to Create America

*Penguin* In this audacious recasting of the American Revolution, distinguished historian Gary Nash offers a profound new way of thinking about the struggle to create this country, introducing readers to a coalition of patriots from all classes and races of American society. From millennialist preachers to enslaved Africans, disgruntled women to aggrieved Indians, the people so vividly portrayed in this book did not all agree or succeed, but during the exhilarating and messy years of this country's birth, they laid down ideas that have become part of our inheritance and ideals toward which we still strive today.

## Generations of Jewish Directors and the Struggle for America's Soul

### Wyler, Lumet, and Spielberg

*Springer Nature* From generation to generation, three outstanding American Jewish directors—William Wyler, Sidney Lumet, and Steven Spielberg--advance a tradition of Jewish writers, artists, and leaders who propagate the ethical basis of the American Idea and Creed. They strive to renew the American spirit by insisting that America must live up to its values and ideals. These directors accentuate the ethical responsibility for the other as a basis of the American soul and a source for strengthening American liberal democracy. In the manner of the jeremiad, their films challenge America to achieve a liberal democratic culture for all people by becoming more inclusive and by modernizing the American Idea. Following an introduction that relates aspects of modern ethical thought to the search for America's

soul, the book divides into three sections. The Wyler section focuses on the director's social vision of a changing America. The Lumet section views his films as dramatizing Lumet's dynamic and aggressive social and ethical conscience. The Spielberg section tracks his films as a movement toward American redemption and renewal that aspires to realize Lincoln's vision of America as the hope of the world. The directors, among many others, perpetuate a "New Covenant" that advocates change and renewal in the American experience.

## Who Really Created Democracy?

*Capstone* "Follows the stories of the ancient Greeks in Athens and the American colonists as they struggle to create democracies"--Provided by publisher.

## The Business of America

## How Consumers Have Replaced Citizens and how We Can Reverse the Trend

*Psychology Press* While a culture may have a dominant way of "mapping," its geography is always plural, and there is always competition among conceptions of space. Beginning with this understanding, this book traces the map's early development into an emblem of the state, and charts the social and cultural implications of this phenomenon. This book chronicles the specific technologies, both material and epistemological, by which the map shows itself capable of accessing, organizing, and reorienting a tremendous range of information.

## Money, Power, and the People

# The American Struggle to Make Banking Democratic

*University of Chicago Press* **Banks and bankers are hardly the most beloved institutions and people in this country. With its corruptive influence on politics and stranglehold on the American economy, Wall Street is held in high regard by few outside the financial sector. But the pitchforks raised against this behemoth are largely rhetorical: we rarely see riots in the streets or public demands for an equitable and democratic banking system that result in serious national changes. Yet the situation was vastly different a century ago, as Christopher W. Shaw shows. This book upends the conventional thinking that financial policy in the early twentieth century was set primarily by the needs and demands of bankers. Shaw shows that banking and politics were directly shaped by the literal and symbolic investments of the grassroots. This engagement remade financial institutions and the national economy, through populist pressure and the establishment of federal regulatory programs and agencies like the Farm Credit System and the Federal Deposit Insurance Corporation. Shaw reveals the surprising groundswell behind seemingly arcane legislation, as well as the power of the people to demand serious political repercussions for the banks that caused the Great Depression. One result of this sustained interest and pressure was legislation and regulation that brought on a long period of relative financial stability, with a reduced frequency of economic booms and busts. Ironically, this stability led to the decline of the very banking politics that brought it about. Giving voice to a broad swath of American figures, including workers, farmers, politicians, and bankers alike, *Money, Power, and the People* recasts our understanding of what might be possible in balancing the needs of the people with those of their financial institutions.**

# The Paradox of Democracy in Latin America

## Ten Country Studies of Division and Resilience

*University of Toronto Press* **Inviting in tone and organization but rigorous in its scholarship, *The Paradox of Democracy in Latin America* focuses on the problems, successes, and multiple forms of democracy in Latin America. The opening chapters provide readers with a theoretical and conceptual lens through which to examine the ten case studies, which focus on Mexico, Guatemala, Nicaragua, Costa Rica, Colombia, Venezuela, Brazil, Bolivia, Chile, and Argentina. What**

becomes clear throughout is that there is a paradox at the heart of Latin America's democracies. Despite decades of struggle to replace authoritarian dictatorships with electoral democracies, solid economic growth (leading up to the global credit crisis), and increased efforts by the state to extend the benefits of peace and prosperity to the poor, democracy—as a political system—is experiencing declining support, and support for authoritarianism is on the rise. *The Paradox of Democracy in Latin America* demonstrates the deep divisions between rulers and ruled in Latin America that undermine democratic processes, institutions, and norms.

