Getting the books **Pdf Journal City Yourself It Do York New My Is This** now is not type of challenging means. You could not by yourself going later than book addition or library or borrowing from your friends to get into them. This is an completely easy means to specifically acquire guide by on-line. This online message Pdf Journal City Yourself It Do York New My Is This can be one of the options to accompany you similar to having additional time.

It will not waste your time. undertake me, the e-book will agreed declare you additional thing to read. Just invest tiny mature to edit this on-line notice **Pdf Journal City Yourself It Do York New My Is This** as skillfully as review them wherever you are now.

KEY=YOURSELF - ALANA KYLAN

The Image of the City

MIT Press The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Making Teaching and Learning Matter

Transformative Spaces in Higher Education

Springer Science & Business Media This volume captures the spirit of collaboration and innovation that its authors bring into the classroom, as well as to groundbreaking undergraduate programs and initiatives. Coming from diverse points of view and twenty different disciplines, the contributors illuminate the often perplexing debates about what matters most in higher education today. Each chapter tells a unique story about creating vital pedagogical arenas that have the potential to transform teaching and learning for both faculty and students. These exploratory spaces include courses under construction, cross-college and interdisciplinary collaborations, general education reform initiatives, and fresh perspectives on student support services, faculty development, freshman learning communities, writing across the curriculum, on-line degree initiatives, and teaching and learning centers. All these spaces lend shape to an over-arching, system-wide project bringing together the often disconnected silos of undergraduate education at The City University of New York (CUNY), America's largest urban public university system. Since 2003, the University's Office of Undergraduate Education has sponsored coordinated efforts to study and improve teaching and learning for the system's 260,000 undergraduates enrolled at 18 distinct colleges. The contributors to this volume present a broad spectrum of administrative and faculty perspectives that have informed the process of transforming the undergraduate experience. Combined, the voices in these chapters create a much-needed exploratory space for the interplay of ideas about how teaching and learning need to matter in evolving notions of higher education in the twenty-first century. In addition, the text has wider social relevance as an in-depth exploration of change and reform in a large public institution.

Strengthening Forensic Science in the United States

A Path Forward

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Evidence and Innovation in Housing Law and Policy

Cambridge University Press No area of law and policy is more central to our well-being than housing, yet research on the topic is too often produced in disciplinary or methodological silos that fail to connect to policy on the ground. This pathbreaking book, which features leading scholars from a range of academic fields, cuts across disciplines to forge new connections in the discourse. In accessible prose filled with cutting-edge ideas, these scholars address topics ranging from the recent financial crisis to discrimination and gentrification and show how housing law and policy impacts household wealth, financial markets, urban landscapes, and local communities. Together, they harness evidence and theory to capture the 'state of play' in housing, generating insights that will be relevant to academics and policymakers alike. This title is also available as Open Access.

Biblical Eschatology, Second Edition

Wipf and Stock Publishers Biblical Eschatology provides what is not found in any other single volume on eschatology: it analyzes all the major eschatological passages (including the Olivet Discourse and the book of Revelation), issues (including the second coming of Christ, the millennium, the rapture, and Antichrist), and positions (including all the major views of the millennium) in a clear, but not superficial, way. The book concludes with a chapter showing how eschatology is relevant for our lives. Biblical Eschatology makes understanding eschatology easier by including chapters on how to interpret prophecy and apocalyptic literature, by showing the history of eschatological thought, and by placing eschatology in the context of the Bible's overall story line and structure. Clarity and understanding are enhanced by the use of comparative tables and appendices. Subject and Scripture indexes are included. The book interacts with the best of Evangelical and Reformed scholarship, and the extensive bibliography (which includes the web addresses of many online resources) provides an excellent source for the reader's further study. This is a perfect resource for intelligent Christians, including pastors, students, and teachers, who desire to understand eschatology and to see how it fits together with the rest of the Bible.

