Omega Mine

*A bond forged in blood. Fealty given to the one he desires above all others. Graced with the ability to shift into any form, Diskant Black is the absolute authority when it comes to New York shifters, and as the Omega of the city his word is law. Protecting the shifter races is more than a job, it's a predisposition ingrained since birth-nothing is more important. Until a chance encounter with a tiny female sets fire to his blood, brings him to his knees and turns his world upside down. Ava Brisbane is more than he bargained for in a mate-beautiful, fragile...human. If he wants to keep her by his side, he'll have to sacrifice a portion of his soul to establish a bond that can never be broken. Unfortunately the timing couldn't be worse. Shepherds-the hunters of all the shifter races-have arrived in New York. To protect the woman he can't live without, Diskant will have to stand against those who have come to start a war.**OMEGA MINE contains explicit sexual content, graphic language, and situations that some readers may find objectionable.***

Enemy Mine

Divided by blood. Destined by fate. Emory is a shifter living on the edge. For years he's struggled with his Alpha nature, nothing has ever been simple or easy. Then he meets the one woman capable of soothing the savage beast-a female who incites a carnal hunger that leaves him eager and burning. Mary is a mate he never imagined he would have. Sweet, kind and impossibly beautiful, she is everything he and his wolverine half have been craving. Unfortunately, she's also something else, something dangerous-a Shepherd, bred of the line of hunters determined to destroy his kind. After he finds Mary and brings her to New York, he discovers earning her trust is the least of his concerns. Her relatives have followed and they want Mary back. If Emory won't hand her over, they'll do everything in their power to take her from the pack. As danger closes in, the passionate connection between them flares into a lascivious bond that refuses to be broken. If Emory wants to keep his mate, he'll have to protect her-at any cost. ****ENEMY MINE contains explicit sexual content, graphic language, and situations that some readers may find objectionable.****

The Wolf's Den

Marked, Changed, Sought

The first three books in The Wolf's Den series are now together in print. Marked Chloe Bryant doesn't know what to expect when she enters The Wolf's Den. Drawn to the werewolf tattoo parlor for reasons she can't explain, she soon discovers the sexy man from her dreams isn't a figment of her imagination. Not only is Jackson Donovan real, but he explains the dreams they shared are due to their destined mating. It can't be possible. She's not a werewolf. Even if he swears the mark on her wrist indicates otherwise. Jackson is stunned to discover the beautiful minx from his dreams isn't a full-blooded werewolf but a Halfling. The only way to uncover Chloe's past is to stake a claim to her future. By taking the delectable female into his bed, he'll unlock every secret she has to hide -- as well as awaken the passion she's tucked away for too long -- by exploring her mind, body and soul one sweet inch at a time. Changed Beta werewolf Declan Schroder knows Rachel Gentry is his mate. The hard-as-nails female is more than he could ask for-intense, clever and sexy as sin.

There's only one problem. Rachel is human and fears his kind. She's receptive to his advances-their sexual chemistry is impossible to deny-until an attack by a rogue werewolf threatens to destroy their newfound bond. As Declan's mating heat rises, he knows he'll do whatever it takes to claim Rachel as his own. To keep her he'll have to love her from dusk to dawn, introducing her to pleasures she's never known. Loving a big, bad wolf is wicked and dangerous, but not in the way she's bound to regret. Sought Shane Heyward left everything behind to find his mate. He struggled for months, following his wolf to her location, guided to a place where supernatural beings exist and thrive-Atrum Hill. Despite being capable of leading his own pack, he chose to join one. When he finds his mate by accident, he's shaken by the truth. Not only is she blind, the wolf within her is completely feral. If he can't help her take control of the beast, she'll have to be destroyed. Luna Lowe was forced to leave her previous pack after she shifted, attacked, and almost killed two members-one of which was her sister. She's ashamed of her behavior, wondering if death is preferable to living alone, when the male she believed abandoned her due to her lack of sight arrives. As Shane and Luna come together, he learns her history. His female was wronged, and the insult has to be dealt with swiftly and harshly. As he takes charge and seeks retribution, reverting to his Alpha nature, everything will change-for both of them.

