**The Psychic Life of Power Theories in Subjection** *Stanford University Press* Judith Butler's new book considers the way in which psychic life is generated by the social operation of power, and how that social operation of power is concealed and fortified by the psyche that it produces. It combines social theory, philosophy, and psychoanalysis in novel ways, and offers a more sustained analysis of the theory of subject formation implicit in her previous books. **Black Butler** *Yen Press LLC* Just a stone's throw from London lies the manor house of the illustrious Phantomhive earldom and its master, one Ciel Phantomhive. Earl Phantomhive is a giant in the world of commerce, Queen Victoria's faithful servant...and a slip of a twelve-year-old boy. Fortunately, his loyal butler, Sebastian, is ever at his side, ready to carry out the young master's wishes. And whether Sebastian is called to save a dinner party gone awry or probe the dark secrets of London's underbelly, there apparently is nothing Sebastian cannot do. In fact, one might even say Sebastian is too good to be true...or at least, too good to be human... **Black Veterans, Politics, and Civil Rights in Twentieth-Century America Closing Ranks** *Rowman & Littlefield* This collection examines the lives of African American soldiers and the sociopolitical world they constructed upon returning to the United States. The experiences analyzed in this volume provide a useful backdrop for understanding the complex relationship between race, war, and politics in the United States throughout the twentieth century. **The Weeping Time Memory and the Largest Slave Auction in American History** *Cambridge University Press* This book traces the lives of slaves before, during, and after the largest slave auction in US history in 1859. **Black Agents Provocateurs: 250 Years of Black British Writing, History and the Law, 1770-2020** *Helen Thomas* **Black Agents Provocateurs: 250 Years of Black British Writing, History and the Law, 1770-2020** is a comprehensive analysis the invaluable contributions that black writers in Britain have made to British

society over the last 250 years. This book closely examines the lives, trials and works of: British slaves in the eighteenth century, black authors, historians and medics in the nineteenth century, and black poets, playwrights, novelists and intellectuals in the twentieth and twenty-first centuries. It also highlights their contributions to legal changes, such as the Abolition of Slavery Act (1833), the Criminal Appeal Act (1907) and the Race Relations Act (1965), as well as the adverse effects that laws such as the Criminal Evidence Act (1984), the Asylum and Immigration Acts (1996) and the Coronavirus Act (2020) have had upon black lives in Britain.

**Nuclear Black Markets Pakistan, A.Q. Khan and the Rise of Proliferation Networks : a Net Assessment** //ISS "The arrest and public confession of Pakistani nuclear weapons scientist Abdul Qadeer Khan in 2004 revealed the existence of a global proliferation network which had, over almost two decades, provided nuclear technology, expertise, and designs to Iran, North Korea, Libya and possibly other countries. Khan was not the only nuclear arms merchant and Pakistan was not the only country implicated in his shadowy network. It spanned three continents and eluded both national and international systems of export controls that had been designed to prevent illicit trade. The discovery of the network highlighted concerns that nuclear technology is no longer the monopoly of industrially advanced countries, but can be purchased off-the-shelf by both states and terrorist groups. The IISS Strategic Dossier on nuclear black markets provides a comprehensive assessment of the Pakistani nuclear programme from which the Khan network emerged, the network's onward proliferation activities, and the illicit trade in fissile materials. In addition, the Strategic Dossier provides an overview of the clandestine nuclear procurement activities of other states, along with the efforts made both by Pakistan and the international community to prevent the reoccurrence of further proliferation networks and to secure nuclear technology. The final chapter assesses policy options for further action. **Post-Yugoslav Cinema Towards a Cosmopolitan Imagining** Springer Drawing primarily on selected filmic texts from former-Yugoslavia, the book examines key social and political events that triggered the Yugoslav wars in the 1990s. Yugoslav politics and society are set within the broader artistic and cinematic strategies that helped stabilise post-Yugoslav territories strategies that were part of the national desire of looking forward to a time of 'perpetual peace' and its subsequent cosmopolitan norms. It argues that filmic texts demonstrate the degree to which nationalism was at the heart of the violent disintegration of Yugoslavia. Yet, the concern of the argument is not simply to offer a filmic critique but to develop an alternative to nationalism; namely, a theoretical framework through which cosmopolitan humanism is at the forefront of addressing former Yugoslavia's political wounds. **Black Butler, Vol. 29** *Black Butler* On the run from the Phantomhive family, Ciel and those still loyal to him seek refuge with the Chinese mobster, Lau. Still not safe from persecution, Ciel, Sebastian, and the others must devise a strategy to regain the Earl's seat in the Phantomhive hierarchy! **The Force of Nonviolence An Ethico-Political Bind** Verso Books Judith Butler's new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality. Further, it argues that nonviolence is often misunderstood as a passive practice that emanates from a calm region of the soul, or as an individualist ethical relation to existing forms of power. But, in fact, nonviolence is an ethical position found in the midst of the political

