Pies and Prejudice

In Search of the North

Random House A northerner in exile, stateless and confused, hearing rumors of Harvey Nichols in Leeds and Maseratis in Wilmslow, the author goes in search of The North. Delving into his own past, it is a riotously funny journey in search of where the cliches end and the truth begins. He travels from Wigan Pier to Blackpool Tower, the Bigg Market in Newcastle to the daffodil-laden Lake District in search of his own Northern Soul, encountering along the way an exotic cast of characters while he battles with his own identity.

The Pie at Night

Random House Factory, mine, and mill. Industry, toil, and grime. Its manufacturing roots mean we still see the North of England as a hardworking place. But, more than possibly anywhere else, the North has always known how to get dressed up, take itself out on the town, and have a good time. After all, working and playing hard is its specialty, and Stuart Maconie is in search of what, exactly, this entails what it tells us about the North today. Following tip offs and rumor, Stuart takes trip to forgotten corners and locals' haunts. From the tapas bars of Halifax to the caravan parks of Berwick Upon Tweed, from a Westhoughton bowling green to Manchester's curry mile, via dog tracks and art galleries, dance floors, and high fells, Stuart compares the new and old North, with some surprising results. *The Pie at Night* could be seen as a companion to the bestselling *Pies and Prejudice*, but it is not a sequel. After all, this is a new decade and the North is changing faster than ever. This is a revealing and digressive journey and a State of the North address, delivered from barstool, terrace, dress circle, and hillside.

Thomas North's 1555 Travel Journal

From Italy to Shakespeare

Like previous works by the authors, Thomas North's 1555 Travel Journal uses original digital research to analyze Thomas North's previously unpublished journal, arguing that its descriptions, especially of northern Italy, provided a template for Shakespeare's Henry VIII and The Winter's Tale.

New Directions in Local History Since Hoskins

Univ of Hertfordshire Press Utilizing the techniques developed by renowned local historian W. G. Hoskins in his landmark study published 50 years ago, "Local History in England," this book demonstrates how local history has evolved as a discipline over the last half century. Fifteen historians write about a variety of local history subjects that are significant in their own right but which also point to current trends in the field. They show how local historians use their sources systematically, from the nonverbal evidence of buildings to various types of electronic sources. All periods between the middle ages and the early twenty-first century are explored, covering many parts of England from Skye to the Kent coast and discussing topics that include social, economic, religious, legal, intellectual, and cultural history.

Understanding Racial and Ethnic Differences in Health in Late Life

A Research Agenda

National Academies Press As the population of older Americans grows, it is becoming more racially and ethnically diverse. Differences in health by racial and ethnic status could be increasingly consequential for health policy and programs. Such differences are not simply a matter of education or ability to pay for health care. For instance, Asian Americans and Hispanics appear to be in better health, on a number of indicators, than White Americans, despite, on average, lower socioeconomic status. The reasons are complex, including possible roles for such factors as selective migration, risk behaviors, exposure to various stressors, patient attitudes, and geographic variation in health care. This volume, produced by a multidisciplinary panel, considers such possible explanations for racial and ethnic health differentials within an integrated framework. It provides a concise summary of available research and lays out a research agenda to address the many uncertainties in current knowledge. It recommends, for instance, looking at health differentials across the life course and deciphering the links between factors presumably producing differentials and biopsychosocial mechanisms that lead to impaired health.

LGBT Activist Stories from Manchester and Beyond

Intellect Books 'It's fascinating and moving to discover and identify those LGBT people in less happy times, who fought for the freedoms LGBT people now enjoy in the UK. This book will make you look back with gratitude and astonishment for what has been achieved.' Sir Ian McKellen LGBT activist and civil rights history from the 1960s to the 2000s has had a huge impact on our social and political landscape in the UK, yet much of this history remains hidden. *Prejudice and Pride: LGBT Activist Stories from Manchester and Beyond* explores aspects of LGBT activist history. It covers educational activism, youth work activism and the history of the LGBT Centre in Manchester. Through personal stories of activists, heard and recorded by young people from LGBT Youth North West, the book explores the 'wibbly wobbly' nature of people's histories. It reveals how they interlink in surprising and creative ways to form the current landscape of both prejudice and pride. Also contains exercises for interpreting and ideas for collecting activist histories within youth work.