Pre-Incident Indicators of Terrorist Incidents

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct

DIANE Publishing *This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.*

The Psychosocial Implications of Disney Movies

MDPI In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive

thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Make Me Surrender

Make Me #2

Independently Published *Not all desires are the same. Candice Bradshaw has a wretched past that prevents her from envisioning a potential future with a lifelong partner until a man she's tried to forget marches into her life and offers her a chance to explore her desires. Despite the fear of giving over control, the yearning to do so has persisted for years. Even though the delectable man is willing to take the challenge, she's afraid to reveal what her heart desires most. Brady Stone is a man riding the edge. One night with Candice wasn't nearly enough. He knows she's been hurt in the past, but he's eager to teach her how good it can be between them. He's not who she thinks he is, capable of giving her what she's denied herself for years. With time and patience, he intends to show her there is no danger in venturing into the unknown. Due to an agreement, he's been handed the reins to prove he's not like the others. He wants all of her, body and soul, and will not let her go until he shows her just how rewarding surrender can be.*

His Surrogate Omega: An MPREG Omegaverse Book

Twisted E-Publishing LLC *Omega Gray Tomlinson is positive he'll remain unmated for the rest of his life. By his mid-thirties, he remains unclaimed and without prospects, and lives confined to the Omega Quadrant, where he's sure he'll end up dying alone. When his older brother, Silver, and Silver's alpha die in a tragic accident, Gray's nephews come to live in his little sequestered world. Without an alpha, he knows he has little means to help support the boys. The only choice he can stomach is to offer his services as a surrogate. The minute Gray meets Jamie, the infertile omega who so desperately wants a child, he senses a bond like none he's ever felt before. It's brotherly love at first sight, and Gray decides Jamie is the one, agreeing to carry his and his alpha, Rohan's, child. But when circumstances change, Gray is faced with new challenges, a new love interest, and a battle for the very life that grew inside him. And maybe there's an alpha out there for him after all...*

Quantities, Units and Symbols in Physical Chemistry

Royal Society of Chemistry Quantities, Units and Symbols in Physical Chemistry Third Edition The first IUPAC Manual of Symbols and Terminology for Physicochemical Quantities and Units (the "Green Book") of which this is a successor, was published in 1969, with the objective of 'securing clarity and precision, and wider agreement in the use of symbols, by chemists in different countries, among physicists, chemists and engineers, and by editors of scientific journals'. Subsequent revisions have taken account of many developments in the field, culminating in the major extension and revision represented by the 1988 edition under the title Quantities, Units and Symbols in Physical Chemistry. This third edition (2007) is a further revision of the material which reflects the experience of the contributors and users with the previous editions. The book has been systematically brought up to date and new sections have been added. It strives to improve the exchange of scientific information between different disciplines in the international pursuit of scientific research. In a rapidly expanding scientific literature where each discipline has a tendency to retreat into its own jargon, this book attempts to provide a compilation of widely used terms and symbols from many sources together with brief understandable definitions and explanations of best practice. Tables of important fundamental constants and conversion factors are included. Precise scientific language encoded by appropriate definitions of quantities, units and symbols is crucial for the international exchange in science and technology, with important consequences for modern industrial economy. This is the definitive guide for scientists, science publishers and organizations working across a multitude of disciplines requiring internationally approved nomenclature in the area of Physical Chemistry.

Halo: The Flood

Simon and Schuster *The bestselling adaptation of the iconic video game Halo: Combat Evolved featuring the Master Chief—part of the expanded universe based on the award-winning video game series! 2552. Having barely escaped the final battle for Reach against the vast alien alliance known as the Covenant, the crew of the Pillar of Autumn, including Spartan John-117—the Master Chief—and his AI companion Cortana, is forced to make a desperate escape into slipspace. But their destination brings them to an ancient mystery and an even greater struggle. In this far-flung corner of the universe floats a magnificently massive, artificial ringworld. The crew's only hope of survival is to crash-land on its surface and take the battle opposing the Covenant to the ground. But they soon discover that this enigmatic ringworld is much more than it seems. Built one hundred thousand years ago by a long-lost civilization known as the Forerunners, this "Halo" is worshipped by the Covenant—a sacred artifact they hope will complete their religious quest for supposed transcendence, and they will stop at nothing to control it. Engaging in fierce combat, Master Chief and Cortana will go deep into the Halo construct and uncover its dark secret and true purpose—even as a monstrous and far more vicious enemy than the Covenant emerges to threaten all sentient life on Halo and the galaxy beyond...*

Omega

The Unknown

Marvel Comics Group *This is the story of a mute, reluctant super hero from another planet, and the earthly teenager with whom he shares a strange destiny - and the legion of robots and nanoviruses that have been sent from afar to hunt the two of them down! Created in 1975 by Steve Gerber and Mary Skrenes, the original Omega the Unknown lasted only ten issues, but was a legend to those who recall it - an ahead-of-its-time tale of an anti-hero, inflected with brilliant ambiguity. One of Omega's teenage fans was award-winning novelist Jonathan Lethem, who has used the original as a springboard for a superbly strange, funny, and moving graphic novel in ten chapters. Collects Omega: The Unknown #1-10.*