Entrepreneurship in Cities

Neighbourhoods, Households and Homes

Edward Elgar Publishing Entrepreneurship in Cities focuses on the neglected role of the home and the residential neighbourhood context for entrepreneurship and businesses within cities. The overall objective of the book is to develop a new interdisciplinary perspective that links entrepreneurship research with neighbourhood and urban studies. A key contribution is to show that entrepreneurship in cities is more than agglomeration economies and high-tech clusters. This is the first book to connect entrepreneurship with neighbourhoods and homes, recognising that business activity in the city is not confined to central business districts, high streets and industrial estates but is also found in residential neighbourhoods. It highlights the importance of home-based businesses for the economy of cities. These often overlooked types of businesses and workers significantly contribute to the 'buzz' that makes cities favourable places to live and work.

The Royal Marsden Manual of Clinical Nursing Procedures Student Edition

John Wiley & Sons The student edition of The Royal Marsden Manual of Clinical Nursing Procedures has been the definitive, market-leading textbook of clinical nursing skills for fifteen years. This internationally best-selling title sets the gold standard for nursing care, providing the procedures, rationale, and guidance required by pre-registration students to deliver clinically effective, patient-focused care with expertise and confidence. With over two-hundred detailed procedures which reflect the skills required to meet The Standards of Proficiency for Registered Nurses (NMC 2019), this comprehensive manual presents the evidence and underlying theory alongside full-colour illustrations and a range of learning activities designed to support student nurses in clinical practice. Loved and trusted by millions, The Royal Marsden Manual of Clinical Nursing Procedures, Student Edition continues to be a truly indispensable textbook for students, and includes coverage of patient assessment and discharge planning, communication, infection prevention and control, perioperative care, wound management, nutrition, diagnostic testing, medicines management, and much more. Learning features in this revised tenth edition include: Learning outcomes – summarise the focus of the information in each chapter Learning in practice – asks you to consider issues within your practice environment Case studies –

provide learning around a particular patient scenario Clinical applications – ask you to consider how you would apply your knowledge to a clinical situation Stretch activities – challenge you with more nuanced, advanced issues to reflect upon Many of the features in the book are relevant to trainee nursing associates, especially when used in conjunction with supervision from academic and clinical teachers. A companion website to this title is available at www.royalmarsdenmanual.com/student10e

The Allure of Premeditated Murder

Why Some People Plan to Kill

Rowman & Littlefield The Allure of Premeditated Murder examines why some people plan and implement terrible violence against others. Drawing on extensive research and interviews with murderers, Jack Levin and Julie B. Wiest help readers understand why such vicious murders occur and what we can do to minimize their incidence.

Factors in Studying Employment for Persons with Disability

How the Picture Can Change

Emerald Group Publishing This collection examines less frequently analyzed aspects of employment for persons with disabilities, offering a variety of approaches to the conceptualization of work, and how it differs across cultures, organizations, and types of disability.

World Cities Report 2016

Urbanization and Development - Emerging Futures

United Nations The analysis of urban development of the past twenty years presented in this maiden edition of the World Cities Report shows, with compelling evidence, that there are new forms of collaboration and cooperation, planning, governance, finance and learning that can sustain positive change. The Report unequivocally demonstrates that the current urbanization model is unsustainable in many respects. It conveys a clear message that the pattern of urbanization needs to change in order to better respond to the challenges of our time, to address issues such as inequality, climate change, informality, insecurity, and the unsustainable forms of urban expansion.

