
File Type PDF Cambridge Migrations Centre Data For Doentation

Recognizing the pretension ways to get this ebook **Cambridge Migrations Centre Data For Doentation** is additionally useful. You have remained in right site to start getting this info. acquire the Cambridge Migrations Centre Data For Doentation belong to that we give here and check out the link.

You could purchase guide Cambridge Migrations Centre Data For Doentation or acquire it as soon as feasible. You could speedily download this Cambridge Migrations Centre Data For Doentation after getting deal. So, gone you require the book swiftly, you can straight acquire it. Its consequently no question easy and therefore fats, isnt it? You have to favor to in this melody

KEY=MIGRATIONS - BURNETT ALESSANDRO

WORLD MIGRATION REPORT 2020

United Nations Since 2000, IOM has been producing world migration reports. The **World Migration Report 2020**, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

MIGRATION AND HEALTH

A RESEARCH METHODS HANDBOOK

Univ of California Press This path-breaking handbook is the first to engage with the many unique issues that arise in the study of migrant communities, offering a comprehensive description of quantitative and qualitative methodologies useful in work with migrant populations. Simultaneous eBook.

MIGRATION CULTURE

A COMPARATIVE PERSPECTIVE

Springer Nature This book examines the emergence of a culture of migration through outward migration as a country-specific phenomenon and analyzes it from different perspectives, covering various aspects such as the history of a country, its migration flows, migration push factors, social, economic, and political issues, as well as individual values. In the first part, the authors present a theoretical background on migration culture formation. This is followed by an in-depth analysis of migration culture in Lithuania in the second part. The presented case study is based on a quantitative survey study of almost 5.400 respondents. Further, the results of this case study are compared and adapted to other classical migration countries in the European Union, such as Spain or Portugal. The book, therefore, is a must-read for everybody interested in a better understanding of migration and the emergence of a culture of migration in different countries.

MATHEMATICS OF MULTIDIMENSIONAL SEISMIC IMAGING, MIGRATION, AND INVERSION

Springer Science & Business Media For more than 80 years, the oil and gas industry has used seismic methods to construct images and determine physical characteristics of rocks that can yield information about oil and gas bearing structures in the earth. This book presents the different seismic data processing methods, also known as seismic "migration," in a unified mathematical way. The book serves as a bridge between the applied math and geophysics communities by presenting geophysicists with a practical introduction to advanced engineering mathematics, while presenting mathematicians with a window into the world of the mathematically sophisticated geophysicist.

THE CAMBRIDGE HANDBOOK OF ENDANGERED LANGUAGES

Cambridge University Press It is generally agreed that about 7,000 languages are spoken across the world today and at least half may no longer be spoken by the end of this century. This state-of-the-art Handbook examines the reasons behind this dramatic loss of linguistic diversity, why it matters, and what can be done to document and support endangered languages. The volume is relevant not only to researchers in language endangerment, language shift and language death, but to anyone interested in the languages and cultures of the world. It is accessible both to specialists and non-specialists: researchers will find cutting-edge contributions from acknowledged experts in their fields, while students, activists and other interested readers will find a wealth of readable yet thorough and up-to-date information.

PHILIPPINE LABOUR MIGRATION

CRITICAL DIMENSIONS OF PUBLIC POLICY

Institute of Southeast Asian Studies There are currently more than six million Filipino workers in over 120 countries in jobs

ranging from maids to managers. The Philippine Government has encouraged the manpower exodus to absorb the country's surplus labour and to bring foreign exchange earnings into the Philippine economy. However, non-governmental organizations have argued that social dysfunctions associated with working abroad have not been adequately addressed. Using an analytical framework that blends multiple stakeholders' perspectives, the author assesses the historical, demographic, economic, social, and political dimensions of Philippine labour migration policy from the early 1900s to the late 1990s. Focusing on recent issues, he provides an integrated evaluation from a public policy perspective, balancing both state and societal viewpoints. [A separate soft cover edition is available from De La Salle University Press for customers in the Philippines only.]

