THE ART OF HAPPINESS AT WORK

Hachette UK The Art of Happiness has become the classic guide to the Dalai Lama's enlightened approach to living - illuminating the profound principles and perceptive wisdom of this revered spiritual leader, from a clear western perspective. Now, in this inspirational new volume, his unique collaboration with Howard C. Culter returns to provide a practical application of Tibetan Buddhist spirital values to the world of work. In our current stressful working climate, more and more people are becoming disenchanted with the roles they adopt at work, and how significantly their working persona differs from the person they are outside the workplace. In this wise and practical book, the Dalai Lama shows us how to place our working lives into the context of our lives as a whole. Rather than striving to find a role which suits us, we should allow our work to arise naturally from who we are - and what is most important to us. From here we reach a pathway that can lead us to true life fulfilment and purpose. GIRL GANGS, BIKER BOYS, AND REAL COOL CATS

PULP FICTION AND YOUTH CULTURE, 1950 TO 1980

PM Press Girl Gangs, Biker Boys, and Real Cool Cats is the first comprehensive account of how the rise of postwar youth culture was depicted in mass-market pulp fiction. As the young created new styles in music, fashion, and culture, pulp fiction shadowed their every move, hyping and exploiting their behaviour, dress, and language for mass consumption and cheap thrills. From the juvenile delinquent gangs of the early 1950s through the beats and hippies, on to bikers, skinheads, and punks, pulp fiction left no trend untouched. With their lurid covers and wild, action-packed plots, these books reveal as much about society's deepest desires and fears as they do about the subcultures themselves. Girl Gangs features approximately 400 full-color covers, many of them never reprinted before. With 70 in-depth author interviews, illustrated biographies, and previously unpublished articles from more than 20 popular culture critics and scholars from the US, UK, and Australia, the book goes behind the scenes to look at the authors and publishers, how they worked, where they drew their inspiration and—often overlooked—the actual words they wrote. Books by well-known authors such as Harlan Ellison and Lawrence Sanders are discussed alongside neglected obscurities and former bestsellers ripe for rediscovery. It is a must read for anyone interested in pulp fiction, lost literary history, retro and subcultural style, and the history of postwar youth culture. Contributors include Nicolas Tredell, Alwyn W. Turner, Mike Stax, Clinton Walker, Bill Osgerby, David Rife, J.F. Norris, Stewart Home, James Cockington, Joe Blevins, Brian Coffey, James Doig, David James Foster, Matthew Asprey Gear, Molly Grattan, Brian Greene, John Harrison, David Kiersh, Austin Matthews, and Robert Baker.

THE ART OF LIVING

HarperOne One of the most revered spiritual leaders in the world today teaches us how to find nirvana—how to live most deeply and peacefully every day. Many people believe that nirvana is a state of nonbeing that can only be reached through death. In *The Art of Living*, Zen Master Thich Nhat Hanh dispels this dangerous misconception, and teaches us how to enjoy enlightenment in this life without losing ourselves. We need our bodies to touch nirvana—to experience it with our feet, our eyes, our hands. That is the reality of no birth and no death, no afflictions, no burning, the extinction of the flames. The Buddha himself has said, "my teaching is not about nonbeing. My teaching is to overcome the notion of being and nonbeing." In *The Art of Living*, Thich Nhat Hanh explores two essential questions: What happens when we are still alive? What happens when we die? As he ultimately shows, if you can answer the first question, the answer to the second comes easily. Based on the last full talks he gave before his sudden hospitalization, this thought-provoking book is filled with simple meditations and practices that focus on recognizing our interconnectedness with those around us, as well as with nonliving beings and the entire cosmos. Arranged in short sections around a few common themes, these teachings offer opportunities and inspiration for being fully alive in the present moment—consciousness that allows us to face aging, dying, and the unknown with curiosity and joy and without fear. With powerful mindfulness, concentration, and insight, we can live deeply every moment of our daily lives and touch our enlightened nature. When we become aware of our cosmic body, of our God body, of our nirvana body, then we are no longer afraid of birth and death, being and nonbeing. That is nirvana, the pinnacle of the Buddha's teaching and practice.