## Democracy in America?

### What Has Gone Wrong and What We Can Do About It

*University of Chicago Press* More democracy -- Unequal wealth distorts politics -- What has gone wrong -- Thwarting the will of the people -- The political clout of wealthy Americans -- Corporations and interest groups -- Polarized parties and gridlock -- What can be done -- Equal voice for all citizens -- Overcoming gridlock and democratizing institutions -- How to do it -- A social movement for democracy -- Signs of progress

## Work and Struggle

### Voices from U.S. Labor Radicalism

*Routledge* *Work and Struggle: Voices from U.S. Labor Radicalism* focuses on the history of U.S. labor with an emphasis on radical currents, which have been essential elements in the working-class movement from the mid nineteenth century to the late twentieth century. Showcasing some of labor's most important leaders, *Work and Struggle* offers students and instructors a variety of voices to learn from -- each telling their story through their own words -- through writings, memoirs and speeches, transcribed and introduced here by Paul Le Blanc. This collection of revolutionary voices will inspire anyone interested in the history of labor organizing.

# America's Battle for Media Democracy

## The Triumph of Corporate Libertarianism and the Future of Media Reform

*Cambridge University Press* Drawing from extensive archival research, the book uncovers the American media system's historical roots and normative foundations. It charts the rise and fall of a forgotten media-reform movement to recover alternatives and paths not taken.

## Fighting for Democracy

## Black Veterans and the Struggle Against White Supremacy in the Postwar South

*Princeton University Press* **Fighting for Democracy** shows how the experiences of African American soldiers during World War II and the Korean War influenced many of them to challenge white supremacy in the South when they returned home. Focusing on the motivations of individual black veterans, this groundbreaking book explores the relationship between military service and political activism. Christopher Parker draws on unique sources of evidence, including interviews and survey data, to illustrate how and why black servicemen who fought for their country in wartime returned to America prepared to fight for their own equality. Parker discusses the history of African American military service and how the wartime experiences of black veterans inspired them to contest Jim Crow. Black veterans gained courage and confidence by fighting their nation's enemies on the battlefield and racism in the ranks. Viewing their military service as patriotic sacrifice in the defense of democracy, these veterans returned home with the determination and commitment to pursue equality and social reform in the South. Just as they had risked their lives to

protect democratic rights while abroad, they risked their lives to demand those same rights on the domestic front. Providing a sophisticated understanding of how war abroad impacts efforts for social change at home, **Fighting for Democracy** recovers a vital story about black veterans and demonstrates their distinct contributions to the American political landscape.

## The Spirit of Democracy

## The Struggle to Build Free Societies Throughout the World

*Macmillan* Examines why recent efforts to promote democracy around the world have been ineffective, calling for a rule of law, security, protection of individual rights, shared economic prosperity, and free civic organizations to promote the democratic cause.

## Hearings Before the Committee on Un-American Activities, House of Representatives, Seventy-ninth Congress, First Session, on H. Res. 5, to Investigate Investigation of Un-American Propaganda Activities in

# the United States

## Latino Politics: Power, Intersectionality, and the Future of American Democracy

*Cengage Learning* **Reyna's LATINO POLITICS: POWER, INTERSECTIONALITY, AND THE FUTURE OF AMERICAN DEMOCRACY equips you with the skills to make sense of today's politics and 21st century democracy. Packed with the latest data and research, it teaches you the analytical tools required to understand Latino political diversity. The book also guides you in envisioning your own inclusive democracy as it explains how political power works, what critical thinking and political skills are necessary in a modern democracy, and how you can personally get involved in the policymaking process. In addition, focus and critical thinking questions help you put what you learn into action and maximize your course success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

