**X and Why The rules of attraction: why gender still matters** [Hachette UK](#) In the last century it was argued that men are from Mars and women are from Venus - but things have moved on a long way since then. In this timely new approach to the debate, Tom Whipple travels far and wide - from a Home Counties swingers' party to a gay penguin sanctuary in Germany - and draws on the latest studies in behavioural science as well as fascinating explorations into anthropology to present a surprising tale of expectations and mismatches. If you are currently single, this book is about your place in the dating market - your successes, your failures and what they mean. If you are in a relationship, it is about why you chose the person you are with, why they chose you - and the circumstances in which either of you might put it all at risk and stray. In X and Why, Tom Whipple delves into the sexual subconscious to explain the inner workings of character and desire. It will change the way you see yourself and everyone around you. **PISA The ABC of Gender Equality in Education Aptitude, Behaviour, Confidence** [OECD Publishing](#) This fascinating compilation of the recent data on gender differences in education presents a wealth of data, analysed from a multitude of angles in a clear and lively way. **A Guide to Gender-analysis Frameworks** [Oxfam](#) This is a single-volume guide to all the main analytical frameworks for gender-sensitive research and planning. It draws on the experience of trainers and practitioners, and includes step-by-step instructions for using the frameworks. Gender and

**Technology** [Oxfam](#) This collection of articles from Gender and Development considers technologies of many kinds, including those intended to save women's labour, to enable them to control their fertility and to learn and communicate using computer technology.

**Language and Woman's Place Text and Commentaries** [Oxford University Press](#) The 1975 publication of Robin Tolmarch Lakoff's *Language and Woman's Place*, is widely recognized as having inaugurated feminist research on the relationship between language and gender, touching off a remarkable response among language scholars, feminists, and general readers. For the past thirty years, scholars of language and gender have been debating and developing Lakoff's initial observations. Arguing that language is fundamental to gender inequality, Lakoff pointed to two areas in which inequalities can be found: Language used about women, such as the asymmetries between seemingly parallel terms like master and mistress, and language used by women, which places women in a double bind between being appropriately feminine and being fully human. Lakoff's central argument that "women's language" expresses powerlessness triggered a controversy that continues to this day. The revised and expanded edition presents the full text of the original first edition, along with an introduction and annotations by Lakoff in which she reflects on the text a quarter century later and expands on some of the most widely discussed issues it raises. The volume also brings together commentaries from twenty-six leading scholars of language, gender, and sexuality, within linguistics, anthropology, modern languages, education, information sciences, and other disciplines. The commentaries discuss the book's contribution to feminist research on language and explore its ongoing relevance for scholarship in the field. This new edition of *Language and Woman's Place* not only makes available once again the pioneering text of feminist linguistics; just as important, it places the text in the context of contemporary feminist and gender theory for a new generation of readers.

**Contemporary Issues in Business Ethics** [Cengage Learning](#) CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E introduces readers to business ethics by focusing on the influence of market mechanisms and social values on workplace norms. And because business is increasingly a global enterprise, this edition emphasizes the role of ethics both at home and abroad. CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E also takes time to look at ethics from the unique perspectives of either employee or employer. Along the way, readers also learn about such topics as ethical relativism, ethics and the law, virtue ethics, and ethical decision-making. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Closing the Gender Gap Act Now Act Now** [OECD Publishing](#) This OECD report focuses on how best to close gender gaps under four broad headings: 1) Gender equality, social norms and public policies; and gender equality in 2) education; 3) employment and 4) entrepreneurship.

**Beyond D&I Leading Diversity with Purpose and Inclusiveness** [Springer Nature](#) D&I is no longer a passing fad. It's not about legal compliance or HR

box-ticking, in fact diversity and inclusion is a critical factor for success. **#MeToo, #BlackLivesMatter** and the ballooning disparate consequences of Covid-19 on minorities brings renewed emphasis on D&I agendas, and the economic reality that diverse talent is good for business and good for sustainability. In *Beyond D&I*, Kay Formanek brings her more than twenty years' experience working with the world's leading organizations to take diversity and inclusion into the strategic roadmap of the organization. Whether you're a leader, HR practitioner, sponsor of a D&I initiative or an employee who wants to see your organization benefit from more inclusivity, the book equips you with the tools you need to develop the strategic case for diversity, craft a compelling narrative and chart a tailored roadmap to lock in diversity gains and close key performance gaps. As well as two core anchor models the Virtuous Circle and Integrated Diversity Model the book features case studies, profiles of inclusive leaders, engaging and intuitive visuals and a wealth of evidence-based initiatives that you can start implementing today. With five essential elements and six core capabilities, the result is a definitive, holistic and practical guide that will help you convert your D&I initiatives into sustainable diversity performance.

