However, we know little about whether these rulings have been implemented. **Social Rights Judgments and the Politics of Compliance** is the first book to engage in a comparative study of compliance of social rights judgments as well as their broader effects. Covering fourteen different domestic and international jurisdictions, and drawing on multiple disciplines, it finds significant variance in outcomes and reveals both spectacular successes and failures in making social rights a reality on the ground. This variance is strikingly similar to that found in previous studies on civil rights, and the key explanatory factors lie in the political calculus of defendants and the remedial framework. The book also discusses which strategies have enhanced implementation, and focuses on judicial reflexivity, alliance building and social mobilisation. **Using Computers in the Law Office** Cengage Learning Focusing on how computers can make paralegals and legal professionals more productive on the job, this bestselling guide offers comprehensive coverage of computer concepts, exploring the latest versions of common programs like Microsoft Word, Excel, and PowerPoint, as well as specialized applications including CaseMap, Clio, HotDocs, TimeMap, and TrialDirector. Alternative Futures India Unshackled A remarkable, first-ever collection of 35 essays on India's future, by a diverse set of authors - activists, researchers, media practitioners, those who have influenced policies and those working at the grassroots. This book brings together scenarios of an India that is politically and socially egalitarian, radically democratic, economically sustainable and equitable, and socio-culturally diverse and harmonious. **Alternative Futures: India Unshackled** covers a wide range of issues, organized under four sections. It explores

ecological futures including environmental governance, biodiversity conservation, water and energy. Next, it envisions political futures including those of democracy and power, law, ideology, and India's role in the globe. A number of essays then look at economic futures, including agriculture, pastoralism, industry, crafts, villages and cities, localization, markets, transportation and technology. Finally, it explores socio-cultural futures, encompassing languages, learning and education, knowledge, health, sexuality and gender, and marginalized sections like dalits, adivasis, and religious minorities. Introductory and concluding essays tie these diverse visions together. Most essays include both futuristic scenarios and present initiatives that demonstrate the possibility of such futures. At a time when India faces increasing polarization along parochial, physical and mental boundaries, these essays provide a breath of fresh air and hope in the grounded possibilities for an alternative, decentralized, eco-culturally centred future. The essays range from the dreamy-eyed to the hard-headed, from the provocative to the gently persuasive. This book would hold appeal for a wide range of readers - youth, academics, development professionals, policy makers, government officials, activists, people's movements, media persons, business persons - concerned about the current state of India and the world, and willing to engage critically in the collective search for a better future.

My Transportation For Life Prabhat Prakashan The story is told. The curtain has been brought down on it. Two life-sentences have been run. And I have brought together my recollections of them within the cover of this book. They are narrated in brief and put together within the narrowest. When I came into this world, God sent me here possibly on a sort of life-sentence. It was the span of life allotted to me by time to stay in this 'prison-house of life'. This story is but a chapter of that book of life, which is a longer story not yet ended. You can finish reading the book in a day, while I had to live it for 14 long years of transportation. And if the story is so tiresome, unendurable and disgusting to you, how much must have been the living of it for me! Every moment of those 14 years in that jail has been an agony of the soul and the body to me, and to my fellow convicts in that jail. It was not only fatiguing, unbearable and futile to us all, it was equally or more excruciating to them as to me. And it is only that you may know it and feel the fatigue, the disgust and the pain of it as we have felt it, that I have chosen to write it for you. —Excerpts from this book

This is the story of Swatantrayaveer Vinayak Damodar Savarkar—a great revolutionary, politician, poet and seer who tried to free India from the British yoke! British policy was to torture and persecute the political prisoners/revolutionaries so that they would reveal the names of all their colleagues or go mad or commit suicide. **My Transportation for Life** is a firsthand story of the sufferings and humiliation of an inmate of the infamous