## Democracy in Latin America

### Visions and Realities

*Greenwood Publishing Group* **A collection of articles that evaluate different models of democracy. The book discusses topics such as whether Washington's "model democracies" are truly democratic, and how Guatemala's civilian regime compares to Nicaragua's revolutionary democracy.**

# Crucible of American Democracy

## The Struggle to Fuse Egalitarianism & Capitalism in Jeffersonian Pennsylvania

*American Political Thought* (Un **Arguments over what democracy actually meant in practice and how it should be implemented raged throughout the early American republic. This exploration of the Pennsylvania experience reveals how democracy arose in America and how it came to accommodate capitalism.**

## America's Mission

## The United States and the Worldwide Struggle for Democracy

*Princeton University Press* **America's Mission argues that the global strength and prestige of democracy today are due in large part to America's impact on international affairs. Tony Smith documents the extraordinary history of how American foreign policy has been used to try to promote democracy worldwide, an effort that enjoyed its greatest triumphs in the occupations of Japan and Germany but suffered huge setbacks in Latin America, Vietnam, and elsewhere. With new chapters and a new introduction and epilogue, this expanded edition also traces U.S. attempts to spread democracy more recently, under presidents Clinton, Bush, and Obama, and assesses America's role in the Arab Spring.**

# American Indians and African Americans of the American Revolution: Through Primary Sources

*Enslow Publishing, LLC* **When the American Revolution began, thousands of people rushed to join the fight, on both sides. For many, choosing which side to fight for was difficult. Half a million black slaves lived in the thirteen colonies. About 200,000 American Indians lived on lands east of the Mississippi River. Both groups had much to gain, or lose, depending on which side won the war. Should they support the Americans fighting for independence, or support the British cause? This book explores through primary sources the amazing stories of African Americans and American Indians during the American Revolution.**

## Struggling for Recognition

## The Psychological Impetus for Democratic Progress

*A&C Black >*

## Imperialism, Neoliberalism And Social Struggles in Latin America

*BRILL* **This collection focuses on the social consequences of neoliberal crises in Latin America. It includes a critical yet sympathetic analysis of ruling leftist governments in the region and discusses the larger constraints facing organized attempts to politically transform the Americas.**

## US Department of State Dispatch

### The Irony of Democracy: An Uncommon Introduction to American Politics

*Cengage Learning* **The question at the center of the seventeenth edition of THE IRONY OF DEMOCRACY is “How democratic is American society?” While most American government textbooks address politics from a pluralist perspective, this text approaches the subject using an elitist perspective, thus exposing the irony between it and democratic theory and modern pluralist theory. As a result, this text helps students understand why the U.S. government works as it does. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

## Eminent Victorians on American Democracy

### The View from Albion

*Oxford University Press* **Surveys a wide range of nineteenth-century British opinion on the United States, significant to them not only because it was the world's most advanced democracy, but also because it was a political experiment that was seen to anticipate the future of Britain.**

## An Introductory History of British Broadcasting

*Psychology Press* **This provides an accessible and concise history of British radio and television. It looks at the nature and evolution of broadcasting and broadcasting institutions and the relation of broadcasting to a wider cultural context. An Introductory History of British Broadcasting is a concise and accessible history of British radio and television. It begins with the birth of radio at the beginning of the twentieth century and discusses key moments in**

media history, from the first wireless broadcast in 1920 through to recent developments in digital broadcasting and the internet. Distinguishing broadcasting from other kinds of mass media, and evaluating the way in which audiences have experienced the medium, Andrew Crisell considers the nature and evolution of broadcasting, the growth of broadcasting institutions and the relation of broadcasting to a wider political and social context. This fully updated and expanded second edition includes: \*the latest developments in digital broadcasting and the internet\* broadcasting in a multimedia era and its prospects for the future \*the concept of public service broadcasting and its changing role in an era of interactivity, multiple channels and pay per view\* an evaluation of recent political pressures on the BBC and ITV duopoly \*a timeline of key broadcasting events and annotated advice on further reading.