THE ARTS APOTHECARY

A VITAL PRESCRIPTION FOR HEALTH, HAPPINESS AND WELLBEING

Did you know that looking at a painting for 10 minutes or listening to a piece of music can lower your cortisol levels and increase your blood pressure? Whether it's a free visit to a museum or art gallery, picking up a book, joining a drawing or dance class, or going to the theatre, we benefit from arts and culture, in a deeply personal, enriching way. But what you may not have realised, is that these moments are directly related to your health. That you are tapping into a little-known strategic resource - one that can enhance and prolong your life and make changes in the world. Interspersed with her own story, Jill Rivers advocates the rediscovery of the value of arts and culture as a prescription towards the healing of our troubled world. It draws attention to the overlooked impact of arts and culture on our social wellbeing and cohesion, our physical and mental health, our education system, our national status and our economy. This book considers the potential of arts and culture as a potion that offers joy, hope and possibility to people of all ages and status, young, old, impoverished, disadvantaged, recovering from illness, crime or substance abuse, depressed, lonely or distraught, across the globe.

BOUNDARIES OF MODERN ART

Arena books 'Conceptual art in the Western world is in crisis.' That is the view of many people who are disillusioned with what they regard as its attention-seeking antics, where artists themselves have proudly proclaimed 'the death of art'. Why has art been on this road to destruction, and how did it get there? How does one make sense of the bewildering complexity of Conceptual art, and how does one extract meaning from its diverse and sometimes bizarre manifestations? This predicament needs explanation, and an exploration of the theoretical underpinnings of modern and contemporary art, and a means to evaluate it. This book starts with a summarised overview of the major art movements since the beginning of the twentieth century, a tracing of the extraordinary journey that art has followed in modern times. The next part considers contemporary art movements, to explore whether they have value, and how that value can be determined. Are the activities that take place in the name of art

actually art? Or, as some would have it, is it a gigantic sham, manipulated by clowns to make a trap for fools? To some, it is an outrage that modern and contemporary artists can splash paint around quickly and freely, with a modicum of skill, or assemble a range of found objects, and regard themselves as gifted and creative artists. Others see this as a new, forward-rolling wave, with art at last released from the suffocation and restrictions of the past. The rules have been cast aside. There are fresh ways of exploring and seeing the world, and expressing it freely. The world is constantly changing, and art must change with it. Modern art has followed a long journey. Traditions have been largely cast aside, and replaced with an unceasing search for the new. Our apparent progress is now being questioned. Where do we go from here? Are we on the right road? The second half of this book discusses how we can make sense of contemporary art and assign value to an artwork. Traditional painting and sculpture have physical limits, Conceptual art does not. This is a new freedom - but is it freedom for art, or freedom from art?

THE BOOK OF JOY

LASTING HAPPINESS IN A CHANGING WORLD

Penguin An instant New York Times bestseller Two spiritual giants. Five days. One timeless question. Nobel Peace Prize Laureates His Holiness the Dalai Lama and Archbishop Desmond Tutu have survived more than fifty years of exile and the soul-crushing violence of oppression. Despite their hardships—or, as they would say, because of them—they are two of the most joyful people on the planet. In April 2015, Archbishop Tutu traveled to the Dalai Lama's home in Dharamsala, India, to celebrate His Holiness's eightieth birthday and to create what they hoped would be a gift for others. They looked back on their long lives to answer a single burning question: How do we find joy in the face of life's inevitable suffering? They traded intimate stories, teased each other continually, and shared their spiritual practices. By the end of a week filled with laughter and punctuated with tears, these two global heroes had stared into the abyss and despair of our time and revealed how to live a life brimming with joy. This book offers us a rare opportunity to experience their astonishing and unprecedented week together, from the first embrace to the final good-bye. We get to listen as they explore the Nature of True Joy and confront each of the Obstacles of Joy—from fear, stress, and anger to grief, illness, and death. They then offer us the Eight Pillars of Joy, which provide the foundation for lasting happiness. Throughout, they include stories, wisdom, and science. Finally, they share their daily Joy Practices that anchor their own emotional and spiritual lives. The Archbishop has never claimed sainthood, and the Dalai Lama considers himself a simple monk. In this unique collaboration, they offer us the reflection of real lives filled with pain and turmoil in the midst of which they have been able to discover a level of peace, of courage, and of joy to which we can all aspire in our own lives.