field. An aggressive form of nonviolence accepts that hostility is part of our psychic constitution, but values ambivalence as a way of checking the conversion of aggression into violence. One contemporary challenge to a politics of nonviolence points out that there is a difference of opinion on what counts as violence and nonviolence. The distinction between them can be mobilised in the service of ratifying the state's monopoly on violence. Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an understanding of the psychosocial dimensions of violence. Butler draws upon Foucault, Fanon, Freud, and Benjamin to consider how the interdiction against violence fails to include lives regarded as ungrievable. By considering how 'racial phantasms' inform justifications of state and administrative violence, Butler tracks how violence is often attributed to those who are most severely exposed to its lethal effects. The struggle for nonviolence is found in movements for social transformation that reframe the grievability of lives in light of social equality and whose ethical claims follow from an insight into the interdependency of life as the basis of social and political equality. **Splintered Critical Race Theory and the Progressive War on Truth** *Bombardier Books* The problem with our nation's schools today is not just the low test scores in basic reading and math—which are an obstacle for the economy, not to mention students' futures. The challenge is that K-12 instruction has been hijacked by Critical Theorists who are "skeptical" of representative government and the freedoms we cherish. The debates over the retelling of America's past, on display in local school board meetings as well as conflicts between the New York Times' 1619 Project and President Donald Trump's 1776 Commission, involve not just historical facts, but how Americans define their nation. This battle over our national identity is a cultural battle, involving schools—cultural institutions—and the ideas we all need to share to get along with our neighbors, raise families, and pursue the American Dream. "Jonathan Butcher is one of our sharpest and most insightful analysts writing about education today. The nation owes him a debt of gratitude for work demystifying an obscure academic field, critical race theory, and fearlessly following where it leads when imposed on our public schools: abandoning the cherished belief that education can be a means of uniting our diverse country and replacing it with a pedagogy of grievance and despair." —Robert Pondiscio, Senior Fellow, American Enterprise Institute and author of *How the Other Half Learns* "Jonathan Butcher's timely book on critical race theory addresses what I have described as the civil rights issue of our times. Too few Americans understand how this dangerous ideology and how it has seeped down into our K-12 educational system. Butcher's book is part of a collective effort to educate the American people about the infiltration and indoctrination of our educational system." —Dr. Carol M. Swain, a former tenured professor at Vanderbilt and Princeton Universities **Public Law Librarianship: Objectives, Challenges, and Solutions** *Objectives, Challenges, and Solutions IGI Global* While there are common misconceptions regarding the definition of a public law library, it can be defined as a government mandated library which provides the public with access to legal resources. Largely, public law libraries are instituted by state or federal law. *Public Law Librarianship: Objectives, Challenges, and Solutions* aims to introduce firsthand knowledge on the funding, organizational structures, and governance related to the public law library. This book includes comprehensive research for current and