IMPACT OF EXTREME RIGHT PARTIES ON IMMIGRATION POLICY

COMPARING BRITAIN, FRANCE AND ITALY

Routledge Drawing on a mixed research methodology with a strong qualitative character, this book traces the political impact of the British National Party in the UK, the Front National in France and the Lega Nord in Italy by exploring their contagion effects on immigration politics and policy in particular over the patterns of inter-party competition, public behaviour and policy developments. This book suggests that extreme right party impact on immigration politics and policy is an outcome of the extreme right parties' electoral threats to established parties alongside the agency of mainstream political elites. It also highlights the decline in the intensity of extreme right parties' contagion effects on public attitudes to immigration throughout the late 2000s or the potential overstatement of this political process in the past. Featuring detailed case studies of the UK, France and Italy as three mature multi-party democracies where the extreme right was on the rise during the past decade, this work will be of great interest to students and scholars of populism, extremism, European politics and comparative and party politics.

MIGRATION IN AFRICA

SHIFTING PATTERNS OF MOBILITY FROM THE 19TH TO THE 21ST CENTURY

Routledge This book introduces readers to the age of intra-African migration, a period from the mid-19th century onward in which the center of gravity of African migration moved decisively inward. Most books tend to zoom in on Africa's external migration during the earlier intercontinental slave trades and the more recent outmigration to the Global North, but this book argues that migration within the continent has been far more central to the lives of Africans over the course of the last two centuries. The book demonstrates that only by taking a broad historical and continent-wide perspective can we understand the distinctions between the more immediate drivers of migration and deeper patterns of change over time. During the 19th century Africa's external slave trades gradually declined, whilst Africa's expanding commodity export sectors drew in domestic labor. This led to an era of heightened mobility within the region, marked by rapidly rising and vanishing migratory flows, increasingly diversified landscapes of migration systems, and profound long-term shifts in the wider patterns of migration. This era of inward-focused mobility reduced with a resurgence of outmigration after 1960, when Africans became more deliberate in search of extra-continental destinations, with new diaspora communities emerging specifically in the Global North. Broad ranging in its temporal, spatial, and thematic coverage, this book provides students and researchers with the perfect introduction to age of intra-African migration.

SOUTHERN OCEAN ECOLOGY

THE BIOMASS PERSPECTIVE

Cambridge University Press Presents the results of a 15-year research programme into the ecology of the Antarctic marine environment.

MEXICAN LABOR MIGRATION TO THE UNITED STATES

DETERMINANTS, LABOR MARKET OUTCOMES AND DYNAMICS

MIGRATION AND ASYLUM LAW AND POLICY IN THE EUROPEAN UNION

FIDE 2004 NATIONAL REPORTS

Cambridge University Press An international survey covering the migration and asylum laws of 15 EU member states.

INFORMATION INDUSTRY MARKET PLACE

WORKING LIVES

GENDER, MIGRATION AND EMPLOYMENT IN BRITAIN, 1945-2007

John Wiley & Sons Full of unique and compelling insights into the working lives of migrant women in the UK, this book

draws on more than two decades of in-depth research to explore the changing nature of women's employment in post-war Britain. A first-rate example of theoretically located empirical analysis of labour market change in contemporary Britain includes compelling case studies that combine historical documentation of social change with fascinating first-hand accounts of women's working lives over decades. Integrates information gleaned from more than two decades of in-depth research. Revealing comparative analysis of the similarities and differences in the lives of immigrant working women in post-war Britain. Features real-life accounts of women's under-reported experiences of migration.

