Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures. **A Doll's House** [BoD - Books on Demand](#) **Reproduction of the original: A Doll's House** by Henrik Ibsen **Things to Make in Your Home Workshop** [Franklin](#)

My Prescription for Anti-Depressive Living [Harper Collins](#) My Prescription for Anti-Depressive Living offers a window into the life and mind of an extraordinarily creative person who was once told by a pottery professor that he had no talent and should consider another career. Not only did Adler stick with pottery, he transformed it from a dreary, unappealing summer camp craft into a contemporary signifier of modern, handcrafted luxury and became America's first (and only) celebrity potter. Interior designer Bill Sofield has declared, "Jonathan Adler does for American pottery what Noel Coward did for cocktail parties -- he makes life witty, sophisticated, and simply delicious." And now, on a much larger canvas, Adler reveals how you can do the same. My Prescription for Anti-Depressive Living explores Jonathan's own tongue-in-cheek design "manifesto," with each chapter devoted to a different "tenet," moving through the major incarnations of his interiors and products and ending with the story of his personal creative odyssey. The book is a visual feast, jam-packed with images of interiors and objects for the home, both those designed by Jonathan and those that have inspired him. At the heart of the book are ten of Adler's signature interiors, ranging from photographer Andrea Stern's landmark modernist beach house to the Parker Palm Springs, a desert resort that Adler gave a head-to-toe makeover. Overviews and details of the Parker are prominently featured throughout the book, as are images of the three homes (in Greenwich Village, Shelter Island, and Palm Beach) Jonathan and his partner, Simon Doonan, share with their dog, Liberace, and five other private residences. Part portrait of the artist as a young decorator, part call to armchairs, Adler's much-anticipated literary debut is spirited, provocative, and, ultimately, inspiring. Sophie's World [Hachette UK](#) The international bestseller about life, the universe and everything. When 14-year-old Sophie encounters a mysterious mentor who introduces her to philosophy, mysteries deepen in her own life. Why does she keep getting postcards addressed to another girl? Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined. A phenomenal worldwide bestseller, SOPHIE'S WORLD sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. A brilliantly original and fascinating story with many twists and turns, it raises profound questions about the meaning of life and the origin of the universe. Build a Doll's House [B T Batsford Limited](#) This guide contains all the tips, plans and step-by-step sketches needed to build a brick house, a weatherboard house, a Tudor house and a six-room Georgian or Victorian house. [4] of cover. Drawing Futures Speculations in Contemporary Drawing for Art and Architecture [UCL Press](#) Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas. We are honored by God to stand before our congregation each week, and we want to give them the very best, but with the press of the many demands of ministry, sometimes that is difficult to do. And if you're like me, you prefer writing your own sermons because you have a special connection with your congregation that is hard to reach through a message someone else has written. In other words, no one knows your people like you do! Our new Pulpit Outline Series gives you a starting point - a sermon title, a deductive sermon outline; and a relevant illustration you can use however you like. In this edition, rather than an outline, we have given you full manuscript messages that can be edited to suit your purposes. We invite you to make these messages your own, because only you know the people God has called you to preach to. And we are so honored that you've invested in this unique third volume in the Pulpit Outline series - 52 Funeral Sermons. We have put together the most tasteful, relevant, and Biblical messages possible. May God Bless You as You Share His Word! Design for the Real World Human Ecology and Social Change