future public law librarians to provide administrative guidance and professional sources essential for running a public law library. **The Kentucky African American Encyclopedia** *University Press of Kentucky* The story of African Americans in Kentucky is as diverse and vibrant as the state's general history. The work of more than 150 writers, *The Kentucky African American Encyclopedia* is an essential guide to the black experience in the Commonwealth. The encyclopedia includes biographical sketches of politicians and community leaders as well as pioneers in art, science, and industry. Kentucky's impact on the national scene is registered in an array of notable figures, such as writers William Wells Brown and bell hooks, reformers Bessie Lucas Allen and Shelby Lanier Jr., sports icons Muhammad Ali and Isaac Murphy, civil rights leaders Whitney Young Jr. and Georgia Powers, and entertainers Ernest Hogan, Helen Humes, and the Nappy Roots. Featuring entries on the individuals, events, places, organizations, movements, and institutions that have shaped the state's history since its origins, the volume also includes topical essays on the civil rights movement, Eastern Kentucky coalfields, business, education, and women. For researchers, students, and all who cherish local history, *The Kentucky African American Encyclopedia* is an indispensable reference that highlights the diversity of the state's culture and history. **Black Butler, Vol. 30** *Yen Press* Mey-rin, the faithful maid of the Phantomhive household...but her first encounter with Ciel was that of assassin and target! This volume defines a visual language of Afrofuturism that includes materiality, temporality, and black liberation. Elizabeth Hamilton discusses the visual progenitors of Afrofuturism. In the artworks of Pierre Bennu, Sanford Biggers, Alison Saar, Mequitta Ahuja, Robert Pruitt, Renee Cox, Dawolu Jabari Anderson, Alma Thomas, and Harriet Powers, the fantastic narratives of Afrofuturism are uncovered through in-depth case studies. These case studies engage with Afrofuturism as a black feminist visual theory that helps to unburden the images of black women from the stereotypical visual scripts that are so common in contemporary visual culture of the United States. The book will be of interest to scholars working in art history, visual studies, American literature, gender studies, popular culture, and African American studies. **Undoing Gender** *Routledge* *Undoing Gender* constitutes Judith Butler's recent reflections on gender and sexuality, focusing on new kinship, psychoanalysis and the incest taboo, transgender, intersex, diagnostic categories, social violence, and the tasks of social transformation. In terms that draw from feminist and queer theory, Butler considers the norms that govern--and fail to govern--gender and sexuality as they relate to the constraints on recognizable personhood. The book constitutes a reconsideration of her earlier view on gender performativity from *Gender Trouble*. In this work, the critique of gender norms is clearly situated within the framework of human persistence and survival. And to "do" one's gender in certain ways sometimes implies "undoing" dominant

notions of personhood. She writes about the "New Gender Politics" that has emerged in recent years, a combination of movements concerned with transgender, transsexuality, intersex, and their complex relations to feminist and queer theory. **Black Butler** Yen Press Earl Phantomhive and his trusty butler Sebastian are called in to investigate the serial killer known as "Jack the Ripper."

**I Want You! The Evolution of the All-Volunteer Force** Rand Corporation As U.S. military forces appear overcommitted and some ponder a possible return to the draft, the timing is ideal for a review of how the American military transformed itself over the past five decades, from a poorly disciplined force of conscripts and draft-motivated "volunteers" to a force of professionals revered throughout the world. Starting in the early 1960s, this account runs through the current war in Iraq, with alternating chapters on the history of the all-volunteer force and the analytic background that supported decisionmaking. The author participated as an analyst and government policymaker in many of the events covered in this book. His insider status and access offer a behind-the-scenes look at decisionmaking within the Pentagon and White House. The book includes a foreword by former Secretary of Defense Melvin R. Laird. The accompanying DVD contains more than 1,700 primary-source documents-government memoranda, Presidential memos and letters, staff papers, and reports-linked directly from citations in the electronic version of the book. **Rapport sur le développement humain 2019 Au-delà des revenus, des moyennes et du temps présent - les inégalités de développement humain au XXIe siècle** United Nations Inégalités de développement humain constituent une entrave à la réalisation du Programme de développement durable à l'horizon 2030. Elles ne se résument pas à des

écarts de revenus et de richesses, et l'on ne peut en rendre compte au moyen de simples indicateurs synthétiques unidimensionnels. Elles détermineront aussi les perspectives de ceux et celles qui seront peut-être encore vivants au XXI<sup>e</sup> siècle. Le Rapport étudie les inégalités de développement humain en allant au-delà des revenus, des moyennes et du temps présent. Il s'interroge sur les formes d'inégalités qui comptent et leurs moteurs, reconnaissant que les inégalités pernicieuses sont généralement mieux perçues comme un symptôme de problèmes d'une plus grande ampleur dans une société ou une économie. Il cherche également à déterminer quelles politiques sont susceptibles de s'attaquer à ces moteurs – des politiques qui peuvent aider les pays à faire avancer leur économie tout en améliorant le développement humain et en réduisant les inégalités.

