BRINGING WORDS TO LIFE**ROBUST VOCABULARY INSTRUCTION**

Guilford Press "Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

THE ARCHITECTURE OF HAPPINESS

[Penguin UK](#) The Architecture of Happiness is Alain de Botton's exploration of the hidden links between buildings and our well being Bestselling author Alain de Botton has written about love, travel, status and how philosophy can console us. Now he turns his attention to one of our most intense but often hidden love affairs: with our houses and their furnishings. He asks: What makes a house truly beautiful? Why are many new houses so ugly? Why do we argue so bitterly about sofas and pictures - and can differences of taste ever be satisfactorily resolved? Will minimalism make us happier than ornaments? To answer these questions and many more, de Botton looks at buildings across the world, from medieval wooden huts to modern skyscrapers; he examines sofas and cathedrals, tea sets and office complexes, and teases out a host of often surprising philosophical insights. The Architecture of Happiness will take you on a beguiling tour through the history and psychology of architecture and interior design, and will forever alter your relationship with buildings. It will change the way you look at your current home - and help you make the right decisions about your next one. 'Engaging and intelligent . . . full of splendid ideas, happily and beautifully expressed' Independent Alain de Botton was born in 1969 and is the author of non-fiction essays on themes ranging from love and travel to architecture and philosophy. His bestselling books include Essays in Love; The Romantic Movement; Kiss and Tell; Status Anxiety; How Proust Can Change Your Life; The Pleasures and Sorrows of Work; The Art of Travel; The Architecture of Happiness and Religion for Atheists. He lives in London and founded The School of Life (www.theschooloflife.com) and Living Architecture (www.living-architecture.co.uk). For more information, consult www.alaindebotton.com.

CURIOUS GEORGE - LITERATURE KIT GR. 1-2

[Classroom Complete Press](#) Students explore their curious nature with a monkey named George. Students think a little deeper about the story by imagining the motivations behind the man in the yellow hat. Find different words that rhyme with the words in the story. Come up with different adjectives used in the book, then write a new sentence using these words. Answer multiple choice questions about George's adventures. Students share their own opinions about taking animals out of their natural habitats. Write a list of safety rules for George to follow so he can stay safe and out of trouble. Students share their feelings about certain events that happen in the story with a My Feelings graphic organizer. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: A well-loved story about a curious little monkey named George, who is caught in his home land of Africa by a man in a yellow hat. Inspired by his curiosity for the world around him, George has one adventure after another from the time he leaves Africa to the time he finally arrives at the Zoo. George tries to fly like the sea gulls, but this only gets him wet. He dials 1-2-3-4-5-6-7, which is the number for the Fire Department. He takes a man's balloons and starts flying through the air over the city's traffic. At the end of the story, George finally ends up in a tree at the Zoo. It was a nice place to live!

ACING THE NEW SAT MATH**REDESIGNED FOR 2016****SAT MATH TEST BOOK****READING RECONSIDERED****A PRACTICAL GUIDE TO RIGOROUS LITERACY INSTRUCTION**

John Wiley & Sons **TEACH YOUR STUDENTS TO READ LIKE CHAMPIONS—WITH RIGOR, INDEPENDENCE, PRECISION, AND INSIGHT** The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and definitions. Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers.