Cellular Jail of Andamans, the legendary Kala Paani. The physical tortures inside the high walls were made all the more insufferable by the sickening attitude of the men who mattered—the native leaders back home. This is a running commentary on the prevalent political conditions in India and a treatise for students of revolution. It is a burning story of all Tapasvis who were transported to Andaman. The Difficulty of Being Good On the Subtle Art of Dharma Oxford University Press Why should we be good? How should we be good? And how might we more deeply understand the moral and ethical failings--splashed across today's headlines--that have not only destroyed individual lives but caused widespread calamity as well, bringing communities, nations, and indeed the global economy to the brink of collapse? In The Difficulty of Being Good, Gurcharan Das seeks answers to these questions in an unlikely source: the 2,000 year-old Sanskrit epic, Mahabharata. A sprawling, witty, ironic, and delightful poem, the Mahabharata is obsessed with the elusive notion of dharma--in essence, doing the right thing. When a hero does something wrong in a Greek epic, he wastes little time on self-reflection; when a hero falters in the Mahabharata, the action stops and everyone weighs in with a different and often contradictory take on dharma. Each major character in the epic embodies a significant moral failing or virtue, and their struggles mirror with uncanny precision our own familiar emotions of anxiety, courage, despair, remorse, envy, compassion, vengefulness, and duty. Das explores the Mahabharata from many perspectives and compares the successes and failures of the poem's characters to those of contemporary individuals, many of them highly visible players in the world of economics, business, and politics. In every case, he finds striking parallels that carry lessons for everyone faced with ethical and moral dilemmas in today's complex world. Written with the flair and seemingly effortless erudition that have made Gurcharan Das a bestselling author around the world--and enlivened by Das's forthright discussion of his own personal search for a more meaningful life--The Difficulty of Being Good shines the light of an ancient poem on the most challenging moral ambiguities of modern life. A History of Chess The Original 1913 Edition Skyhorse An epic work that took more than a decade to complete, A History of Chess, originally published in 1913, is a historic undertaking that shattered preconceptions about the game upon publication. Over a century later, Murray's research and conclusions, in which he argues that chess originated in India, are still widely accepted by most chess historians. Undertaking such a pioneering task, the scope of which has never been attempted before or since, Murray taught himself to read Arabic in order to decipher historical manuscripts on the game and its beginnings. His study unravels the history of the game as it evolved from its Asiatic beginnings, through the role chess played in Europe during the Middle Ages, and up until the nineteenth century with the arrival of modern chess as we know it. A History of Chess includes transcribed diagrams of important games, as well as some of the more famous historical chess figurines, such as the Lewis chessmen. No single work on the game of chess has become close to touching Murray's in breadth or significance. The Decline of Marriage in Namibia
Kinship and Social Class in a Rural Community transcript Verlag In Southern Africa, marriage used to be widespread and common. However, over the past decades marriage rates have declined significantly. Julia Pauli explores the meaning of marriage when only few marry. Although marriage rates have dropped sharply, the value of weddings and marriages has not. To marry has become an indicator of upper-class status that less affluent people aspire to. Using the appropriation of marriage by a rural Namibian elite as a case study, the book tells the entwined stories of class formation and marriage decline in post-apartheid Namibia.

The Nepal-India Water Relationship: Challenges Springer
Science & Business Media Since its establishment as a policy research institute in 1990, the Institute for Integrated Development Studies (IIDS) has been engaged in promoting public awareness and understanding of issues of national importance by undertaking studies and research on contemporary themes. It has been disseminating findings of its studies to policymakers in the public and private sectors and ultimately to the public at large. Water resources is one of the areas of strong public interest in Nepal. It is considered a potent engine of economic growth. Its optimal use is dependent on, among other things, the cooperation among the riparian countries, especially India and Bangladesh. Water resources development is one of the subjects in which the Institute has been engaged since its beginning by undertaking studies through national professionals and joint studies on the water resources of the Ganges, Brahmaputra and Meghna river basins with policy research institutes from India and Bangladesh. In order to help policymakers to develop long-term perspectives of the need for cooperation for optimal use of water available in the tributaries of the Ganges, the Institute was involved in a major track-two exercise for over five years during the 1990s. The Institute has been undertaking a series of exercises in the form of publication and dissemination of study findings in the field since the early 1990's. In that series, this book is the latest one and is published in collaboration with Springer Science + Business Media BV, Dordrecht, The Netherlands.
