Climbing The Bookshelves The autobiography of Shirley Williams [Hachette UK](#) *The role of women in our society has changed out of all recognition. But it has changed least in the House of Commons. I want to describe those changes and the resistances to them through the magnifying glass of my own life, a life that coincides with our turbulent post-war history.* Shirley Williams was born to politics. As well as being influenced by her mother, Vera Brittain, her father George Caitlin, a leading political scientist, encouraged his daughter to have high ambitions for herself - including daring to climb the bookshelves in his library. Elected as MP for Hitchin in 1964, she was a member of the Wilson and Callaghan governments and was also the Secretary of State for Education. As one of the 'Gang of Four' Shirley Williams famously broke away from the Labour Party to found the SDP in 1981 and later supported its merger with the Liberal Party to form the Liberal Democrats. CLIMBING THE BOOKSHELVES is the voice of strong and passionate woman of luminous intelligence. **Shirley Williams The Biography** [Biteback Publishing](#) For fifty years Shirley Williams has been one of Britain's best-known and best-loved politicians, admired for her warmth, sincerity, integrity and compassion. Hailing from an impeccable intellectual background, the young Shirley seemed destined for great things as she rose effortlessly up the political ladder. Yet for all the talk of her becoming the country's first female Prime Minister that accolade passed her by, her feisty independence earning her a career that has been anything but perpetual sunshine. In this first-ever biography, Mark Peel explores the dilemma that has faced Williams throughout the highs and lows of her political life: how to tread the line between firmly held principles and party solidarity. Drawing on his unfettered access to the family archive and conversations with Williams's colleagues, Peel skilfully teases out the contradictions at the heart of this remarkable character. Shirley Williams: The Biography reveals the surprisingly vulnerable figure behind the reassuring public façade. It uncovers the expectations placed on Williams by her highly ambitious parents, her guilt about her privileged background, and her often tumultuous personal relationships. The result is a touching, intimate portrait of one of the most complex and popular politicians of our time, a woman who through good times and bad has retained her essential humanity. **Testament of Youth** [Prabhat Prakashan](#) For nearly a decade I have wanted, with a growing sense of urgency, to write something which would show what the whole War and post-war period — roughly, from the years leading up to 1914 until about 1935 — has meant to the men and women of my generation, the generation of those boys and girls who grew up just before the War broke out. I wanted to give too, if I could, an impression of the changes which that period brought about in the minds and lives of very different groups of individuals belonging to the large section of middle-class society from which my own family comes. **My Mother was Nuts A Memoir** [Houghton Mifflin Harcourt](#) A Hollywood icon discusses her incredible life, from her starring role on the classic sitcom *Laverne and Shirley* to her trailblazing moment as the first woman to direct a movie grossing more than \$100 million at the box office. **Living Beyond "What If?" Release the Limits and Realize Your Dreams** [Berrett-Koehler Publishers](#) Free yourself from self-limiting beliefs and fears that keep you stuck. This book lays out a blueprint for how to take control of your life and begin living your dreams. We all dream. We all imagine. And we all want to live our best life. But why is it that 90 percent of people admit that if they got to live their life over, they would live it differently? What keeps us comfortable with the status quo and unable to get beyond "What if"? In part 1 of this book, Dr. Shirley Davis addresses these and other questions by guiding the reader through a personal journey of self-discovery, a search for significance, and an examination of the self-imposed limitations that can hijack our purpose, power, and possibilities. In part 2, she details the readers' journeys toward realizing their dreams by reimagining their lives, identifying their "why," and developing a life plan to stay focused and accountable. She describes the right questions to ask, the right mindset to adopt, and the right relationships to build that will enable everyone to live the life he or she has always imagined. Dr. Davis reveals the necessary steps for releasing the limits we place on ourselves as a result of life's tests, wrong thinking, and bad decisions. She helps readers overcome paralyzing fears that keep dreams on pause and inspires the confidence to jump first and grow wings on the way down. **Williams-Sonoma Collection: Mexican** [Simon