But many questions remain about how exactly independence should be defined and how its relationship might be understood with other parts of the cinematic landscape, most notably the Hollywood studios. Edited and written by leading authors in the field, American Independent Cinema: indie, indiewood and beyond offers an examination of the field through four sections that range in focus from broad definitions to close focus on particular manifestations of independence. A wide variety of examples are included but within a framework that offers insights into how these are related to one another. More specifically this collection offers: an account of recent developments as well as reviewing, reassessing and revising a number of central positions, approaches and arguments relating to various parts of the independent and/or indie sector. Individual case studies that range from the distinctive qualities of the work of established 'quality' filmmakers such as Wes Anderson, Steven Soderbergh and Rebecca Miller to studies of horror genre production at the more 'disreputable' end of the independent spectrum. Examples of the limits of independence available in some cases within Hollywood, including studies of the work of Stanley Kubrick and Hal Ashby. Case studies of under-researched areas in the margins of American independent cinema, including the Disney nature films and Christian evangelical filmmaking. A number of wider overview chapters that examine contemporary American independent cinema from a number of perspectives. Together, the chapters in

the collection offer a unique contribution to the study of independent film in the United States. Twelve Years a Slave Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt Ward's Business Directory of U.S. Private and Public Companies Great Book of World Facts, Lists and Quizzes This quiz book contains over 600 pages crammed with questions that will challenge the nimblest of minds and stretch the limits of your trivia knowledge. Alan Partridge: Nomad Hachette UK As seen on This Time with Alan Partridge on BBC One. What brilliant writing' Richard Osman 'Sensational' Jenny Colgan 'Hilarious' Jon Ronson 'Brilliantly funny' Marcus Brigstocke In ALAN PARTRIDGE: NOMAD, Alan dons his boots, windcheater and scarf and embarks on an odyssey through a place he once knew - it's called Britain - intent on completing a journey of immense personal significance. Diarising his ramble in the form of a 'journey journal', Alan details the people and places he encounters, ruminates on matters large and small and, on a final leg fraught with danger, becomes - not a man (because he was one to start off with) - but a better, more inspiring example of a man. This deeply personal book is divided into chapters and has a colour photograph on the front cover. It is deeply personal. Through witty vignettes, heavy essays and nod-inducing pieces of wisdom, Alan shines a light on the nooks of the nation and the crannies of himself, making this a biography that biographs the biographer while also biographing bits of Britain. Often ragged, unkempt, ill-spoken, rotting individuals, zombies (or the post-dead) seem socially awkward in comparison to the more popular and more aristocratic, undead, like Count Dracula and his peers. And so, the humble zombie remains, for the most part, unappreciated and unacknowledged--until now. No longer will films devoted to them be buried in the last pages of horror movie guides. The exhumation of zombie films from obscurity is accomplished in terrifying detail in The Zombie Movie Encyclopedia. The first exhaustive overview of the subject, this book evaluates over 200 movies from 16 countries over a 65-year period starting from the early 1930s. It mostly treats feature-length films, covering everything from large studio productions to backyard videography, but also touches on memorable episodes of television series and miscellaneous shorts. Lengthy entries point out interesting or innovative features of the zombie portrayal in each movie, while an introduction traces the evolution of the genre and interprets the broader significance of the zombie in contemporary Western mythology. Productions credits, a brief plot summary, and alternate titles accompany each entry.
