THE HEART OF LEADERSHIP

BECOMING A LEADER PEOPLE WANT TO FOLLOW

Berrett-Koehler Publishers Are you the type of leader people want to follow? You can be—but first, you've got to understand what sets great leaders apart from all the rest. Certainly, leaders need people skills, execution skills, a deep knowledge of industry trends, the ability to articulate a vision, and more—they must be competent—but that's just the tip of the iceberg. What's below the waterline? What's deep inside the best leaders that makes them different? Mark Miller contends it is their leadership character. In his latest enlightening and entertaining business fable, he describes the five unique character traits exhibited by exceptional leaders and how to cultivate them. The Heart of Leadership begins with young and ambitious Blake Brown being passed over for a desperately wanted promotion, despite an outstanding individual performance. Confused and frustrated, he turns to his former mentor, Debbie Brewster. Rather than attempting to solve Blake's problem for him,

she sends him on a quest to meet with five of his late father's colleagues, each of whom holds a piece of the puzzle he's trying to solve. As Blake puts the pieces together, he discovers that in the final analysis, a lack of skills isn't what holds most leaders back; skills are too easy to learn. Without demonstrated leadership character, however, a skill set will never be enough. Most often, when leaders fail to reach their full potential, it is an issue of the heart. This is Blake's ultimate revelation. This book shows us that leadership needn't be the purview of the few—it is within reach for millions around the world. *The Heart of Leadership* is a road map for every person who desires to make a difference in the lives of others and become a leader people want to follow.

THE HEART OF BUSINESS

LEADERSHIP PRINCIPLES FOR THE NEXT ERA OF CAPITALISM

A remarkable turnaround by a leader with a remarkable philosophy: Find your noble purpose. Put people at the center. Unleash human magic. "It was Fall in Minnesota. It was getting cold and we were supposed to die." This is how Hubert Joly describes the early, dark days as CEO of Best Buy, a job most thought he was crazy to accept. Amazon was tearing a disruptive path through retail, but in the face of that existential threat Joly did something remarkable: he saved Best Buy and remade it into a thriving company rated as one of the most desirable businesses to work for. Having recently stepped down as Chairman and CEO, Joly is ready to share the leadership principles that underpinned the resurgence of Best Buy and that he believes are at the heart of business: pursue a noble purpose, put people at the center, unleash human magic, and treat profit as an outcome. There was a time when many would call this a soft philosophy. But times are changing. Best Buy and 180 other companies signed the momentous Business Roundtable statement in support of stakeholder capitalism. The Covid-19 pandemic further pushed many businesses to lead from a place of purpose and with humanity. The changes underway are not a revolt, but a revolution. And Joly provides concrete advice on how to implement principles that can serve as beacons for the next era of capitalism. Joly himself was transformed from a hard-charging, deeply analytical McKinsey consultant to a leader who believes in what he calls human magic. He will share how so much of what he initially learned about management is either dated, incomplete, or simply wrong—including how to turn around a business, develop and implement a strategy, mobilize an organization, and what it takes to be a great leader. The leadership principles Joly lays out worked at Best Buy. They can also contribute to the necessary re-foundation of business and capitalism around purpose and humanity.

THE HEART-LED LEADER

HOW LIVING AND LEADING FROM THE HEART WILL CHANGE YOUR ORGANIZATION AND YOUR LIFE

Currency New York Times bestselling author Tommy Spaulding shows you how looking inwards--and leading with your heart--can transform your life. In his New York

Times bestseller, It's Not Just Who You Know, world renowned leadership speaker and former CEO of Up with People Tommy Spaulding talked about the power of building genuine and lasting relationships both personally and professionally. In The Heart-Led Leader, Spaulding turns his focus to ourselves--to who we are. Authentic leaders, Spaulding says, live and lead from the heart. The values and principles that guide our lives and shape our ability to lead others is far more important than our title, or our ability to crunch numbers, or the impressive degrees we display on our walls. To effect true transformational change, heart-led leaders draw on the qualities of humility, vulnerability, transparency, empathy and love. Illustrated with stories from his own life, and from some of the exceptional leaders he has met and worked with over the years, Spaulding unpacks what those qualities mean, talks about the 18-inch journey from the head to the heart--from our intellect to our emotions--and shows us how to incorporate them into our careers, into how we manage and lead others, and into how we live our lives. It is a vision of leadership that has the power to transform everything we do, and the lives of everyone we touch.