**Early Intervention Supporting and strengthening families** *Dunedin Academic Press Ltd* Early investment in vulnerable families, both in terms of the timing of early support or at the onset of issues, is more effective and cheaper than specialist support which is offered only once problems become complex. One of the best ways to keep children safe is to develop innovative ways of enhancing the quality of help received by families, to redesign services around children and families needs, and to provide an early help through better inter-agency working. This book examines early intervention policy across the UK and promising practice initiatives which have been designed to support vulnerable families.

**US Defense Politics The Origins of Security Policy** *Routledge* This new textbook seeks to explain how US defense and national security policy is formulated and conducted. The focus is on the role of the President, Congress, political partisans, defense industries, lobbies, science, the media, and interest groups, including the military itself, in shaping policies. It examines the following key themes: US grand strategy; who joins America's military; how and why weapons are bought; the management of defense; public attitudes toward the military and casualties; the roles of the President and the Congress in controlling the military; the effects of 9/11 on security policy, homeland security, government reorganizations, and intra- and inter-service relations. The book shows how political and organizational interests determine US defense policy, and warns against the introduction of centralising reforms. In emphasizing the process of defense policy-making, rather than just the outcomes of that process, this book signals a departure from the style of many existing textbooks.

*Roman Gelperin* Have you struggled to understand depression—in yourself, in a close friend or family member, or just in the people you observe around you? Have you ever wondered, in vain, what had caused your depression, what sinister process took over your mind, and what you could do to cure or overcome it? Or did you wish you could know what caused another person’s depression, wished you could read what that person was thinking, and felt completely helpless about what—if anything—you could do to help them? Has all the information you found on depression seemed utterly shallow, unsatisfying, or irrelevant? Well, this book will give you the answers, knowledge, and in-depth understanding of the psychology of depression that you have been searching for, but couldn’t find. Because it isn’t available almost anywhere else. In *Depression and the Immature Romance*, the author, humanistic psychologist, and expert on depression Roman Gelperin will teach you all about the little-known causes, types, and unseen inner psychology of depression. You’ll also learn what things cure depression, which cures to pursue for different types of depression, and the ways you can help yourself and the people around you. Having personally experienced depression, consumed all the best literature and research on the subject, and for a year-and-a-half even dated a girl with a long history of depression while writing this book, the author weaves introspection, interpersonal observation, and cutting-edge research into a masterful and eye-opening narrative explaining depression. This book tackles a classic psychological paradox, first noted by Freud: Why does a loving relationship between two mature adults normally lead, after its breakup, only to regular, healthy sadness; while an ambivalent, love-hate relationship between two adolescents, or those with the mentality of adolescents, more often end in a pathological, self-hating depression? Diving into his own experience of depression, caused by the breakup of his first adolescent relationship, the author decisively answers this question. With unreserved honesty and rigorous detail, he reveals the cause, mental processes, and surprising cure of his own depression. And he takes concrete examples of real individuals who also identified the cause, underlying psychology, and permanent cure of their depressions, to give you a groundbreaking new understanding of the full range of depression in general. This book covers the following: - A detailed overview of what’s currently known about depression - The nature of the emotions and cognitive elements involved in depression - A surefire formula that causes depression - Cases in which depression is an appropriate reaction - The different types of depression, and the remedy each requires - Depression as an adaptive function in animals that possess social status - Psychedelic drugs as a new, powerful treatment for certain types of depression By the end of this book, you’ll have a rich understanding of depression; have greater awareness, control, and insight into your own mental processes; and have a good sense of what another person is going through when they become depressed. You’ll also know highly effective ways to prevent depression in yourself and others, how you can provide genuine help to a depressed friend or relative, and how to repair your own mental processes when they go wrong. **Urban Spaces Planning and Struggles for Land and Community** *Lexington Books* *Urban*