Hunt for the Skinwalker

Science Confronts the Unexplained at a Remote Ranch in Utah

Simon and Schuster *The author of the controversial bestseller Brain Trust brings his scientific expertise to the chilling true story of unexplained phenomena on Utah's Skinwalker Ranch -- and challenges us with a new vision of reality. For more than fifty years, the bizarre events at a remote Utah ranch have ranged from the perplexing to the wholly terrifying. Vanishing and mutilated cattle. Unidentified Flying Objects. The appearance of huge, otherworldly creatures. Invisible objects emitting magnetic fields with the power to spark a cattle stampede. Flying orbs of light with dazzling maneuverability and lethal consequences. For one family, life on the Skinwalker Ranch had become a life under siege by an unknown enemy or enemies. Nothing else could explain the horrors that surrounded them -- perhaps science could. Leading a first-class team of research scientists on a disturbing odyssey into the unknown, Colm Kelleher spent hundreds of days and nights on the Skinwalker property and experienced firsthand many of its haunting mysteries. With investigative reporter George Knapp -- the only journalist allowed to witness and document the team's work -- Kelleher chronicles in superb detail the spectacular happenings the team observed personally, and the theories of modern physics behind the phenomena. Far from the coldly detached findings one might expect, their conclusions are utterly hair-raising in their implications. Opening a door to the unseen world around us, Hunt for the Skinwalker is a clarion call to expand our vision far beyond what we know.*

Make Me Stay

After his heart was broken by his first love, Kamden Stone has avoided romantic entanglements. He lives in the moment, taking partners who understand his desires and know things will end after one encounter. He's comfortable with the life he's carved out for himself, refusing to need anyone or anything, until a young woman he can't stop thinking about changes the game. Everly Mason moved to escape toxic family ties. All she wants is a fresh start and a new life. The house left to her is the perfect place to fall, isolated and in the middle of nowhere, providing plenty of work to keep her occupied. She's on the right path, taking things one day at a time, when she's introduced to a mysterious man she can't stop thinking about. Despite everything, Kamden and Everly can't deny their chemistry. When they agree to a trial period, curious to see where things will go between them, they discover they need each other in a way they never thought possible. When the time comes, they'll have to accept what they want and need. To be together, they both have to find a reason to make them stay. The Sovereign Individual

Mastering the Transition to the Information Age

Simon and Schuster Two renowned investment advisors and authors of the bestseller *The Great Reckoning* bring to light both currents of disaster and the potential for prosperity and renewal in the face of radical changes in human history as we move into the next century. *The Sovereign Individual* details strategies necessary for adapting financially to the next phase of Western civilization. Few observers of the late twentieth century have their fingers so presciently on the pulse of the global political and economic realignment ushering in the new millennium as do James Dale Davidson and Lord William Rees-Mogg. Their bold prediction of disaster on Wall Street in *Blood in the Streets* was borne out by *Black Tuesday*. In their ensuing bestseller, *The Great Reckoning*, published just weeks before the coup attempt against Gorbachev, they analyzed the pending collapse of the Soviet Union and foretold the civil war in Yugoslavia and other events that have proved to be among the most searing developments of the past few years. In *The Sovereign Individual*, Davidson and Rees-Mogg explore the greatest economic and political transition in centuries -- the shift from an industrial to an information-based society. This transition, which they have termed "the fourth stage of human society," will liberate individuals as never before, irrevocably altering the power of government. This outstanding book will replace false hopes and fictions with new understanding and clarified values.

Mated to the Alpha King

Blvnp Incorporated You're beautiful and kind and very smart. But best of all, you're mine. Do you remember the stories your Grandma used to tell you every night about cursed beasts, village beauties, girls in red capes and wolves in disguises? Well, maybe, just maybe... they actually do happen. Maybe, beasts do exist. They do. I would know. I am bound to one. Whom, you may ask? Well, I am mated to the Alpha King. How? You will see. You will live through it with me. I am Theia Anderson. I am just like any one of you, human, alive, and breathing. But unlike any one of you, I've stumbled upon a world that until yesterday... I couldn't even fathom into existence.

This is my story.

Slow Violence and the Environmentalism of the Poor

Harvard University Press *“Slow violence” from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.*

Death of the Planet of the Apes

Titan Books *The official, never-revealed adventures of astronaut George Taylor from the movie Planet of the Apes In Beneath the Planet of the Apes, Col. George Taylor (played by Charlton Heston) disappears into the Forbidden Zone, only to return in the film’s climactic scene. For forty-eight years, the question has remained—what happened to Taylor? Finally the truth is revealed. Beneath the irradiated wasteland, the astronaut faces the deadly wonders of a gleaming city and its inhuman citizenry. On the surface the gorillas—led by General Ursus—launch an all-out assault to exterminate the savage animals known as humans. And out in the desert, the chimpanzee scientist Milo strives to reconstruct the spacecraft that brought the humans from the past. Events spiral at a breakneck pace, with the fate of a world at stake.*