State of the World's Cities 2008/9

Harmonious Cities

Routledge Cities are perhaps one of humanity's most complex creations, never finished, never definitive. They are like a journey that never ends. Their evolution is determined by their ascent into greatness or their descent into decline. They are the past, the present and the future. Cities contain both order and chaos. In them reside beauty and ugliness, virtue and vice. They can bring out the best or the worst in humankind. They are the physical manifestation of history and culture and incubators of innovation, industry, technology, entrepreneurship and creativity. Cities are the materialization of humanity's noblest ideas, ambitions and aspirations but when not planned or governed properly, can be the repository of society's ills. Cities drive national economies by creating wealth, enhancing social development and providing employment but they can also be the breeding grounds for poverty, exclusion and environmental degradation. The 21st Century is the Century of the City. Half of humanity now lives in cities, and within the next two decades, 60 per cent of the world's people will reside in urban areas. How can city planners and policymakers harmonize the various interests, diversity and inherent contradictions within cities? What ingredients are needed to create harmony between the physical, social, environmental and cultural aspects of a city and the human beings that inhabit it? This report adopts the concept of Harmonious Cities as a theoretical framework in order to understand today's urban world, and also as an operational tool to confront the most important challenges facing urban areas and their development processes. It recognizes that tolerance, diversity, social justice and good governance, all of which are inter-related, are as important to sustainable urban development as physical planning. It addresses national concerns by searching for solutions at the city level. For that purpose, it focuses on three key areas: spatial or regional harmony, which examines the main drivers of urban growth in the developing world and explores the spatial nuances of economic and social policies; social harmony, which presents and analyzes new data on urban inequalities worldwide and describes the types of shelter deprivations experienced by slum dwellers in developing world regions; and environmental harmony, which examines the role of cities in the climate change debate, and the impact of global warming on the most vulnerable cities. The report also assesses the various intangible assets within cities that contribute to harmony, such as cultural heritage, sense of place and memory and the complex set of social and symbolic relationships that give cities meaning. It argues that these intangible assets represent the soul of the city and are as important for harmonious urban development as tangible assets. Harmony within cities, argues the report, is both a journey and a destination. Published with UN-HABITAT

Lifelong Learning and Education in Healthy and Sustainable Cities

Springer This book presents essential insights into lifelong learning and education in healthy and sustainable cities, providing a basis for strategies to help achieve the 2030 Agenda sustainable development and health promotion goals. The interface between environment, health and lifelong learning is fundamental to attaining these goals, and as such, the book gathers interdisciplinary reflections from researchers, educators and other experts concerning the links between environmental quality, human health, human education and well-being, and addressing inequality, unplanned urbanization, migration, lifestyles, and consumption and production patterns. Topics include: Urban planning to address inequality in health and urban poverty; Healthy cities and healthy environments; Governance for sustainable development; Social determinants of health oriented on sustainable development goals; Education and lifelong learning for sustainability; Energy security, access and efficiency; Sustainable cities, buildings and infrastructure.

E-Participation in Smart Cities: Technologies and Models of Governance for Citizen Engagement

Springer This book analyzes e-participation in smart cities. In recent decades, information and communication technologies (ICT) have played a key role in the democratic political and governance process by allowing easier interaction between governments and citizens, and the increased ability of citizens to participate in the production chain of public services. E-participation plays an important role in the development of smart cities and smart communities, but it has not yet been extensively studied. This book fills that gap by combining empirical and theoretical research to analyze actual practices of citizen involvement in smart cities and build a solid framework for successful e-participation in smart cities. The book is divided into three parts. Part I discusses smart technologies and their role in improving e-participation in smart cities. Part II deals with models of e-participation in smart cities and the organization issues affecting the implementation of e-participation; these chapters analyze the efficiency of governance models in relation to the establishment of smart cities. Part III proposes incentives to motivate increased participation by governments and citizenry within the smart cities context. Written by an international panel of experts and practitioners, this book will be a convenient source of information on e-participation in smart cities and will be valuable to academics, researchers, policy-makers, public managers, citizens, international organizations and anyone who has a stake in enhancing citizen engagement in smart cities.

Street Practice

Changing the Lens on Poverty and Public Assistance

Routledge Presenting recent studies of non-profit organizations involved in poverty relief services in New York City in comparison with programmes in existence across the US, Street Practice provides a front-line, ground-level perspective on innovative research practices designed to solve community problems. It explores the manner in which organizations bridge the gap between research and policy

advocacy, with an account of the ways in which research contributes to alleviating or solving a community problem, as well as details on successes and failures of advocacy work, problems and limitations of their research, funding constraints and political resistance. As such, this book not only offers compelling examples of social change in action, but also serves to introduce models for research and policy advocacy that can be applied similarly in other urban areas. Adopting a case-based learning approach that enables readers to better understand the dynamic process of research and policy advocacy, this innovative book will appeal to those with interests in poverty, homelessness, policy advocacy, social work and social change.

Self-studies in Rural Teacher Education

Springer The purpose of this book is to highlight the work of teacher educators in the field of rural education. In this book, education faculty who work in teacher education study the ways in which one's identity impacts one's teaching and the partnerships with rural schools. Although the field of research on teacher preparation has an abundance of studies on preparing students for the challenges of urban settings, there is much less emphasis on rural education, despite the prevalence of rural schools. This book problematises notions of rural or rurality which is often considered via a deficit or a generalised model where a stereotype of one kind of rural is outlined. Developing more multi-faceted understandings of rurality is a key to attracting and retaining teachers who understand the complexities and opportunities of living and working in rural spaces.