The Contemporary Thesaurus of Search Terms and Synonyms

A Guide for Natural Language Computer Searching

Greenwood Publishing Group Whether your search is limited to a single database or is as expansive as all of cyberspace, you won't find the intended results unless you use the words that work. Now in its second edition, Sara Knapp has updated and expanded this invaluable resource. Unlike any other thesaurus available, this popular guide offers a wealth of natural language options in a convenient, A-to-Z format. It's ideal for helping users find the appropriate word or words for computer searches in the humanities, social sciences, and business. The second edition has added more than 9,000 entries to the first edition's extensive list. Now, the Thesaurus contains almost 21,000 search entries! New or expanded areas include broader coverage of business terms and humanities-including arts literature, philosophy, religion, and music.

Peer Prejudice and Discrimination

The Origins of Prejudice

Psychology Press This award-winning book provides an analysis of the genetic/evolutionary, cultural/historical, and developmental aspects of prejudice and discrimination. It emphasizes how certain genetic/evolutionary mechanisms are utilized to both produce and prevent prejudice and discrimination from occurring or to modify these behaviors once established. The goals of the book are to help us understand the limitations of interventions and increase tolerance and acceptance of outsiders. *Peer Prejudice and Discrimination, Second Edition* is ideal for advanced-level courses on prejudice and/or discrimination taught in departments of psychology, education, and sociology, as well as a valuable addition to any serious scholars personal library.

Racism and Mental Health

Prejudice and Suffering

Jessica Kingsley Publishers This thought-provoking book investigates the impact of racism (both conscious and unconscious) in mental health settings, covering individual clinical encounters and the broader picture of service provision. The authors offer insights into manifestations of racism in contemporary Britain; racial and cultural identity and the significance of these in psychotherapy; and the inequalities in provision of mental health services to minority ethnic communities. They consider the problems of racism and mental health, not in isolation but in the larger context of cultural difference and social inequalities, and also on the level of human relationships. Bringing together the experiences of mental health professionals and incorporating a service user's perspective, this book provides many practical strategies for addressing racism and dealing with its effects in psychiatric work, and will prove useful and informative to practitioners in many areas of mental health work.

Slavery in the New World

Cavendish Square Publishing, LLC Slavery is not a modern concept. Ancient civilizations such as Greece and Rome had systems of slavery, and many countries within Africa enslaved the members of rival tribes after they lost battles. However, Europeans greatly expanded and entrenched the slave trade. Through primary sources and annotated quotes, readers experience the horrors of slavery from the perspective of those it affected. A detailed timeline and discussion questions add to this essential reading experience that illustrates the lasting global effects of the transatlantic slave trade.

How Country Walking Can Change Your Life

David and Charles In this hilarious and heart-warming collection of essays, the bestselling author reflects on a life spent exploring the British countryside on foot. From the splendor of the Pennines and the Lake District to the drama of the Dorset coast; from the canals of the Midlands to wildest Scotland, this book is an attempt to explain a passion for walking and the delights it can bring. Culled from Stuart Maconie's monthly column in Country Walking, it's full of the beautiful places, magical moments and wonderful characters he has encountered on his travels. It discusses such intrepid adventures as taking on the famous "Wainwright" fells of the Lake District, walking Hadrian's Wall with colleague Mark Radcliffe, and why the most important things to carry in a rucksack are a transistor radio and a small bottle of red wine. Praise for Stuart Maconie "Maconie makes a jovial, self-deprecating narrator. Sharp and funny." —The Guardian "He is as funny as Bryson and as wise as Orwell." —The Observer "Stuart Maconie is the best thing to come out of Wigan since the A58 to Bolton." —Peter Kay "An heir to Alan Bennett . . . stirring and rather wonderful." —The Sunday Times

Race, Gender, Sexuality, and Social Class

Dimensions of Inequality

SAGE This book presents a contemporary and compelling overview of race, ethnicity, gender, and social class issues in the United States today. Taking an intersectional approach, the book is organized topically, rather than focusing on specific race/ethnic subgroups. The content is framed around the themes of identity, experiences of race, class, gender or sexuality, difference, inequality, and social change or personal empowerment, with historical context threaded throughout to give the reader context.