## A Noble Fight

# African American Freemasonry and the Struggle for Democracy in America

*University of Illinois Press* **A Noble Fight** examines the metaphors and meanings behind the African American appropriation of the culture, ritual, and institution of freemasonry in navigating the contested domain of American democracy. Combining cultural and political theory with extensive archival research--including the discovery of a rare collection of nineteenth-century records of an African American Freemason Lodge--Corey D. B. Walker provides an innovative perspective on American politics and society during the long transition from slavery to freedom. With great care and detail, Walker argues that African American freemasonry provides a critical theoretical lens for understanding the distinctive ways African Americans have constructed a radically democratic political imaginary through racial solidarity and political nationalism, forcing us to reconsider much more circumspectly the complex relationship between voluntary associations and democratic politics.

# Democratic Humanism and American Literature

*Transaction Publishers*

# Encyclopedia of American Cultural & Intellectual History

*Macmillan Reference USA* **A study of American thought and culture throughout history examines the individuals and documents that revealed significant ideas, issues, and movements.**

# Congressional Record

# Proceedings and Debates of the ... Congress

**The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)**

# Toward Democracy

# The Struggle for Self-Rule in European and American Thought

*Oxford University Press* **In this magnificent and encyclopedic overview, James T. Kloppenberg presents the history of democracy from the perspective of those who struggled to envision and achieve it. The story of democracy remains one without an ending, a dynamic of progress and regress that continues to our own day. In the classical age**

"democracy" was seen as the failure rather than the ideal of good governance. Democracies were deemed chaotic and bloody, indicative of rule by the rabble rather than by enlightened minds. Beginning in the 16th and 17th centuries, however, first in Europe and then in England's North American colonies, the reputation of democracy began to rise, resulting in changes that were sometimes revolutionary and dramatic, sometimes gradual and incremental. Kloppenberg offers a fresh look at how concepts and institutions of representative government developed and how understandings of self-rule changed over time on both sides of the Atlantic. Notions about what constituted true democracy preoccupied many of the most influential thinkers of the Western world, from Montaigne and Roger Williams to Milton and John Locke; from Rousseau and Jefferson to Wollstonecraft and Madison; and from de Tocqueville and J. S. Mill to Lincoln and Frederick Douglass. Over three centuries, explosive ideas and practices of democracy sparked revolutions--English, American, and French--that again and again culminated in civil wars, disastrous failures of democracy that impeded further progress. Comprehensive, provocative, and authoritative, *Toward Democracy* traces self-government through three pivotal centuries. The product of twenty years of research and reflection, this momentous work reveals how nations have repeatedly fallen short in their attempts to construct democratic societies based on the principles of autonomy, equality, deliberation, and reciprocity that they have claimed to prize. Underlying this exploration lies Kloppenberg's compelling conviction that democracy was and remains an ethical ideal rather than merely a set of institutions, a goal toward which we continue to struggle.

## American Foreign Policy Current Documents

## Teaching Recent Global History

## Dialogues Among Historians, Social Studies Teachers and Students

*Routledge Teaching Recent Global History* explores innovative ways to teach world history, beginning with the early 20th century. The authors' unique approach unites historians, social studies teachers, and educational curriculum

specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history. Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students. Each of the eight main chapters highlights a particularly important event or theme, which is then complemented by a detailed discussion of a particular methodological approach. Key features include: • An overarching narrative that helps readers address historical arguments; • Relevant primary documents or artifacts, plus a discussion of a particular historical method well-suited to teaching about them; • Lesson plans suitable for both middle and secondary level classrooms; • Document-based questions and short bibliographies for further research on the topic. This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students.

## Human Struggle

### Christian and Muslim Perspectives

The first comparative work to explore how humankind seek out the meaning of life amid suffering and struggle.

### The Department of State Bulletin

### The Survival and the Success of Liberty

### A Democracy Agenda for U.S. Foreign Policy

*Century Foundation* Over the course of the twentieth century, Americans came to embrace the defense and promotion of rights and democracy as a vital mission of U.S. foreign policy. But this popular view shifted during the George W. Bush administration. Bush's controversial crusade for democracy—one that came to be associated with unilateralism, invasion, alliance, expansion, and double standards—so tainted the notion of democracy promotion that many in the

