## NOTES FROM THE HYENA'S BELLY

---

### AN ETHIOPIAN BOYHOOD

---

*Picador* In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

### DRAW YOUR WEAPONS

---

*Text Publishing* 'How to live in the face of so much suffering? What difference can one person make in this beautiful, imperfect, and imperilled world?' In *Draw Your Weapons*, Sarah Sentilles offers an impassioned defence of life lived by peace and principle. Through a dazzling combination of memoir, history, reporting, visual culture, literature and theology, Sentilles tells the true stories of a conscientious objector during World War II and a former prison guard at Abu Ghraib. In the process she challenges conventional thinking about how violence is waged, witnessed and resisted. *Draw Your Weapons* stirs and confronts, disturbs and illuminates. A single book might not change the world, but this utterly original meditation on art and war might transform the way you see the world—and that makes all the difference. A former theologian, Sarah Sentilles completed her undergraduate degree at Yale and both a Masters and a Doctorate at Harvard. She was a college professor for over a decade before becoming a full time writer and is now a passionate advocate for life lived by peace and principle. Her previous books are *Taught by America: A Story of Struggle and Hope in Compton*, *A Church of her Own: What Happens When A Woman Takes the Pulpit* and *Breaking Up With God: A Love Story*. She lives in Idaho. 'A unique and necessary book that makes a passionate, thought-stoking argument.' John Jeremiah Sullivan 'Now more than ever, the world needs a book like *Draw Your Weapons*. With mastery, urgency and great courage, Sarah Sentilles investigates the histories of art, violence, war and human survival. In her haunting and absorbing narrative, the act of storytelling itself becomes a matter of life and death.' Ruth Ozeki 'Draw Your Weapons is as much about peace as it is about war; it is as much about life as it is about death...You will be riveted, educated, implicated, and changed by this book.' Emily Rapp 'An intriguing meditation on violence, imagery and language.' Ashleigh Wilson, *Australian, Books of the Year 2017* 'A beautiful, harrowing, and moving collage that portrays the making of art as a powerful response to making war. Every reader will feel profoundly changed by it.' Alice Elliott Dark 'Fearless, stirring, rhythmic, this book pulses with energy and is full of insights, dark yet ultimately hopeful.' Nick Flynn 'A beautiful, haunting

*book so original that it is a genre unto itself—a poem, a sermon, a polemic, a memoir, a narrative. I won't be able to think of our era of constant conflict without recalling Sentilles's lessons, her imagery, and her prophetic voice.' Franklin Foer 'Draw Your Weapons works as a highly original corrective to this impulse towards inaction...Sentilles' approach is a refreshing and instructive take on this era of perennial warfare.' Readings 'Sentilles delivers a learned, poetic, and interdisciplinary assessment of the ways in which the photographic image has been abused and weaponised, while also suggesting ways in which the arts can help serve as an antidote to this problem.' Publishers Weekly 'Sentilles, a would-be priest who dropped out of divinity school to pursue the study of art history searches for the role of art in an age of perennial warfare. She deftly and gently weaves together disparate topics—photography, Japanese internment, Abu Ghraib, sainthood, to name a few—so that I felt like an awakened genius at the close of each section.' Literary Hub 'In a culture where the arts are too often dismissed as frivolous, Sentilles's work offers a robust and necessary retort, an important reminder that "the world is made and can be unmade".' Australian 'Sentilles has examined these issues so closely, I am inescapably interested in her opinions. At the same time I also appreciate her answer to a student, who, reacting to one of the many photographs of war and violence that Sentilles shows her classes, asked, "But what are we supposed to do?" Sentilles responded: "I don't know."' Saturday Paper 'Though Sontag's words—"No one...Not even pacifists"—fundamentally shape the book, and it proves nothing if not how pervasive and intractable the culture of war is, Draw Your Weapons left me feeling rather like Virginia Woolf. It is an impossibly heavy book to read, as even the beautiful in it is tainted by its root cause, but it is heavy because it is challenging and brilliant and fierce. Readers will carry that weight and be better for it.' Rumpus 'Sarah Sentilles' Draw Your Weapons is one of the most erudite, original, and thought-provoking books I have ever read. A philosophical and moral meditation on pain, torture, and the violence of war—part memoir, part history, even a kind of secular prayer—this book asks us to look at terrible human darkness while also celebrating the ways in which love, connectedness, and the making of art nourish and redeem the human spirit.' Australian Book Review 'A masterpiece of understatement, allusion and wily composition.' Michael McGirr, Sydney Morning Herald 'A sincere and intelligent read.' BMA Magazine 'A formally elegant and intellectually rigorous argument for peace...Sentilles' book inspires us to be more than we are, to live beyond our historical moment. Not a call to arms so much as a call to the writers' pen.' Geordie Williamson, Best Books of 2017, Australian Book Review 'A complex and original reaction to violence, warfare, and conscientious objection: I'm still thinking about it, still dipping back into it.' Patrick Allington, Best Books of 2017, Australian Book Review 'Sentilles mounts her argument with an accumulation of detail, employing metaphor rather than polemic. Her examination of drone warfare is especially powerful.' Suzy Freeman-Greene, Best Books of 2017, Australian Book Review 'Poetic and furious.' Fiona Wright, Sydney Morning Herald's Year in Reading 'These are weighty subjects but the author's touch is so light that I was barely conscious of reading...Sentilles does not belabour her points but her silences are impactful.' Overland 'Had I not been asked to review Sarah Sentilles's Draw Your Weapons for these pages, I wouldn't have read it; I would have skimmed the blurb and scoffed at its idealism. "What difference can*