AFRICAN RESEARCH & DOCUMENTATION

GWINNETT COUNTY, GEORGIA, AND THE TRANSFORMATION OF THE AMERICAN SOUTH, 1818-2018

University of Georgia Press In Gwinnett County's two hundred years, the area has been western, southern, rural, suburban, and now increasingly urban. Its stories include the displacement of Native peoples, white settlement, legal battles over Indian Removal, slavery and cotton, the Civil War and the Lost Cause, New South railroad and town development, Reconstruction and Jim Crow, business development and finance in a national economy, a Populist uprising and Black outmigration, the entrance of women into the political arena, the evolution of cotton culture, the development of modern infrastructure, and the transformation from rural to suburban to a multicultural urbanizing place. Gwinnett, as its chamber of commerce likes to say, has it all. However, Gwinnett has yet to be the focus of a major historical exploration—until now. Through a compilation of essays written by professional historians with expertise in a diverse array of eras and fields, Michael Gagnon and Matthew Hild's collection finally tells these stories in a systematic way—avoiding the pitfalls of nonprofessional local histories that tend to ignore issues of race, class, or gender. While not claiming to be comprehensive, this book provides general readers and scholars alike with a glimpse at Gwinnett through the ages.

AIDING AND AGING

THE COMING CRISIS IN SUPPORT FOR THE ELDERLY BY KIN AND STATE

Greenwood Publishing Group Citizens of all societies age both as biological beings and as members of households in the open community. Through joining a series of essays and survey analyses, Mogey has constructed a book that examines the way aging affects those who are growing older as well as the institutions of their society. To study the relationships between aiding the elderly and the aging process, two very different societies—the United States and Hungary—were chosen for comparison. Throughout the book, the focus remains on the need to encourage the persistence of the kinship system, and the necessity of public programs to actively support the maintenance of households.

ESSAYS IN LABOR MIGRATION

BLACK BRITISH MIGRANTS IN CUBA

RACE, LABOR, AND EMPIRE IN THE TWENTIETH-CENTURY CARIBBEAN, 1898-1948

Cambridge University Press Provides a valuable transnational history of the African Diaspora through examination of British Afro-Caribbeans in Cuba.

RESHAPING THE WORLD

RETHINKING BORDERS

MDPI This volume provides information and analyses to better grasp the social implications of geographical borders as well as the individuals who travel between them and those who live in border regions. Sociologists, anthropologists, philosophers, linguists, and scholars of international relations and public health are just some of the authors contributing to *Rethinking Borders*. The diversity in the authors' disciplines and the topics they focus on exemplify the intricacies of borders and their manifold effects. This openness to so many schools of thought stands in contrast to the solidification of stricter borders across the globe. The contributions range from case studies of migrants' sense of belonging and safety to theoretical discussions about migration and globalization, from empirical studies about immigrant practices and exclusionary laws to ethical concerns about the benefits of inclusion. It is timely that this collective work is published in the middle of a pandemic that has affected every single part of the world. Unprecedented border closures and stringent travel restrictions have not been enough to contain the virus entirely. As COVID-19 shows, diseases, ideas, and xenophobic and racist discourses know no borders. Plans that transcend borders are vital when dealing with global threats, such as climate change and pandemics.

THE BILINGUAL ADVANTAGE

LANGUAGE, LITERACY AND THE US LABOR MARKET

Multilingual Matters The *Bilingual Advantage* draws together researchers from education, economics, sociology, anthropology and linguistics to examine the economic and employment benefits of bilingualism in the US labor market, countering past research that shows no such benefits exist. Collectively, the authors draw on novel methodological approaches and new data to examine the economics of bilingualism for the new generation of bilinguals entering a

digital-age globalized workforce. The authors also pay considerable attention to how to best capture measures of bilingualism and biliteracy, given the constraints of most existing datasets.

RESOURCES IN EDUCATION

GLOBALIZING MIGRATION REGIMES

NEW CHALLENGES TO TRANSNATIONAL COOPERATION

Routledge It has been half a century since the Geneva Refugee Convention came into place, but there is still no comparable international regime which provides for the increasing phenomenon of mobile economic migrants. At a time of global mobility, when migration policies are constantly changing and the security and rights of migrants are called into question, there is clearly a need for strengthened international cooperation. This volume brings together an international team of authors to examine the prospects for improvements in such cooperation and for the establishment of a framework of basic global or regional norms of conduct. Issues addressed in the book include how to augment the development effects of migration for source countries, how to meet the security and rights interests of both states and migrants and how to improve the prospects for integration of migrants in destination countries. With its fresh, policy-focused and global approach, this volume will be of great value to both academics and policy-makers.

