OS X Killer Tips speaks directly to the daily Mac user who needs to get the most out of their Mac NOW. "Nothin' but sidebars!" Time is money. And a lot of experienced users find themselves trying to save time by skimming through larger computer books in order to pull out the useful nuggets of info that are often placed within what we call sidebars (i.e. those Note/Tip/Warning boxes). The Killer Tips series was developed by Scott Kelby because he recognized how useful non-beginning technology users find those cool "I didn't know THAT" sidebars that are peppered all over the other computer books out there. This book is all about speed; showing the Mac professional how to get more work done faster, while actually increasing quality. The whole concept is to help make the reader faster and more productive than ever using their Mac. In an ever-tightening and competitive marketplace, this kind of book is sorely needed.