one person make in this beautiful, imperfect, and imperilled world?" Sentilles asks. This of all years, I am mightily thankful I was challenged to confront that question, and form my own answer. Her book is a vital antidote to political despondency and a testament to the transformative power of art.' Beejay Silcox, Australian, Books of the Year 2017 'Sentilles's book is a challenging read full of snippets thoughts and reflections. It cuts between time place and character. Part memoir part exploration it avoids neatly-cut explanations or definitive conclusions it shows, suggests and probes...In an age consumed with its own reflection this is a timely work and I highly recommend it.' Radio National, 2017's Best Summer Reads 'An intriguing meditation on violence, imagery and language.' Ashleigh Wilson, Australian, Books of the Year 2017 'Two very different photographs send the author on a quest to understand the relationship between compassion and violence. The result is the conversation that I wish we, as a nation, could have, not just to bridge the gap between veterans and civilians, or to find some common ground between conservatives and liberals, but to lay out a realistic plan for our continued survival.' LitHub 'An unflinching yet poetic interrogation of the roles that imagery, language and everyday behaviours play in abetting oppression, violence and injustice, Draw Your Weapons confirms that a life of peace and principle is a human possibility.' Peter Mares, Griffith Review 'Sentilles combines fragments of narrative, memoir and journalism to plot a peripatetic path through contemporary debates about war and suffering. She considers whether it is possible for art- and image-making to re-engage viewers who feel overwhelmed or apathetic, while restoring dignity to those affected by conflict. In a book with no images, Sentilles interrogates many photographic works that depict violence and suffering, to grapple with the question: do we look or look away?...Sentilles argues that the suffering doesn't go away just because we don't look. The really important question is not whether we look, but what we do with what we see.' Inside Story

**ADRIAN FRUTIGER - TYPEFACES**

---

---

**THE COMPLETE WORKS**

---

*Walter de Gruyter The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement even more accessible.*

**AIRPORT AND AVIATION SECURITY**

---

*Nova Science Pub Incorporated In the years preceding the terrorist attacks of September 11, 2001, the United States lacked a comprehensive national policy and strategy for aviation security. The United States approach to aviation security had largely been shaped by past events such as the bombing of Pan Am flight 103 in December, 1988. This book explores the national aviation security policy established by the President. The Department of Homeland Security (DHS) has developed a publicly-available national strategy for aviation security that addresses threats to aviation using a risk-based methodology to complement the overarching National Infrastructure Protection Plan (NIPP) and seeks to deter and prevent terrorist attacks against aviation, mitigate damage and expedite recovery and minimise the impact of an attack to the aviation system. The strategy seeks to achieve these objectives by engaging domestic and international partners and carrying out specific actions set forth in a series of supporting plans for operational security,*

## **GOOD STRATEGY/BAD STRATEGY**

---

---

### **THE DIFFERENCE AND WHY IT MATTERS**

---

*Profile Books When Richard Rumelt's Good Strategy/Bad Strategy was published in 2011, it immediately struck a chord, calling out as bad strategy the mish-mash of pop culture, motivational slogans and business buzz speak so often and misleadingly masquerading as the real thing. Since then, his original and pragmatic ideas have won fans around the world and continue to help readers to recognise and avoid the elements of bad strategy and adopt good, action-oriented strategies that honestly acknowledge the challenges being faced and offer straightforward approaches to overcoming them. Strategy should not be equated with ambition, leadership, vision or planning; rather, it is coherent action backed by an argument. For Rumelt, the heart of good strategy is insight into the hidden power in any situation, and into an appropriate response - whether launching a new product, fighting a war or putting a man on the moon. Drawing on examples of the good and the bad from across all sectors and all ages, he shows how this insight can be cultivated with a wide variety of tools that lead to better thinking and better strategy, strategy that cuts through the hype and gets results.*

### FRENCH CONVERSATIONS

---

---

*Once you start a conversation, how can you preserve it? The best way is to stay away from closed-loop questions. These are questions that other people can only answer with "yes" or "no". The problem with them is that they do not invite any additional discussion. You ask a question, they answer "yes" or "no", and that's it. Instead, ask open-ended questions. "What came next?", "What do you do for fun?", "Tell me about where you grew up." And with such questions, a conversation progresses well. Not all French conversation has to start with "bonjour". This is honestly the most consistent method, but it may not be ideal for each situation. We have found that some of my naturally flowing conversations begin in between. You ignore boring trivia and hit the ground, so there is no danger of uninteresting interaction in any way. Let us start looking at some French dialogue beginnings that you can use in the real world. Would you like to see how French is used in everyday situations? Did you know that the best way to learn this beautiful language is using it in a daily context? To that end, French Conversations brings you the most useful and easy-to-learn conversations that will help you achieve fluency in this language.*