Stop and Frisk

The Use and Abuse of a Controversial Policing Tactic

NYU Press Winner, 2019 Outstanding Book Award, given by the American Society of Criminology's Division of Policing Section The first in-depth history and analysis of a much-abused policing policy No policing tactic has been more controversial than "stop and frisk," whereby police officers stop, question and frisk ordinary citizens, who they may view as potential suspects, on the streets. As Michael White and Hank Fradella show in *Stop and Frisk*, the first authoritative history and analysis of this tactic, there is a disconnect between our everyday understanding and the historical and legal foundations for this policing strategy. First ruled constitutional in 1968, stop and frisk would go on to become a central tactic of modern day policing, particularly by the New York City Police Department. By 2011 the NYPD recorded 685,000 'stop-question-and-frisk' interactions with citizens; yet, in 2013, a landmark decision ruled that the police had over- and mis-used this tactic. *Stop and Frisk* tells the story of how and why this happened, and offers ways that police departments can better serve their citizens. They also offer a convincing argument that stop and frisk did not contribute as greatly to the drop in New York's crime rates as many proponents, like former NYPD Police Commissioner Ray Kelly and Mayor Michael Bloomberg, have argued. While much of the book focuses on the NYPD's use of stop and frisk, examples are also shown from police departments around the country, including Philadelphia, Baltimore, Chicago, Newark and Detroit. White and Fradella argue that not only does stop and frisk have a legal place in 21st-century policing but also that it can be judiciously used to help deter crime in a way that respects the rights and needs of citizens. They also offer insight into the history of racial injustice that has all too often been a feature of American policing's history and propose concrete strategies that every police department can follow to improve the way they police. A hard-hitting yet nuanced analysis, *Stop and Frisk* shows how the tactic can be a just act of policing and, in turn, shows how to police in the best interest of citizens.

World Social Report 2020

Inequality in a Rapidly Changing World

United Nations This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

The Solid Facts

Social Determinants of Health

Interpreter: A Journal of Mormon Scripture, Volume 20 (2016)

The Interpreter Foundation This is volume 20 of *Interpreter: A Journal of Mormon Scripture* published by The Interpreter Foundation. It contains articles on a variety of topics including: "Reflecting on the 'Marks of Jesus'," "Dating Joseph Smith's First Nauvoo Sealings," "A Pilgrim's Faith," "Idle and Slothful Strange Stories': Book of Mormon Origins and the Historical Record," "The Scalp of Your Head: Polysemy in Alma 44:14-18," "Now That We Have the Words of Joseph Smith, How Shall We Begin to Understand Them? Illustrations of Selected Challenges within the 21 May 1843 Discourse on 2 Peter 1," "Reading 1 Peter Intertextually With Select Passages From the Old Testament," "Turning to the Lord With the Whole Heart: The Doctrine of Repentance in the Bible and the Book of Mormon," "Many Witnesses to a Marvelous Work," "Nephi's Change of Heart," "The Ammonites Were Not Pacifists," "'O Ye Fair Ones' — Revisited," and "Beauty Way More Than Skin Deep."

Handbook of Research on Perception-Driven Approaches to Urban Assessment and Design

IGI Global The creation of metropolitan areas is influenced by a wide array of factors, both practical and ecological. They can also be influenced by immaterial characteristics of a given area. The *Handbook of Research on Perception-Driven Approaches to Urban Assessment and Design* is a scholarly resource that assesses metropolitan development and its relation to the ecological and sustainability issues these areas face. Featuring coverage on a wide range of topics such as user-centered urban planning, perception of urban landscapes, and thermal comfort in urban contexts, this publication is geared toward professionals, practitioners, researchers, and students seeking relevant research on the effective planning of metropolitan areas and their relation to the ecological and sustainability issues that face such areas.