Essays on Television Representations, 2013-2019** *McFarland* Television is entering a unique era, in which women and minorities no longer serve under white captains but take the lead--and all the other roles as well. In a brilliant new universe where the intersectional values of fourth wave feminism are becoming more widespread, fantasy and science fiction are leading the charge. Shows from Star Wars to Doctor Who are rewriting their traditional storylines to include more well-rounded and racially diverse female characters. Steven Universe, DC's Legends of Tomorrow, Orphan Black and Sense8 highlight queer characters and experiences. Dystopias like Marvel's Jessica Jones and The Handmaid's Tale show the female perspective entirely, guiding viewers from trauma to self-determination. In fantasy and horror, Wynonna Earp, Game of Thrones, Supergirl, Vikings, American Horror Story, Black Mirror, and The Walking Dead reveal how much the story changes with a spectrum of women reclaiming the text from white, straight, young, cisgender men. These new shows are intersectional, digital, global, critical, and political, with fan responses changing the content and cutting-edge platforms like Netflix and Hulu shaking up the format. **Sexual Health and Black College Students Exploring the Sexual Milieu of HBCUs** *Taylor & Francis* This book explores the various psychosocial, sociocultural, and contextual factors that affect the sexual health of Black students who attend Historically Black Colleges and Universities (HBCUs), and how this environment can help develop strategies to improve sexual health outcomes for its students. The college environment provides young people with a new sense of independence, self-determination, and peer pressure to engage in risky sexual behaviors, and research has shown that Black students at HBCUs bear a disproportionate burden of poorer sexual health outcomes than students at predominately white institutions (PWIs). Uniquely focusing on the sexual milieu of Black students, Hall-Byers explains why a better understanding of these settings is needed to guide successful interventions that benefit and support the sexual health of Black students. Chapters compare data and research on sexual health outcomes of young Black men and women in comparison to those at predominately white institutions, as well as looking at the role of HBCU campus contexts and cultures, the potential psychosocial and sociocultural influences, what culturally responsive approaches may look like, and

recommendations on how HBCU campuses can increase positive sexual health, such as through access, collaborative efforts among administrative offices, and reallocating resources. *Sexual Health and Black College Students* aims to advance the translation of culturally grounded research into effective practice and is essential reading for researchers and practitioners in sex therapy, public health, and social science as well as for college health staff, including nurses, student affairs, and campus wellness centers.

**Rethinking Anti-Discriminatory and Anti-Oppressive Theories for Social Work Practice** *Bloomsbury Publishing* For years anti-discriminatory and anti-oppressive practice have been embedded in the social work landscape. Thinking beyond the mainstream approaches, this book critically examines some of the core concepts and issues in social work, providing fresh perspectives and opportunities for educators, students and practitioners of social work. **Working-through Collective Wounds Trauma, Denial, Recognition in the Brazilian Uprising** *Springer* Working-through Collective Wounds discusses how collectives mourn and create symbols. It challenges ideas of the irrational and destructive crowd, and examines how complicated scenes of working-through traumas take place in the streets and squares of cities, in times of protest. Drawing on insights from the trauma theory of psychoanalyst Sándor Ferenczi and his idea of the 'confusion of tongues', the book engages the confusions between different registers of the social that entrap people in the scene of trauma and bind them in alienation and submission. Raluca Soreanu proposes a trauma theory and a theory of recognition that start from a psychoanalytic understanding of fragmented psyches and trace the social life of psychic fragments. The book builds on psychosocial vignettes from the Brazilian uprising of 2013. It will be of great interest to psychoanalysts interested in collective phenomena, psychosocial studies scholars and social theorists working on theories of recognition and theories of trauma. **Educational Leadership and Nancy Fraser** *Routledge* Drawing on the work of Nancy Fraser, this book offers a critical view of contemporary educational leadership and reform discourses, exploring how her key concepts of redistribution, recognition and representation may apply to social and therefore educational justice. Fraser offers a political and pragmatic reconciliation between feminist, neo-Marxist, critical and post-structuralist theories. This book outlines how Fraser has worked on and worked over theories of social justice and how this can inform how we can understand educational theory, policy and practice generally. In particular, the book focuses on the field of educational administration and leadership (ELMA) as it relates to equity issues such as school choice and inequality, gender and inclusive leadership, and alternative schooling. Fraser's argument about 'scaling up' social justice theory is shown to be highly salient given the emergence of the field of transnational education policy and its role in the context of intensified nation-state and edu-business competition. Overall, through the lens of Nancy Fraser's unitary framework, this book considers epistemological questions about the nature of knowledge, examines the relationship between the state, the individual, education and social movements, addresses the difficulties and dilemmas which arise due to the intersections of gender, class, race, sexuality and culture in a globalized context, and illustrates how the principles of social justice can be mobilized by leaders in everyday practice. *Educational Leadership and Nancy Fraser* is an illuminating read for those policymakers, researchers

and practitioners engaged in the field of educational administration, leadership and social justice. **Handbook of Security and Networks** *World Scientific* This valuable handbook is a comprehensive compilation of state-of-art advances on security in computer networks.