DARE TO LEAD

BRAVE WORK. TOUGH CONVERSATIONS. WHOLE HEARTS.

Random House In her #1 NYT bestsellers, Brené Brown taught us what it means to dare greatly, rise strong and brave the wilderness. Now, based on new research conducted with leaders, change makers and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status and power over people. Leaders are people who hold themselves accountable for recognising the potential in people and ideas, and developing that potential. This is a book for everyone who is ready to choose courage over comfort, make a difference and lead. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it and work to align authority and accountability. We don't avoid difficult conversations and situations; we lean into the vulnerability that's necessary to do good work. But daring leadership in a culture that's defined by scarcity, fear and uncertainty requires building courage skills, which are uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the same time we're scrambling to figure out what we have to offer that machines can't do better and faster. What can we do better? Empathy, connection and courage to start. Brené Brown spent the past two decades researching the emotions that give meaning to our lives. Over the past seven years, she found that leaders in organisations ranging from small entrepreneurial start-ups and family-owned businesses to non-profits, civic organisations and Fortune 50 companies, are asking the same questions: How do you cultivate braver, more daring leaders? And, how do you embed the value of courage in your culture? Dare to Lead answers these questions and gives us actionable strategies and real examples from her new research-based, courage-building programme. Brené writes, 'One of the most important findings of my career is that courage can be taught, developed and measured. Courage is a collection of four skill sets supported by twenty-eight

behaviours. All it requires is a commitment to doing bold work, having tough conversations and showing up with our whole hearts. Easy? No. Choosing courage over comfort is not easy. Worth it? Always. We want to be brave with our lives and work. It's why we're here.'

ATLAS OF THE HEART

MAPPING MEANINGFUL CONNECTION AND THE LANGUAGE OF HUMAN EXPERIENCE

Random House In her latest book, five-time #1 New York Times bestselling author Dr Brené Brown, writes, "If we want to find the way back to ourselves and each other, we need language and the grounded confidence to both tell our stories, and to be stewards of the stories that we hear. This is the framework for meaningful connection." In *Atlas of the Heart*, Brown takes us on a journey through 87 of the emotions and experiences that define what it means to be human. As she maps the necessary skills and lays out an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances - a universe where we can share and steward the stories of our bravest and most heart-breaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. *Atlas of the Heart* draws on this research, as well as Brown's singular skills as a researcher/storyteller, to lay out an invaluable, research-based framework that shows us that naming an experience doesn't give the experience more power, it gives us the power of understanding, meaning and choice. Brown shares, "I want this to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves. Even when we have no idea where we are."

WATER STEWARDSHIP

IWA Publishing Achieving true wholesome sustainability requires a change of heart. Hence this book starts in the heart. It asks the timely question of 'how do we become true water stewards?' The transformation to a new sustainable practice will be made through a new connection with our heart, a more holistic type of analysis (brains) and the right actions based on personal integrity (hand). A water steward should be similar to the shepherds of olden days. They were given the responsibility to guard the sheep. The village trusted they would take care of the flock, make sure it would be well fed, protected from storms and kept together. The shepherd learned to take a long term perspective for the flock, ensuring that the pastures were not overgrazed, that the flock was not led too far away from access to water and that shelter was in reach in the event of storms and dangerous predators. Over time the shepherds became increasingly skilled in caring for the flock. They integrated the responsibility of the well-being of the flock into their identity. In a similar way, we can take the responsibility for human water consumption and our interaction with the natural world. We need to understand and work according to the big picture and

the very long term perspective. Being a water steward requires deep reflection of how water should be treated and our relationship with water. Water utility professionals have the knowledge and have been trusted with the role of managing human water consumption. This is a great responsibility and requires deep reflection of how this should be done. The book will present ideas and concepts for the new role as well as questions for personal reflection.

HEART OF DARKNESS

SERVANT LEADERSHIP: LEADING WITH UNSELFISH AUTHORITY

Lulu Press, Inc Jesus introduced the idea of servant leadership and showed us how to do it. God requires leaders in His Kingdom to lead in this way so that every one of His children can have his or her true needs met. This is true on earth, but a shortage of servant leadership works against the total fulfillment of His loving design for mankind. This will be fulfilled far better in the great eternity that He provides His children. He works to prepare His children now for our life in eternity by teaching our hearts to love, lead, and relate to each other like He does. The Bible shows God's calling for servant leadership in His Church and in the family. We can also see its application to local and national governments wherever the Gospel has impacted these governments enough to change them from their natural way to do things. This book shows how the Bible clearly shows all of the above conclusions.