The Library Journal

Chiefly Devoted to Library Economy and Bibliography

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

Slow Cities

Conquering our Speed Addiction for Health and Sustainability

Elsevier *Slow Cities: Conquering Our Speed Addiction for Health and Sustainability* demonstrates, counterintuitively, that reducing the speed of travel within cities saves time for residents and creates more sustainable, liveable, prosperous and healthy environments. This book examines the ways individuals and societies became dependent on transport modes that required investment in speed. Using research from multiple disciplinary perspectives, the book demonstrates ways in which human, economic and environmental health are improved with a slowing of city transport. It identifies effective methods, strategies and policies for decreasing the speed of motorised traffic and encouraging a modal shift to walking, cycling and public transport. This book also offers a holistic assessment of the impact of speed on daily behaviours and life choices, and shows how a move to slow down will - perhaps surprisingly - increase accessibility to the city services and activities that support healthy, sustainable lives and cities. Includes cases from cities in North and South America, Europe, Asia, Africa and Australasia Uses evidence-based research to support arguments about the benefits of slowing city transport Adopts a broad view of health, including the health of individuals, neighbourhoods and communities as well as economic health and environmental health Includes text boxes, diagrams and photos illustrating the slowing of transport in cities throughout the world, and a list of references including both academic sources and valuable websites

Criminal Conduct and Substance Abuse Treatment for Adolescents: Pathways to Self-Discovery and Change

The Provider's Guide

SAGE This Provider's Guide introduces a comprehensive and developmentally appropriate treatment program, Pathways for Self-Discovery and Change (PSDC), which provides the specific tools necessary for improving evaluation and treatment of at-risk youth, a particularly vulnerable patient population in the justice system. Using an adolescent-focused format, this protocol identifies psychological, biological, and social factors that contribute to the onset of adolescent deviance, and establishes guidelines for delivery of a 32-session treatment curriculum designed to rehabilitate both male and female adolescents with co-occurring substance abuse and criminal conduct. Now in its Second Edition, this guide provides treatment practitioners, program evaluators, and youth services administrators with the most up to date, comprehensive, and accessible information for the treatment and rehabilitation of juvenile justice clients. It is built on theoretical and research advances in the treatment and rehabilitation of juvenile justice clients, as well as feedback over the past seven years from PSDC counselees, treatment providers, and program administrators.

Psychiatric and Mental Health Nursing in the UK

Elsevier Health Sciences Psychiatric and Mental Health Nursing in the UK is an adaptation of Australia and New Zealand's foremost mental health nursing text and is an essential resource for both mental health nursing students and qualified nurses. Thoroughly revised and updated to reflect current research and the UK guidelines as well as the changing attitudes about mental health, mental health services and mental health nursing in UK. Set within a recovery and patient framework, this text provides vital information for approaching the most familiar disorders mental health nurses and students will see in clinical practice, along with helpful suggestions about what the mental health nurse can say and do to interact effectively with patients and their families. Gives readers a thorough grounding in the theory of mental health nursing. Case studies throughout the text allow readers to understand the application of theory in every day practice. Includes critical thinking challenges and ethical dilemmas to encourage the reader to think about and explore complex issues. Exercises for class engagement complement learning and development in the classroom environment.

Urban Politics

Cities and Suburbs in a Global Age

M.E. Sharpe This popular text mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs. Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age. The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development. A new chapter on globalization and its impact on cities brings the history of urban development up to date, and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena. The book traces the changing style of community participation, including the emergence of CDCs, BIDs, and other new-style service organizations. It analyzes the impacts of the New Regionalism, the New Urbanism, and much more at an approachable level. The eighth edition is significantly shorter and more affordable than previous editions, and the entire text has been thoroughly rewritten to engage students. Boxed case studies of prominent recent and current urban development efforts provide material for class discussion, and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics. Source material provides Internet addresses for further research.