foreign policy establishment exhorted President Obama to abandon the practice. In this passionate and persuasive book, Morton Halperin and Michael Fuchs argue that abandoning the promotion of democracy would be a great mistake. Patient efforts over the past three decades have laid the foundations for a widening international commitment to sustain and expand the writ of democracy in the world. An American retreat to "realism" would only hearten the autocracies that rightly fear going the way of the dinosaurs. Halperin and Fuchs present new and proactive ideas for how the United States can and should help countries that are on the path to democracy and how it may help peoples struggling to establish a democratic regime. Advance praise for *The Survival and the Success of Liberty*"Morton Halperin has been one of Washington's smartest strategic thinkers and once again, in *The Survival and the Success of Liberty*, he shows us why. He illustrates a critical point: America benefits when more countries are democratic, and democracies should help each other not just to vote, but also to deliver what their people need."— Madeleine K. Albright, 64th U.S. Secretary of State "Fresh in its insights and yet deeply informed by history, this book provides a viable and progressive alternative to the hubris and hypocrisy that has undermined previous American approaches to democracy promotion."— Larry Diamond, senior fellow, Hoover Institution and Freeman Spogli Institute, and director, Center on Democracy, Development, and the Rule of Law, Stanford University "Honest, engaging, and deeply wise, it should be included in courses on U.S. foreign policy and read by all who care about making America's ideals more achievable.— Ted Widmer, senior research fellow, American Strategy Program, New America Foundation, and director of the John Carter Brown Library at Brown University

## Media and Politics in Latin America

### The Struggle for Democracy

*Sage Publications* The "overview articles have a welcome clarity and an anchoring in fact and experience often missing in work on Latin American media. To [Fox's] credit, she has selected authors who mostly underplay rhetorical generality for well-told tales about media policy." --The Democratic Communique "This well-written, well-researched book shows the courage of electronic journalists and how they have adjusted to--and often transcended and helped end-- censorship and persecution. History comes alive in its retelling by these skillful essayists." --The Times of the Americas "Tightly written and tightly edited, minimally documented, but well researched, this volume breaks new ground and

can serve as an advanced undergraduate and graduate textbook, as well as an indispensable reference." --Choice "This collection of essays contributes significantly toward filling the English-language void of information about media policies in Latin America. Fox has done a good job of pulling together diverse media experiences in Latin America, and an excellent distribution of work among scholars from the area. The book will augment readings for Latin Americanists and for others interested in international media." --Journalism Quarterly "Fox and 13 well-known and well-chosen Latin American communicologists document and build a balanced view of what happened to 'the people, the media and the government' in Argentina, Bolivia, Brazil, Chile, Colombia, El Salvador, Peru, and Uruguay' in the fifty or so years of the Latin America media." --Journal of Communication "This is a well-researched, well-organized and well-written book of general interest. History comes alive in the skillful writings of these essayists." --MediaDevelopment The relationship between the mass media and political power attracts worldwide and perennial interest. It is a topic that has generated particularly heated debate in Latin America. At times, controversial attempts to enact national communication policies have radically altered the ownership of the media and the content of reporting. At others, the media have been the target of harsh censorship and virulent government repression. *Media and Politics in Latin America* examines the different forces that have affected the modern mass media in the region. Elizabeth Fox presents a stimulating overview of media policies, including early commercialization and government intervention, the movements for reform, the impact of the dictatorships and the recovery of democracy. Thirteen illuminating studies then trace the major themes through nine countries. Finally, the conclusion assesses the prospects for attaining the democratic goals of social equality and participation in the Latin American media. A comprehensive examination relating universal issues to specific cases in a key region, this volume will be of interest to scholars and professionals in the fields of communication, media studies, and Latin American or Third World studies.

## Latin American Politics and Development

For over thirty years, *Latin American Politics and Development* has kept instructors and students abreast of current affairs and changes in Latin America. Now in its ninth edition, this definitive text has been updated throughout and features contributions from experts in the field, including twenty new and revised chapters on Mexico, Central America, the Caribbean, and South America. The fully updated foundational section includes new chapters on political economy and U.S.-Latin American relations and covers the changing context of Latin American politics, the pattern of historical development, political culture, interest groups and political parties, government machinery, the role of the

state and public policy, and the struggle for democracy. In addition to detailed country-by-country chapters, *Latin American Politics and Development* provides a comprehensive regional overview.