DEFLECTING IMMIGRATION

NETWORKS, MARKETS, AND REGULATION IN LOS ANGELES

Russell Sage Foundation As international travel became cheaper and national economies grew more connected over the past thirty years, millions of people from the Third World emigrated to richer countries. A tenth of the population of Mexico relocated to the United States between 1980 and 2000. Globalization theorists claimed that reception cities could do nothing about this trend, since nations make immigration policy, not cities. In *Deflecting Immigration*, sociologist Ivan Light shows how Los Angeles reduced the sustained, high-volume influx of poor Latinos who settled there by deflecting a portion of the migration to other cities in the United States. In this manner, Los Angeles tamed globalization's local impact, and helped to nationalize what had been a regional immigration issue. Los Angeles deflected immigration elsewhere in two ways. First, the protracted network-driven settlement of Mexicans naturally drove up rents in Mexican neighborhoods while reducing immigrants' wages, rendering Los Angeles a less attractive place to settle. Second, as migration outstripped the city's capacity to absorb newcomers, Los Angeles gradually became poverty-intolerant. By enforcing existing industrial, occupational, and housing ordinances, Los Angeles shut down some unwanted sweatshops and reduced slums. Their loss reduced the metropolitan region's accessibility to poor immigrants without reducing its attractiveness to wealthier immigrants. Additionally, ordinances mandating that homes be built on minimum-sized plots of land with attached garages made home ownership in L.A.'s suburbs unaffordable for poor immigrants and prevented low-cost rental housing from being built. Local rules concerning home occupancy and yard maintenance also prevented poor immigrants from crowding together to share housing costs. Unable to find affordable housing or low-wage jobs, approximately one million Latinos were deflected from Los Angeles between 1980 and 2000.

CHILDREN FOR FAMILIES OR FAMILIES FOR CHILDREN

THE DEMOGRAPHY OF ADOPTION BEHAVIOR IN THE U.S.

Springer Science & Business Media Do adoptions provide children for families or families for children? This book analyzes the complex interactions between adopters and adoptees using historical and current data. Who are the preferred parents and children, both domestically and internationally? How do the types of adoptions-domestic adoptions, private and public through the foster care system, and intercountry adoptions-differ? Domestic trends include a shift to open adoptions and a notable increase in "hard to place", foster care adoptions-typically older, siblings, minorities, with physical, educational, or emotional challenges. Adoptive parents are increasingly all ages (including grandparents); all types of marriages (single, married and same-sex couples); all income levels, with subsidized adoptions for children who would otherwise remain in foster or institutional care. Intercountry adoptions have followed waves, pushed by wars and political or economic crises in the sending country, and pulled by the increasing demand from the U. S. Currently there is a decrease in intercountry adoptions from Asia and Eastern Europe with a possible

fifth wave from Africa with the greatest number from Ethiopia. This is a resource for family sociologists, demographers, social workers, advocates for children and adoptive parents, as well as those who are interested in the continuing research in adoptions.

THE OXFORD HANDBOOK OF THE POLITICS OF INTERNATIONAL MIGRATION

Oxford University Press Twenty-nine specialists offer their perspectives on migration from a wide variety of fields: political science, sociology, economics, and anthropology.

RESEARCH HANDBOOK ON INTERNATIONAL MIGRATION AND DIGITAL TECHNOLOGY

Edward Elgar Publishing This forward-looking Research Handbook showcases cutting-edge research on the relationship between international migration and digital technology. It sheds new light on the interlinkages between digitalisation and migration patterns and processes globally, capturing the latest research technologies and data sources. Featuring international migration in all facets from the migration of tech sector specialists through to refugee displacement, leading contributors offer strategic insights into the future of migration and mobility.

NATIONALITY AND STATELESSNESS UNDER INTERNATIONAL LAW

Cambridge University Press This book identifies the rights of stateless people and outlines the major legal obstacles preventing the eradication of statelessness.