Hearing to Review Access to Healthy Foods for Beneficiaries of Federal Nutrition Programs and Explore Innovative Methods to Improve Availability

Hearing Before the Subcommittee on Department Operations, Oversight, Nutrition, and Forestry of the Committee on Agriculture, House of Representatives, One Hundred Eleventh Congress, Second Session, April 14, 2010

The Wiley-Blackwell Encyclopedia of Urban and Regional Studies

John Wiley & Sons Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor-in-Chief Anthony Orum, this definitive reference work covers central and emergent topics in the field, through an examination of urban and regional conditions and variation across the world. It also provides authoritative entries on the main conceptual tools used by anthropologists, sociologists, geographers, and political scientists in the study of cities and regions. Among such concepts are those of place and space; geographical regions; the nature of power and politics in cities; urban culture; and many others. The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe, including timely entries on Latin America, Africa, India and China. At the same time, it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today, such as those of Friedmann and Sassen on 'global cities'. It also includes discussions of recent economic writings on cities and regions such as those of Richard Florida. Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa, India and China, and, the US and Europe Includes biographies of central figures in urban and regional studies, such as Doreen Massey, Peter Hall, Neil Smith, and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies, urban sociology, urban geography, and urban anthropology.

American Self-Radicalizing Terrorists and the Allure of "Jihadi Cool/Chic"

Cambridge Scholars Publishing American Self-Radicalizing Terrorists and the Allure of Jihadi Cool/Chic provides a critical legal analysis of how American self-radicalizing terrorists become what they are by analyzing, in detail, the stories of Colleen LaRose, America's first Most Wanted Female Terrorist, and the Tsarnaev brothers, Tamerlan and Jahar (Dzhokhar), the Boston Marathon Bombers. Drawing from the analytic tools of cutting-edge studies on terrorism by global experts, as well as the latest news reports, policy papers, Congressional Hearings, and legal documents, the book illustrates how the internet provides the means through which a self-activating terrorist may first self-radicalize through some imaginary or sympathetic connection with an organized terrorist network. Additionally, it shows how the romance of "jihadi cool/chic," packaged by its mastery of Hollywood-style shots and editing, resulting in slick, high resolution productions micro-tailored to appeal to different audiences, is a pivotal factor in the evolution of self-radicalizing terrorists. While showing how there is no single deterministic pathway to radicalization, the book also demonstrates how the internet and imagined relations cemented by the rhetorics of "jihadi cool" or "jihadi chic" function as crucial catalysts, galvanizing "monster talk" into monstrous action. It includes an analysis of "America's Most Watched Trial," United States v. Tsarnaev, as it moved through its "guilt" and "penalty" phases, and its culmination in Jahar's being sentenced to death by lethal injection as America's youngest self-radicalizing terrorist. The book closes with concise updates regarding America's self-radicalizing terrorists, such as, among others, Syed Rizwan Farook and Tashfeen Malik, the couple who sprayed a crowd of their colleagues with bullets at a San Bernardino holiday party on December 2, 2015; Omar Mateen, the security guard whose rampage at an Orlando nightclub on June 12, 2016 resulted in America's worst mass shooting thus far; and Ahmad Khan Rahami, the individual arrested in relation to the New York and New Jersey bombings and attempted bombings on September 17-18, 2016.

Creative Economy Report 2013

Widening Local Development Pathways

UNESCO The special edition of the Report focuses on creative economy at the local level in developing countries. It is co-published by UNESCO and the United Nations Development Programme (UNDP) through the UN Office for South South Co-operation. The Report is organized in two volumes: a policy report and a web-documentary that brings to life cases and trends, and opportunities and challenges of creative economy on the ground. The Report confirms the creative economy as one of the most rapidly growing sectors of the world economy and a highly transformative one in terms of income generation, job creation and export earnings. But this is not all there is to it. For unlocking the potential of the creative economy also means promoting the overall creativity of societies, affirming the distinctive identity of the places where it flourishes and clusters, improving the quality of life there, enhancing local image and prestige and strengthening the resources for the imagining of diverse new futures. The evidence provided demonstrates how the cultural and creative industries are at the core of local creative economies in the global South and how they forge "new development pathways that encourage creativity and innovation in the pursuit of inclusive, equitable and sustainable growth and development" that the UN System Task Team on the Post-2015 UN Development Agenda exhorts the international community to take. The results of the Report will inform international debates on the post-2015 UN development agenda and the role of culture in sustainable development. It speaks to decision-makers, demonstrating some of the key factors that make creative economy initiatives successful on the ground.