WHY SHOULD ANYONE BE LED BY YOU?

WHAT IT TAKES TO BE AN AUTHENTIC LEADER

Harvard Business Press Too many companies are managed not by leaders, but by mere role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while "conforming enough." Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. *Why Should Anyone Be Led By You?* will forever change how we view, develop, and practice the art of leadership, wherever we live and work.

QUEST FOR EXCEPTIONAL LEADERSHIP

MIRAGE TO REALITY

SAGE Publishing India Widely acclaimed as a contemporary masterpiece, this book is a discerning analysis of the leadership vacuum that pervades the world. It outlines how leaders today can reach the summit of exceptional leadership by re-discovering the leadership traits that lie dormant within them. This 2nd edition is profoundly enriched by two new additions—a new preface: *Why we Have Fewer Good Leaders*, and a postscript: *Persistent Doubts; Perennial Questions*. The innovative concepts

that are already a part of the new leadership folklore—*Four-Quadrant Matrix of Choice; Five Circles of Leadership Attitudes; Triple Top Line of Joy, Peace and Contentment and The Journey from Base Camp Leadership Traits to the Summit of Exceptional Leadership*—have all been thoroughly updated with many inspiring insights that leave a lasting imprint on the reader.

HEAD, HEART AND GUTS

HOW THE WORLD'S BEST COMPANIES DEVELOP COMPLETE LEADERS

John Wiley & Sons This book reveals the three most important capabilities leaders must demonstrate today: the ability to set strategy, empathize with others, and take risks—all at the same time. In *Head, Heart, and Guts*, leadership experts David Dotlich, Peter Cairo, and Stephen Rhinesmith—who teach and coach CEOs and executive teams throughout the world—argue that to be successful in a complex, matrixed, fast-moving world, “whole” leaders must set strategy, develop trusting relationships with others, and consistently do the right thing based on personal values. “Partial” leaders, often the product of traditional executive programs, may be successful in the short run, but their companies lose over time. Filled with case studies of companies such as Bank of America, Johnson & Johnson, Novartis, and UBS, *Head, Heart, and Guts*, lays out specific steps and actions for leaders who want to grow beyond their “leadership comfort zone” and an action plan for companies that want to move beyond tried-and-true leadership development in order to develop “whole” leaders throughout their leadership pipeline.

GOD'S HEART FOR CHILDREN

PRACTICAL THEOLOGY FROM GLOBAL PERSPECTIVES

Langham Publishing *In the New Testament, Jesus is explicit in communicating God's heart for children. Yet what does it look like for that heart to encounter the contextual realities of life in the twenty-first century? This book explores the theological implications and practical realities of ministry with children in a globalized world. Affirming eight core beliefs regarding the place of children in creation - that they are created with dignity and intended to be placed in families, cared for in community, advocated by society, secured in hope, affirmed in God's church, included in God's mission, and engaged in creation care - this book traces the impact of such far-reaching issues as displacement, climate change, human trafficking, persecution, and gender discrimination on childhood development. Written by over twenty contributors from around the world, each section roots its premise in contextual theology, examines the implications for praxis, provides a case study, and includes questions for discussion and reflection. Through each chapter the conversation around childhood development is broadened, prioritizing the experiences of children and practitioners to truly reflect the realities of our changing world. This is an excellent resource for all those concerned with the current risks facing children, especially among the world's most vulnerable populations, and what best practice looks like as the people of God work to bring God's heart, and hope, to children in their communities and beyond.*

THE HEART OF LEADERSHIP

BECOMING A LEADER PEOPLE WANT TO FOLLOW

Berrett-Koehler Pub This short, easy-to-read fable reveals the five habits that underlie leadership character and that determine leaders' success - and teaches leaders how to develop these habits. Like Mark Miller's previous books, this one follows the life, learning, and influence of Debbie Bruster. Here she finds herself mentoring Blake Brown, the son of her former mentor. Rather than answer Blake's questions about leadership directly, Debbie introduces him to other leaders, each of whom shares a unique perspective on what really makes a leader successful. As Blake puts the pieces together, he discovers his problem is not one of skills but of character, that leadership is more about the heart of the leader than the head or hands. In fact, Miller summarized these traits with the acronym HEART: Hunger for Wisdom, Expect the Best, Accept Responsibility, Respond with Courage, and Think Others First. With the help of his new friends and mentors, Blake is able to build a plan to transform his heart. The good news for all of us: leadership is not just the purview of the few - it is within reach for millions of aspiring leaders around the world. This book is the road map they need to get their lives and careers on track.

