An homage to fatherhood, and the appreciation of swell art.

Salinity: Environment — Plants — Molecules Springer Science & Business Media In biology, the very big global and the very small molecular issues currently appear to be in the limelight of public interest and research funding policies. They are in danger of drifting apart from each other. They apply very coarse and very fine scaling, respectively, but coherence is lost when the various intermediate levels of different scales are neglected. Regarding SALINITY we are clearly dealing with a global problem, which due to progressing salinization of arable land is of vital interest for society. Explanations and basic understanding as well as solutions and remedies may finally lie at the molecular level. It is a general approach in science to look for understanding of any system under study at the next finer (or "lower") level of scaling. This in itself shows that we need a whole ladder of levels with increasingly finer steps from the global impact to the molecular bases of SALINITY relations. It is in this vein that the 22 chapters of this book aim at providing an integrated view of SALINITY.

Global Tax Fairness Oxford University Press This book addresses sixteen different reform proposals that are urgently needed to correct the fault lines in the international tax system as it exists today, and which deprive both developing and developed countries of critical tax resources. It offers clear and concrete ideas on how the reforms can be achieved and why they are important for a more just and equitable global system to prevail. The key to reducing the tax gap and consequent human rights deficit in poor countries is global financial transparency. Such transparency is essential to curbing illicit financial flows that drain less developed countries of capital and tax revenues, and are an impediment to sustainable development. A major break-through for financial transparency is now within reach. The policy reforms outlined in this book not only advance tax justice but also protect human rights by curtailing illegal activity and making available more resources for development. While the reforms are realistic they require both political and an informed and engaged civil society that can put pressure on governments and policy makers to act.

West Caroline Islands Damnation Marked An Urban Fantasy Novel SM Reine There's something in the earth deep below Elise Kavanagh's territory. A shadow is falling upon local demons to devour their flesh and harvest their souls. And it's coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer-plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

Poultry and Pigeons Their Varieties, Management, Breeding and Diseases Nine Men Political History of the Supreme Court from 1790 to 1955 Pickle Partners Publishing This book, first published in 1955, analyzes the Supreme Court decisions that were made between the years 1790 up to and including 1955. The author, a Yale University Professor of Law, appraises the Supreme Court and its place in the United States' scheme of government, which is seen to treat the Justices not as law-givers, but as men whose motivations are the direct result of their own political beliefs and personal backgrounds. A fascinating read.

Max Ernst and Alchemy A Magician in Search of Myth University of Texas Press Surrealist artist Max Ernst defined collage as the "alchemy of the visual image." Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context. Taking a wholly different perspective on Ernst and alchemy, however, M. E. Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used

alchemical symbolism in works created throughout his career. A revival of interest in alchemy swept the artistic, psychoanalytic, historical, and scientific circles of the late nineteenth and early twentieth centuries, and Warlick sets Ernst's work squarely within this movement. Looking at both his art (many of the works she discusses are reproduced in the book) and his writings, she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments, his foundational work in surrealism, and his many collages and paintings of women and landscapes, whose images exemplify the alchemical fusing of opposites. This pioneering research adds an essential key to understanding the multilayered complexity of Ernst's works, as it affirms his standing as one of Germany's most significant artists of the twentieth century.

Canadian Studies in the New Millennium, Second Edition University of Toronto Press This popular textbook offers a thorough and accessible approach to Canadian Studies through comparative analyses of Canada and the United States, their histories, geographies, political systems, economies, and cultures. Students and professors alike acknowledge it as an ideal tool for understanding the close relationship between the two countries, their shared experiences, and their differing views on a range of issues. Fully revised and updated, the second edition of Canadian Studies in the New Millennium includes new chapters on Demography and Immigration Policy, the Environment, and Civil Society and Social Policy, all written by leading scholars and educators in the field. At a time in which there is a growing mutual dependence between the US and Canada for security, trade, and investment, Canadian Studies in the New Millennium will continue to be a valuable resource for students, educators, and practitioners on both sides of the border.

A Journey with Luke The 50 Day Bible Challenge 50 Day Bible Challenge A masterful storyteller with the compassion of a physician, Luke paints a picture of Jesus as healer, full of mercy, forgiveness, and love. The Gospel of Luke features the lovely Magnificat, Mary's love song to God, and the nativity story heard in Christmas pageants around the world. Luke includes three parables not heard in any other gospel: the prodigal son, the good Samaritan, and the unjust judge. Luke, also believed to be the author of the book of Acts, emphasizes prayer as central to the life of faith. Join the journey with Luke with fifty days of scripture readings, meditations, and prayers written by dynamic spiritual leaders from around the world. A Journey with Luke is part of a series of fifty-day Bible studies and is an extension of The Bible Challenge, a global initiative to encourage daily engagement with the Word of God.

DISCIPLE IV DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last.

Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times. Radio Manufacturers of the 1920s Rca to Zenith Vestal PressLtd Hymns, &c. [By Thomas L. Incorporated Demonic Dora (Teen Fantasy Series) Ragz Books THE DEMON DIARIES is a whimsical young adult series that combines GOOD OMENS style wit with urban fantasy stories similar to CASSANDRA CLARE'S MORTAL INSTRUMENTS to create an enchanting paranormal series that you won't be able to put down. Embark on an exciting adventure in Hell with DEMONIC DORA. She's finally managed to summon her first demon... Dora Carridine is trying to summon a demon, but she's not very good at Latin and nothing ever works out the way she plans. Her life is fraught with weekly exorcisms and having to watch her father's fire and brimstone TV show every Sunday. So, when Dora finally succeeds in summoning an incompetent demon lord, she's absolutely delighted when all hell breaks loose. She thought summoning a sexy demon lord would be the answer to all of her problems, but her problems are only just beginning when her zealot parents try to burn her at the stake, and Dora is left with only one option—to escape and follow her demon straight into Hell. "Wildly, bizarrely, brain-punchingly inventive!" - Derek Landy, bestselling author

of Skulduggery Pleasant. **DISCOVER THE DEMON DIARIES, WHICH HAS SPELLBOUND 2.5 MILLION READERS. WHAT READERS ARE SAYING** “I love how Claire Chilton keeps your pulse racing until the end of the book. The addictive writing plus amusing characters and supernatural stories in these books create an unforgettable read.” ★★★★★ “If you are looking for an action-packed and funny gothic fiction series with a strong female lead to completely immerse yourself in, then this might be the book series for you.” ★★★★★ “The descriptions in this hilarious occult series are rich with meaning, and the parody of preternatural characters are brilliantly human.” ★★★★★ “I love Dora! Her sarcasm manages to amuse me whether she’s being tortured in the academy for demons in Hell or just arguing with the Fallen One in Heaven. Great world building, and the best and most sarcastic characters.” ★★★★★ “Claire Chilton not only conjures a YA fantasy world brimming with magical creatures like vampires, werewolves, zombies, angels, demons, succubus, dragons, elves, fae, fairies, ghosts, gods, shapeshifters and a whole range of mythical monsters, she also creates a few of her own. Were-squirrels, anyone?” ★★★★★ “If you’re looking for a dark teen comedy that is the goth lovechild of Deadpool and Buffy, then look no further. The novels in this series are fast-paced, dogma-driven, satires that focus on an outcast teenage girl who uses witty banter and a spellbook to become a witch and travel to Hell and back. With light humour and a lot of lols along the way, this Sabrina-like heroine explores the horror of death and darkness in even the most heavenly places.” ★★★★★ “An entertaining, humorous and romantic paranormal novel that kept me up past midnight because I couldn’t put it down.” ★★★★★ “When the demon lord you’re dating takes you home to meet his undead family, and then you’re forced to attend school in Hell, you know the romance is going to get a bit weird. This was a fun unearthly romp that will make you laugh out loud. The first story is a bit short, but it’s also free. The stories aren’t overly romantic, so they’re great for older teenage boys and girls.” ★★★★★ “Deliciously thrilling and wickedly silly from the grave and back! If you’re tired of depressed heroines, then enjoy this feisty female protagonist as she travels on the road to Hell with nothing but her spells, soul chips and wits to keep her alive.” ★★★★★ “A must-read series of sorcery, comedy, witches and demons. I can’t wait for more new releases in this series.” ★★★★★

Rusch to Glory Adventure, Risk & Triumph on the Path Less Traveled VeloPress
 Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Antennas for Portable Devices John Wiley & Sons Offers a comprehensive and practical reference guide to antenna design and engineering for portable devices. Antennas are often the most bulky components in many portable wireless devices such as mobile phones. Whilst the demand for ever smaller and more powerful wireless devices increases, as does the importance of designing and engineering smaller antennas to fit these devices. *Antennas for Portable Devices* provides a complete and cutting-edge guide to the design and engineering of small antennas for portable electronic devices such as mobile phone handsets, laptop computers, RFID (radio frequency identification), microwave thermal therapies devices, wearable devices, and UWB (ultra-wideband) based consumer devices. The book addresses practical engineering issues that antenna professionals have to deal with. It explains the immediate demands for existing systems; discusses the antenna technology for the latest and emerging applications, and gives comprehensive coverage of hot topics in the wireless industry. Issues including design considerations, engineering design, measurement setup and methodology, and practical applications are all covered in depth. *Antennas for Portable Devices: Covers antennas for all modern portable wireless devices from handsets, RFID tags, laptops, wearable sensors, UWB-based wireless USB dongles and handheld microwave treatment devices* Explains how to design and engineer applications for miniaturization of antenna technology, utilising practical case studies to provide the reader with an understanding of systems and design skills. Links the basic antenna theory, with design methodology, and engineering design. Is amply illustrated with numerous figures and data tables of antenna designs to aid understanding. Features contributions from industry and research experts in antenna technology and applications. This invaluable resource will provide a comprehensive overview of miniaturizing antenna technology for antenna engineers in industry, and R&D organizations, graduate students, consultants, researchers, RF professionals, technical managers, as well as practitioners working in the area of consumer electronics, RF systems, wireless communications, or bio-medical devices.