and Schuster](#) Mexico's rich and diverse culinary traditions include countless complex and vibrant dishes. Shirley Williams, a founder of the new British Social Democratic Party, former Labourite and government minister, outlines her blueprint for action in this forthright and intelligent book. Traditional institutions in both capitalist and communist systems are cracking under the stresses of advanced industrialism, Williams contends. The sturdy structures once responsible for economic abundance, emergent class interests, and political responses are now in disrepair. Even the impressive postwar economic and social achievements are jeopardized by scarce energy and the unmet educational needs of high technology. Policymakers and citizens in the West can no longer assume that full employment, or a wide range of social services, or good industrial relations are achievable unless there is a quantum leap in our political thinking. What Williams wants and is working toward is a government that is limited, accountable, and able to be superseded when it forfeits popular support. The welfare state, furthermore, needs to be reformed to allow for more participation. She calls for the devolution of power and decentralization in government, big business, and unions. In three sweeping proposals, she suggests a ten year plan to bring the welfare state into the future, a Marshall Plan to assist the Third World, and greater disarmament after a period of successful detente. Williams' words ring with harsh truths and tangible needs. She challenges us with her own declaration of intent: "The old politics is dying. The battle to decide what the new politics will be like is just beginning. It is possible, just possible, that it will be a politics for people." **Massive Open Online Courses and Higher Education What Went Right, What Went Wrong and Where to Next?** [Taylor & Francis](#) Since the first MOOC was launched at the University of Manitoba in 2008, this new form of the massification of higher education has been a rollercoaster ride for the university sector. The *New York Times* famously declared 2012 to be the year of the MOOC. However, by 2014, the number of academic leaders who believed the model was unsustainable doubled to more than 50%. While the MOOC hype has somewhat subsided, the attitudes and anxieties of this peak time can still be seen influencing universities and their administrations. This is the first volume that addresses Massive Open Online Courses from a post-MOOC perspective. We move beyond the initial hype and revolutionary promises of the peak-MOOC period and take a sober look at what endures in an area that is still rapidly growing, albeit without the headlines. This book explores the future of the MOOC in higher education by examining what went right, what went wrong and where to next for the massification of higher education and online learning and teaching. The chapters in this collection address these questions from a wide variety of different backgrounds, methodologies and regional perspectives. They explore learner experiences, the move towards course for credit, innovative design, transformations and implications of the MOOC in turn. This book is valuable reading for students and academics interested in education, eLearning, globalisation and information services. **My Ideal Bookshelf** [Little, Brown](#) The books that we choose to keep -- let alone read -- can say a lot about who we are and how we see ourselves. This classic work is being republished now in a new edition with specially curated introductory material. **The Road Through the Wall** Penguin UK Reminiscent of her classic story 'The Lottery', Jackson's disturbing and darkly funny first novel exposes the underside of American suburban life. 'Her books penetrate keenly to the terrible truths which sometimes hide behind comfortable fictions, to the treachery beneath cheery neighborhood faces and the plain manners of country folk; to the threat that sparkles at the rainbow's edge of the sprinkler spray on even the greenest lawns, on the sunniest of midsummer mornings' Donna Tartt In Pepper Street, an attractive suburban neighbourhood filled with bullies and egotistical bigots, the feelings of the inhabitants are shallow and selfish: what can a neighbour gain from another neighbour, what may be won from a friend? One child stands alone in her goodness: little Caroline Desmond, kind, sweet and gentle, and the pride of her family. But the malice and self-absorption of the people of Pepper Street lead to a terrible event that will destroy the community of which they are so proud. Exposing the murderous cruelty of children, and the blindness and selfishness of adults, Shirley Jackson reveals the ugly truth behind a 'perfect' world. But in A Golden Voice, Ted Williams finally puts all the pieces together to give an unforgettable, searingly honest account of life on the streets. Nothing is held back, as