Discursivity and Ideology in the Rhetoric of Martin Luther King, Jr Psychology of Prejudice and Discrimination

Taylor & Francis Psychology of Prejudice and Discrimination provides a comprehensive and compelling overview of what psychological theory and research have to say about the nature, causes, and reduction of prejudice and discrimination. It balances a detailed discussion of theories and selected research with applied examples that ensure the material is relevant to students. This edition has been thoroughly revised and updated and addresses several interlocking themes. It first looks at the nature of prejudice and discrimination, followed by a discussion of research methods. Next come the psychological underpinnings of prejudice: the nature of stereotypes, the conditions under which stereotypes influence responses to other people, contemporary theories of prejudice, and how individuals' values and belief systems are related to prejudice. Explored next are the development of prejudice in children and the social context of prejudice. The theme of discrimination is developed via discussions of the nature of discrimination, the experience of discrimination, and specific forms of discrimination, including gender, gender identity, sexual orientation, age, ability, and appearance. The concluding theme is the reduction of prejudice. The book is accompanied by a comprehensive website featuring an Instructor Manual that contains activities and tools to help with teaching a prejudice and discrimination course; PowerPoint slides for every chapter; and a Test Bank with short answer and multiple-choice exam questions for every chapter. This book is an essential companion for all students of prejudice and discrimination, including those in psychology, education, social work, business, communication studies, ethnic studies, and other disciplines. In addition to courses on prejudice and discrimination, this book will also appeal to those studying racism and diversity.

Children of Perdition

Melungeons and the Struggle of Mixed America

Mercer University Press Some oppressed groups fought with guns, some fought in court, some exercised civil disobedience; the Melungeons, however, fought by telling folktales. Whites and blacks gave the name "children of perdition" to mixed Americans during the 300 years that marriage between whites and nonwhites was outlawed. Mixed communities ranked socially below communities of freed slaves although they had lighter skin. To escape persecution caused by the stigma of having African blood, these groups invented fantastic stories of their origins, known generally as "lost colony" legends. From the founding of America, through the American Revolution, the Civil War and World War II, the author documents the histories of several related mixed communities that began in Virginia in 1619 and still exist today, and shows how they responded to racism over four centuries. Conflicts led to imprisonment, whippings, slavery, lynching, gun battles, forced sterilization, and exile--but they survived. America's view of mixing became increasingly intolerant and led to a twentieth-century scheme to forcibly exile U.S. citizens, with as little as "one drop" of black blood, to Africa even though their ancestors arrived before the Mayflower. Evidence documents the collaboration between American race purists and leading Nazi Germans who perpetrated the Holocaust. The author examines theories of ethnic purity and ethnic superiority, and reveals how mixed people responded to "pure race" myths with origin myths of their own as Nazi sympathizers in state and federal government segregated mixed Americans, citing the myth of Aryan supremacy. Finally, Children of Perdition explains why many Americans view mixing as unnatural and shows how mixed people continue to confront the Jim Crow "one drop" standard today. The Apprentice of Split Crow Lane

The Story of the Carr's Hill Murder

A Victorian Murder. A Victorian Madman. A Modern Judgement. Gateshead, April 1866 Five-year-old Sarah Melvin was walking along Split Crow Lane looking for her father when she disappeared. Later that night a couple walking home from the pub tripped over her body. Sarah was the child of Irish immigrants who had been drawn to the North-east in search of work. Poor, perceived with prejudice, they quickly came under suspicion of killing their own child. The true murderer was a misfit whose social awkwardness stopped him ever rising above apprentice. He would eventually make clear exactly why he killed Sarah - and the reason would scandalise the whole country, yet to him had a dreadful logic. Told here for the first time, this is an extraordinary story of sexual deviance and murder, offering a chance to reassess a most unexpected judgement with new insight. In lively, empathic prose, Jane Housham explores psychiatry, the justice system and the media in mid-Victorian England to reveal a surprisingly modern state of affairs.

Orientalism

Western Conceptions of the Orient

Penguin UK 'A stimulating, elegant yet pugnacious essay'—Observer In this highly acclaimed seminal work, Edward Said surveys the history and nature of Western attitudes towards the East, considering Orientalism as a powerful European ideological creation—a way for writers, philosophers and colonial administrators to deal with the 'otherness' of Eastern culture, customs and beliefs. He traces this view through the writings of Homer, Nerval and Flaubert, Disraeli and Kipling, whose imaginative depictions have greatly contributed to the West's romantic and exotic picture of the Orient. In the Afterword, Said examines the effect of continuing Western imperialism.

The Negro Motorist Green Book

1940 Edition

Colchis Books The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.