MEIN KAMPF

Diamond Pocket Books Pvt Ltd 'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. DEVELOPING SUCCESSFUL SCHOOLS

A HOLISTIC APPROACH

Springer Nature This book identifies and emphasizes the need for a holistic approach to school improvement when it comes to both the development of the whole child and the relationships among student, family, and community development. In recent years, the emphasis in PK-12 education in the United States has been on the measurement of student and school performance by high-stakes achievement tests. This emphasis has resulted in a narrowed curriculum emphasizing lower-level cognitive learning, with little attention paid to the moral, social, and creative development of students, families, and communities. This book argues that PK-12 education needs to shift its focus to holistic qualities of the successful school, qualities that reflect a moral rather than a technical approach to education while also improving students' academic performance.

LEAD FROM THE HEART

TRANSFORMATIONAL LEADERSHIP FOR THE 21ST CENTURY

Hay House, Inc Leadership and engagement expert Mark C. Crowley shows how trading in the old business playbook for heart-led leadership strategies will create purpose-driven, dedicated employees and higher levels of performance. Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement. In this thoroughly revised and updated edition of his now classic book, visionary Mark C. Crowley provides the roadmap workplace leaders the world over are seeking: How to most successfully and sustainably inspire and manage other human beings in the post-pandemic era. · Nearly 50 million workers quit their jobs in the U.S. alone in 2021—a record number likely to be exceeded in 2022. · While we might imagine that an opportunity to earn greater pay is the key driver of this “Great Resignation,” research shows two-thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well-being. · More specifically, people quit when they feel they aren’t valued, respected, appreciated, coached—or cared about personally—by their manager and organization. · Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives, human beings have profoundly evolved in what they need and want in exchange for their work. · Consequently, a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment. · The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance. · In this new and updated version of his seminal and visionary book, Mark C. Crowley draws upon emerging medical and other scientific discoveries which prove it's the heart, not the mind, that drives human motivation and achievement. · While we’ve long been led to believe that human beings are essentially rational beings, new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives. · In light of this breakthrough understanding, it’s become incumbent upon workplace managers to pay great attention to their employees' emotional experience at work—far greater attention than any of us ever believed necessary. · Ironically, most of us were told the heart has no place in workplace management. In fact, most of us were taught that the heart acts like Kryptonite in leadership: it inherently undermines a manager's effectiveness - and lowers performance. · What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and instinctively respond to managers who care about them personally and support their deep human needs. · To be absolutely clear, there's nothing soft or weak about the Lead From The Heart philosophy. Instead, it represents the future of workplace management and a roadmap to driving uncommon engagement, productivity and profitability when organizations around the world are wanting it most. · Rich with inspiring stories and illuminating research, this book proves that when you lead people with a greater balance of mind and

heart, people naturally follow. And they also excel.

MOTIVATIONAL INTERVIEWING FOR LEADERSHIP

MI-LEAD

Createspace Independent Publishing Platform Transformational leadership can be complex, difficult, demanding, and stressful. It is not surprising that there are so many books, programs, trainings, consultants, and coaches that exist to help leaders develop leadership and management skills. Leaders play an important role in employee satisfaction and ultimately the success or failure of an organization. Communication is at the heart of all leadership skills, and it is frequently an area of focus by consultants and trainers. As Kotter, a New York Times bestselling author and retired Harvard Business School professor, explained, "What leaders really do is prepare organizations for change and help them cope as they struggle through it." Our book, Motivational Interviewing for Leadership: MI-LEAD, provides a roadmap for leaders to become Transformational Leaders. It provides concrete, person-focused tools that help to address ambivalence and engagement both on an individual level and at a group level. These tools are an effective approach to developing skills as a transformational leader, one who can communicate well, enhance engagement, respond effectively to ambivalence and discord, and lead through change.