Williams takes the reader through prostitution, theft, crack houses, and homeless shelters in a search, ultimately, for redemption and hope. Whether as political elites or as average citizens, minority women demonstrate that they have a unique voice that more often than not centers on their visions of justice, equality, and fairness. In this volume, Dr. Nadia E. Brown and Sarah Allen Gershon seek to present studies of minority women that highlight how they are similar and dissimilar to other groups of women or minorities, as well as variations within groups of minority women. Current demographic and political trends suggest that minority populations—specifically minority women—will be at the forefront of shaping U.S. politics. Yet, scholars still have very little understanding of how these populations will behave politically. This book provides a detailed view of how minority women will utilize their sheer numbers, collective voting behavior, policy preferences, and roles as elected officials to impact American politics. The scholarship on intersectionality in this volume seeks to push beyond disciplinary constraints to think more holistically about the politics of identity. **Looking for Alaska By John Green -- Sidekick** CreateSpace WARNING: This is not the actual book Looking for Alaska by John Green. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, Steve Carell, Lewis Black, Jessica Williams, John Hodgman, and Larry Wilmore—plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program hosted by Craig Kilborn to Jon Stewart's long reign to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, Jon Stewart's emotional monologue in the wake of 9/11, his infamous confrontation on Crossfire, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, the Indecisions, Mess O'Potamia, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Beirut, I Love You, spanning from 1994 to the present day, brings Beirut to life in all its glory and contradictions and is filled with personal anecdotes of Zena's life there: a place where, in spite of the pervasive desire for hope and the resilience of its people, still bears deep scars from the Lebanese Civil War and the Israeli invasion of 2006—a place where plastic surgery and AK 47s live side by side and nightclubs are situated on rooftops in order to avoid car bombs. Yet Zena and her friends, in particular her fellow rebel Maya, refuse to accept the extreme poles of Beirut, the militias and gender restrictions on one side, hedonism and materialism on the other. And although Zena experiences tragedy and loss, her story is a testament to the power of love and friendship, and the

beauty of her city and its inhabitants. Written with an honest, profound simplicity, Zena is intoxicated by the country's contradictions—"Lebanon was, and always will be, schizophrenic"—and attempts to come to terms with her role among her friends, family, and city. **Everybody Matters A Memoir** Hachette UK Shortlisted for the Political Book Awards 2013 Political Book of the Year The first woman President of Ireland, who became UN High Commissioner for Human Rights, Mary Robinson has spent her life in pursuit of a fairer world. Now, for the first time, she reveals what lies behind the vision, strength and determination that has helped her to achieve so much for human rights around the globe. She describes the upbringing which gave her her strong sense of values and how she came into painful conflict with her parents - marrying against their wishes and, later, helping to legalise contraception in a deeply Catholic Ireland. As a barrister she won landmark cases advancing the causes of women and the marginalised against the prejudices of the day. When - to the surprise of many - she became the first woman President of Ireland in 1990, she put Ireland firmly on the international stage. Accepting the position of UN High Commissioner for Human Rights in 1997 was her biggest challenge and here she describes the huge political difficulties she encountered among the many triumphs. Subsequently, based in New York, she led Realizing Rights for eight years, pioneering how to implement in practice economic and social rights: working in African countries on health, decent work, corporate responsibility and women's empowerment in peace and security. Now heading her own Climate Justice foundation she has succeeded in finding the independence she needs to work effectively on behalf of the millions of poor around the world most affected by climate change. Told with the same calm conviction and modest pride that has guided her life, *Everybody Matters* will inspire everyone who reads it with the belief that each of us can, in our own way, help to change the world for the better. **The Florida Keys A History & Guide Tenth Edition** Random House *The Florida Keys: A History & Guide* is an engaging handbook to the unique coral and limestone islands that curve southwest off the tip of Florida.