The Futures of the City Region

Routledge Does the 'city region' constitute a new departure in urbanisation? If so, what are the key elements of that departure? The realities of the urban in the 21st century are increasingly complex and polychromatic. The rise of global networks enabled by supranational administrations, both governmental and corporate, strongly influences and structures the management of urban life. How we conceive the city region has intellectual and practical consequences. First, in helping us grasp rapidly changing realities; and second in facilitating the flow of resources, ideas and learning to enhance the quality of life of citizens. Two themes interweave through this collection, within this broad palette. First are the socio-spatial constructs and their relationship to the empirical evidence of change in the physical and functional aspects of urban form. Second is what they mean for the spatial scales of governance. This latter theme explores territorially based understandings of intervention and the changing set of political concerns in selected case studies. In efforts to address these issues and improve upon knowledge, this collection brings together international scholars building new data-driven, cross-disciplinary theories to create new images of the city region that may prove to supplement if not supplant old ones. The book illustrates the dialectical interplay of theory and fact, time and space, and spatial and institutional which expands on our intellectual grasp of the theoretical debates on 'city-regions' through 'practical knowing', citing examples from Europe, the United States, Australasia, and beyond. This book was originally published as a Special Issue of Regional Studies.

Human Rights and Personal Self-Defense in International Law

Oxford University Press Based on author's thesis (doctoral - European University Viadrina in Frankfurt (Oder), Germany, 2016) issued under title: The right to personal self-defence as a general principle of law and its general application in international human rights law.

The Oxford Handbook of Suicide and Self-injury

Oxford University Press, USA Suicide is a perplexing human behavior that remains among the leading causes of death worldwide, responsible for more deaths each year than all wars, genocide, and homicide combined. Although suicide and other forms of self-injury have baffled scholars and clinicians for thousands of years, the past few decades have brought significant leaps in our understanding of these behaviors. This volume provides a comprehensive summary of the most important and exciting advances in our understanding of suicide and self-injury and our ability to predict and prevent it. Comprised of a formidable who's who in the field, the handbook covers the full spectrum of topics in suicide and self-injury across the lifespan, including the classification of different self-injurious behaviors, epidemiology, assessment techniques, and intervention. Chapters probe relevant issues in our society surrounding suicide, including assisted suicide and euthanasia, suicide terrorism, overlap between suicidal behavior and interpersonal violence, ethical considerations for suicide researchers, and current knowledge on survivors of suicide. The most comprehensive handbook on suicide and self-injury to date, this volume is a must-read text for graduate students, fellows, academic and research psychologists, and other researchers working in the brain and behavioral sciences.

Occupational Therapy in Mental Health

A Vision for Participation

F.A. Davis This revision of a well-loved text continues to embrace the confluence of person, environment, and occupation in mental health as its organizing theoretical model, emphasizing the lived experience of mental illness and recovery. Rely on this groundbreaking text to guide you through an evidence-based approach to helping clients with mental health disorders on their recovery journey by participating in meaningful occupations. Understand the recovery process for all areas of their lives—physical, emotional, spiritual, and mental—and know how to manage co-occurring conditions.

Global Place Branding Campaigns across Cities, Regions, and Nations

IGI Global Place branding has made it possible for international destinations to be able to compete within the global economy. Through the promotion of different cities, natural beauty, and local culture or heritage, many regions have been able to increase their revenue and international appeal by attracting tourists and investments. Global Place Branding Campaigns across Cities, Regions, and Nations provides international insights into marketing strategies and techniques being employed to promote global tourism, competitiveness, and exploration. Featuring case studies and emergent research on place branding, as well as issues and challenges faced by destinations around the world, this book is ideally suited for professionals, researchers, policy makers, practitioners, and students.

The Oxford Handbook of the Psychology of Working

Oxford University Press Researchers and practitioners interested in the role of work in people's lives are faced with the need for new perspectives to support clients, communities, and organizations. This handbook is designed to fill this gap in the literature by focusing on the full spectrum of people who work and who want to work across the diverse contexts that frame working in the 21st century.

Homelessness in America

The History and Tragedy of an Intractable Social Problem

Rowman & Littlefield This book examines the history, governmental and private responses, and future prospects of this intractable challenge. Stephen Eide explains why homelessness persists in America and offers concrete recommendations for how we can do better for the homeless population.
