HONG KONG AND THE COLD WAR

ANGLO-AMERICAN RELATIONS 1949-1957

Oxford University Press on Demand After 1949, the British Empire in Hong Kong was more vulnerable than the lack of Chinese demand for return and the success of Hong Kong's economic transformations might have suggested. Its vulnerability stemmed as much from Britain's imperial decline and America's Cold War requirements as from a Chinese threat. It culminated in the little known '1957 Question', a year when the British position in Hong Kong appeared more uncertain than any time since 1949. This is the first scholarly study that places Hong Kong at the heart of the Anglo-American relationship in the wider context of the Cold War in Asia. Unlike existing works, which tend to treat British and US policies in isolation, this book explores their dynamic interactions - how the two allies perceived, responded to, and attempted to influence each other's policies and actions. It also provides a major reinterpretation of Hong Kong's involvement in the containment of China. Dr Mark argues that, concerned about possible Chinese retaliation, the British insisted and the Americans accepted that Hong Kong's role should be as discreet and non-confrontational in nature as possible. Above all, top decision-makers in Washington evaluated Hong Kong's significance not in its own right, but in the context of the Anglo-American relationship: Hong Kong was seen primarily as a bargaining chip to obtain British support for US policy elsewhere in Asia. By using a variety of British and US archival material as well as Chinese sources, Dr Mark examines how the British and US government discussed, debated, and disagreed over Hong Kong's role in the Cold War, and reveals the dynamics of the Anglo-American alliance and the dilemmas of small allies in a global conflict.

WAR, JOURNALISM AND THE SHAPING OF THE TWENTIETH CENTURY

teNeues Henry Nevison was a renowned British war correspondent (1856 - 1941) who keenly observed the dramatic political and military conflicts of his day. This book is the first major biography, drawing together his commentary over a period of fifty years. In diaries and print, Nevison tracked wars from Greece to South Africa and covered the key events of the First World War. He exposed slavery in the Portuguese Empire, championed women's suffrage, struggles in Ireland and the Balkans and visited Palestine, Iraq and the US in the 1920s. Nevison's original perspectives help to explain the modern world order and the political conflicts of today.

LIBERAL FORCES IN TWENTIETH CENTURY YUGOSLAVIA

MEMOIRS OF LADISLAV BEVC

Peter Lang Liberal Forces in Twentieth Century Yugoslavia: Memoirs of Ladislav Bevc spans 80 years of his professional and political life: from the early years of his childhood in the large family of a civil servant, to his studies in Vienna and the interruption of his professional career by military service at the Eastern and Western front under the detested Austrian flag, to a flourishing career in the liberated homeland of Yugoslavia. Born in Skocijan, Slovenia, he graduated as a civil engineer from the Technical University in Vienna. In World War I, he served on the front in Russia and France. Following the war, Ladislav Bevc focused his life on politics, civic organizations, and the engineering profession. In Ljubljana, he served as a city councilman and was active in civic and academic affairs. He helped establish a new University and resisted Communist subversion in the Sokol Patriotic Gymnast Association. Following the German invasion in World War II, he joined the resistance movement of General Dragoljub Mihajlovich, which led to encounters with the Gestapo and eventual political emigration. In 1949, he immigrated to California, where he remained active in the efforts to liberate Yugoslavia from the Communists and rescued his family, who had been held hostage. In the free world, he organized the Slovenian liberal émigrés in the Slovenian Democratic Party and was instrumental in rebuilding the Yugoslav Sokol in the Free World. He practiced civil engineering in the United States, where he was elected Fellow of the American Society of Civil Engineers. He died on November 29, 1988.

ASIA'S UNKNOWN UPRISINGS VOLUME 1

SOUTH KOREAN SOCIAL MOVEMENTS IN THE 20TH CENTURY

PM Press Using social movements as a prism to illuminate the oft-hidden history of 20th-century Korea, this book provides detailed analysis of major uprisings that have patterned that country's politics and society. From the 1894 Tonghak Uprising through the March 1, 1919, independence movement and anti-Japanese resistance, a direct line is traced to the popular opposition to U.S. division of Korea after World War Two. The overthrow of Syngman Rhee in 1960, resistance to Park Chung-hee, the 1980 Gwangju Uprising, as well as student, labor, and feminist movements are all recounted with attention to their economic and political contexts. South Korean opposition to neoliberalism is portrayed in detail, as is an analysis of neoliberalism's rise and effects. With a central focus on the Gwangju Uprising (that ultimately proved decisive in South Korea's democratization), the author uses Korean experiences as a baseboard to extrapolate into the possibilities of global social movements in the 21st century. Previous English-language sources have emphasized leaders—whether Korean, Japanese, or American. This book emphasizes grassroots crystallization of counter-elite dynamics and notes how the intelligence of ordinary people surpasses that of political and economic leaders holding the reins of power. It is the first volume in a two-part study that concludes by analyzing in rich detail uprisings in nine other places: the Philippines, Burma, Tibet, China, Taiwan, Bangladesh, Nepal, Thailand, and Indonesia. Richly illustrated, with tables, charts, graphs, index, and endnotes.

