ask the best possible question. Innovation expert Warren Berger shows that ability is both an art and a science. It may be the most underappreciated tool at our disposal, one we learn to use well in infancy-and then abandon as we grow older. Critical to learning, innovation, success, even to happiness-yet often discouraged in our schools and workplaces-it can unlock new business opportunities and reinvent industries, spark creative insights at many levels, and provide a transformative new outlook on life. It is the ability to question-and to do so deeply, imaginatively, and "beautifully." In this fascinating exploration of the surprising power of questioning, innovation expert Warren Berger reveals that powerhouse businesses like Google, Nike, and Netflix, as well as hot Silicon Valley startups like Pandora and Airbnb, are fueled by the ability to ask fundamental, game-changing questions. But Berger also shares human stories of people using questioning to solve everyday problems-from "How can I adapt my career in a time of constant change?" to "How can I step back from the daily rush and figure out what really makes me happy?" By showing how to approach questioning with an open, curious mind and a willingness to work through a series of "Why," "What if," and "How" queries, Berger offers an inspiring framework of how we can all arrive at better solutions, fresh possibilities, and greater success in business and life.

These questions would make a great addition to your travel games list or even a great game to play on the playground. These questions are great for getting your kids laughing and using their critical thinking skills. Sure, knock knock jokes are juvenile and corny. But when anybody says "knock knock" to you, it's almost physically impossible to not respond with "Who's there?" We have to know the answer. It's an involuntary reflex. There's something hardwired into our brains that needs to complete the knock knock exchange. Maybe it's because even the worst knock knock joke is surprising. Anybody who reacts to a knock knock joke by saying "I totally saw that coming" is lying through their teeth. No, you didn't. If the most important ingredient in comedy is surprise, then knock knock jokes might very well be the truest form of comedy. Even when they're awful, they're amazing, and they're all about surprise. ★★★ ✓ Excellent companion for long travels ✓ Pass time for your kids to make them have a lot of fun ✓ Great icebreaker for boring parties or awkward silences ✓ Great gift idea for your family and friends