YEARBOOK OF INTERNATIONAL ORGANIZATIONS 2010/2011

GUIDE TO GLOBAL AND CIVIL SOCIETY NETWORKS: ORGANIZATION DESCRIPTIONS AND CROSS-REFERENCE

De Gruyter Saur Yearbook of International Organizations is the most comprehensive reference resource and provides current details of international non-governmental (NGO) and intergovernmental organizations (IGO). Collected and documented by the Union of International Associations (UIA), detailed information on international organizations worldwide can be found here. Besides historical and organizational information, details on activities, events or publications, contact details, biographies of the leading individuals as well as the presentation of networks of organizations are included.

DOCUMENTATION ABSTRACTS

ACHIEVING EQUITY FOR LATINO STUDENTS

EXPANDING THE PATHWAY TO HIGHER EDUCATION THROUGH PUBLIC POLICY

Teachers College Press Despite their numbers, Latinos continue to lack full and equal participation in all facets of American life, including education. This book provides a critical discussion of the role that select K-12 educational policies have and continue to play in failing Latino students. The author draws upon institutional, national, and statewide data sets, as well as interviews among students, teachers, and college administrators, to explore the role that public policies play in educating Latino students. The book concludes with specific recommendations that aim to raise achievement, college transition rates, and success among Latino students across the preschool through college continuum. Frances Contreras is an Associate Professor of Higher Education in the area of Leadership and Policy Studies in the College of Education, University of Washington in Seattle "Prof. Frances Contreras is one of the nation's leading authorities on Latino educational problems and on policies that will effectively address these. This book presents a unique and incisive analysis of the Latino educational achievement gap and its connections to concomitant gap in educational opportunities for Latinos. This very readable book combines rigorous scholarship with clearly stated policy recommendations. It should be read by all who are interested in understanding and addressing one of the most serious problems of our times." —Jorge Chapa, University of Illinois at Urbana Champaign "Rich in data and social context, Contreras presents a compelling and comprehensive picture for the collective need to invest fully in the education of our Latino youth. As important, she delineates a bold public policy pathway for Latino student success that encompasses K-12 and higher education." —James M. Montoya, Vice President, Higher Education, The College Board "This book offers valuable insights and productive recommendations for addressing a critically important topic: how to improve educational equity for Latinos, one of our nation's fastest-growing but most-underserved populations." —Laura Perna, Professor, Graduate School of Education, University of Pennsylvania

THE FUTURE OF MIGRATION TO EUROPE

Ledizioni Even as the 2013-2017 “migration crisis” is increasingly in the past, EU countries still struggle to come up with alternative solutions to foster safe, orderly, and regular migration pathways, Europeans continue to look in the rear-view mirror. This Report is an attempt to reverse the perspective, by taking a glimpse into the future of migration to Europe. What are the structural trends underlying migration flows to Europe, and how are they going to change over the next two decades? How does migration interact with specific policy fields, such as development, border management, and integration? And what are the policies and best practices to manage migration in a more coherent and evidence-based way?

THE LOGICS AND POLITICS OF POST-WWII MIGRATION TO WESTERN EUROPE

Cambridge University Press Few phenomena have been more disruptive to West European politics and society than the accumulative experience of post-WWII immigration. Against this backdrop spring two questions: Why have the immigrant-receiving states historically permitted high levels of immigration? To what degree can the social and political fallout precipitated by immigration be politically managed? Utilizing evidence from a variety of sources, this study explores the links between immigration and the surge of popular support for anti-immigrant groups; its implications for state sovereignty; its elevation to the policy agenda of the European Union; and its domestic legacies. It argues that post-WWII migration is primarily an interest-driven phenomenon that has historically served the macroeconomic and political interests of the receiving countries. Moreover, it is the role of politics in adjudicating the claims presented by domestic economic actors, foreign policy commitments, and humanitarian norms that creates a permissive environment for significant migration to Western Europe.