THE POLITICS OF TRANSPORT IN TWENTIETH-CENTURY FRANCE

McGill-Queen's Press - MQUP Few aspects of economic development have had such a widespread or profound impact on the reshaping of contemporary France as transportation. As a result, transport policy has brought many of the major social forces into conflict. Monopolistic railway companies, closely aligned with the banks, combated the defenders of the regions and small towns. The fiercely independent truckers and barge-haulers, proponents of the small family firm, collided with the forces of the state. Apostles of the transatlantic gospel of free enterprise and technical progress clashed with supporters of a planned, socialist society.

STALIN'S WARS

FROM WORLD WAR TO COLD WAR, 1939-1953

[Yale University Press](#) *This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader; his relationships with his own generals and with other great world leaders; his foreign policy; and his role in instigating the Cold War. While frankly exploring the full extent of Stalin's brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader. The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace.*

Reporting the War brings to life how the press has affected the course of some, but not all, American wars, how the government has tried to suppress opposing opinion, how the press has struggled, and continues to struggle to preserve the principles of the Founding Fathers. Cooke charts a fascinating journey from the American Revolution to the ongoing War on Terrorism.*

QUERYING THE MEDIEVAL

TEXTS AND THE HISTORY OF PRACTICES IN SOUTH ASIA

Oxford University Press on Demand *"Drawing on thinkers as diverse as V.N. Volosinov, R.G. Collingwood, and E. Laclau, this volume challenges the predominant idea of a text as "monological" both in its "authorist" and "contextualist" versions. The authors instead seek to understand texts as "dialogical" moments in the relations that agents have with themselves and with other agents. From this perspective, each author is able to pry open a particular text and reveal the articulative relation that each has had with the world in which it was situated. The result is a revised look at the relationship between history, national identity, and religion in medieval South Asia."--Jacket.*

ASIAN GODFATHERS

MONEY AND POWER IN HONG KONG AND SOUTH-EAST ASIA

The economies of Hong Kong and south-east Asia are dominated by only forty or fifty families. Their interests range from banking to property, from shipping to sugar, from gambling to lumber. At their peak, eight of the world's two dozen richest families were south-east Asian, yet they are largely unknown outside the region. A complex mythology surrounds them, one which informs Asian views on culture, entrepreneurialism and economics. In this explosive account, Joe Studwell finds that the facts are even more remarkable than the myths, as he lifts the lid on a world of hypocrisy, power and enormous wealth. Through the hidden lives of some mysterious and fascinating men, Studwell explores the broader economic and political issues facing a region of 500 million people: how the Asian tycoons took such a strong hold over their local economies, how they survived the Asian financial crisis that began in 1997, and what their endurance teaches us about the real state of the countries they live in.

THE JAPANESE SIEGE OF TSINGTAU

WORLD WAR I IN ASIA

DEFENDING THE EMPIRE

THE CONSERVATIVE PARTY AND BRITISH DEFENCE POLICY, 1899-1915

Yale University Press Deference issues were of central importance in British politics in the years before the first World War, as naval and military policy absorbed the attention of politicians of both parties. The growing menace to Britain of the German Navy focused public attention on questions of naval strength and home defense. However, the heavy cost of overhauling the British Empire's stretched defenses clashed with the domestic political priorities of successive governments. This book is the first scholarly work to examine the vigorous political debates over defense policy in this era from the perspective of the Conservative party, who were in office from 1899 to 1905 and in opposition from 1905 to 1914. It focuses in particular on the ideas and actions of Arthur James Balfour, leader of the Conservative party from 1902 to 1911 Rhodri Williams assesses how effective the Conservative leadership was in realizing its policy objectives. By explaining the Conservatives' approach to contemporary controversies over conscription and the construction of Dreadnoughts, he highlights the complexity of the problems facing British policymakers in the period after the Boer War when, against a bleak financial background, they sought to rationalize and strengthen the Empire's defenses. The book is important for many reasons. It significantly advances our understanding of the nature of Conservative politics in the early twentieth century. It sheds fresh light on one of the major areas of party political contention in the Edwardian era. It gives us interesting information on Balfour and on a key period of his distinguished political career. And it offers a new perspective on the process by which British defense policy ceased to revolve around the "Great Game" with Russia in Central Asia and came increasingly to turn on Anglo-German naval rivalry in the North Sea.

THE SECOND INDOCHINA WAR

A CONCISE POLITICAL AND MILITARY HISTORY

Rowman & Littlefield Publishers Now in a thoroughly revised edition, this influential book offers a concise history of the "Vietnam War" as seen by all sides, not just from the American perspective. Retaining its invaluable account of the strategies, perspectives, and internal politics of the Vietnamese Communists based on research in primary documents and interviews in Saigon and Hanoi, this completely updated and expanded edition incorporates the avalanche of documentation and secondary literature in both English and Vietnamese that has appeared over the past two decades. Distinguished scholar William S. Turley traces the conflict from its origins in the colonial period to its aftermath and shows how the local, national, regional, and global layers of conflict blended into a single event of great complexity. He takes a refreshingly objective look at contentious issues and concludes with a penetrating assessment of the claims, justifications, and "lessons" that scholars, statesmen, and strategists have advanced since the war's end. More information is available on the author's website.