**Identity, Gender, and Status in Japan**  
**Collected Papers of Takie Lebra** Collected Papers of Twentieth As one of Japan's leading post-war anthropologists, the writings of Takie Lebra have had significant impact on Western understanding and appreciation of the structures and workings of Japanese society. In particular, her research into the notions of self and self-other relationships, issues of gender and women and motherhood has provided a new paradigm in the way these issues are now addressed. Similarly, her analysis of the status culture of royalty and the aristocracy in Japan, based on extensive field study, which culminated in her book *Above the Clouds: Status Culture of the Modern Japanese Nobility* (1993), has been widely regarded as the most important contribution of its kind to date. This volume brings together twenty-four of the author's key papers on the three principal areas of her research over the last thirty-five years, and includes a complete Bibliography of her published writings, subdivided into books, articles in journals or as book chapters, and book reviews. The collection is introduced by Takie Lebra herself, in which she first reviews selected essays appearing in the volume, along with a consideration of the contemporary controversy surrounding the imperial succession. In conclusion, by way of a personal mini memoir, she offers what she terms a sentimental reverie on my own self as a native outsider.

**How to Win Games and Beat People** Demolish Your Family and Friends at over 30 Classic Games with Advice from an International Array of Experts HarperCollins Destroy the competition on game night with this seriously funny guide packed with handy strategy, tricks, and tips from the experts Games are way more fun to play when you win—especially when you crush your friends and family! In *How to Win Games and Beat People*, Times science editor Tom Whipple explores inside tips, strategy, and advice from a ridiculously overqualified array of experts that will help you

dominate the competition when playing a wide range of classic games—from Hangman to Risk to Trivial Pursuit and more. A mathematician explains how to approach Connect 4; a racecar driver guides you through the corners in slot car racing; a mime shares trade secrets for performing the best Charades; a Scrabble champion reveals his secret strategies; and a game theorist teaches you to become a real estate magnate, recommending the Monopoly properties to acquire that will bankrupt and embarrass your opponents (sorry, Mom and Dad). Funny, smart, and endlessly useful, this is a must-read for anyone who takes games too seriously, and the bible for sore losers everywhere.

**Practising Gender Equality in Education** [Oxfam](#) Contributors discuss some key challenges in achieving gender equality in education, give examples of initiatives in a range of contexts, and make recommendations for action. They suggest that there is a more substantive goal to aim for than gender parity, for an equitable education system which allows all individuals to develop their potential.

**Gender, Development, and Climate Change** [Oxfam](#) This book considers the gendered dimensions of climate change. It shows how gender analysis has been widely overlooked in debates about climate change and its interactions with poverty and demonstrates its importance for those seeking to understand the impacts of global environmental change on human communities.

**Gender in the Fiction of George Sand** [Rodopi](#) In *Gender in the Fiction of George Sand*, Francoise Massardier-Kenney argues that the major nineteenth-century French writer George Sand articulates in her novels a complex and extremely modern conception of gender, questioning prevalent patriarchal modes of discourse and redefining masculinity and femininity. Through the analysis of a representative sample of Sand's works (*Indiana*, *Jacques*, *La dernière Aldini*, *Jeanne*, *Horace*, *Valvedre*, *Melle la Quintinie*, *Gabriel*, *Lucrezia Floriana*, and *Nanon*), Massardier-Kenney uncovers the themes and strategies used by Sand to challenge essentializing and negative representations of women. *Gender in the Fiction of George Sand* demonstrates the centrality of Sand's pioneering exploration of the construction of gender. This original study will be of interest to scholars of nineteenth-century French literature and culture, women's literature, and gender studies.

**Teaching About Social Justice Issues in Physical Education** [IAP](#) Addressing social justice issues in a physical education context is necessary both at the higher education and PK-12 settings. Limited undergraduate and graduate programs educate their students about social justice issues, thus, resulting in licensed teachers who lack the content knowledge, comfort level and pedagogical tools on how to educate students about issues related to social justice. Grounded in the transformative pedagogy theoretical framework, this book will offer practical lessons and strategies on a wide variety of social issues (e.g., body, race, self-identity, immigration) that can be used in teacher education and the PK-12 setting. The goal is for teacher educators and practitioners to feel more comfortable with teaching about and for social

justice and believe this resource will enhance their content and pedagogical knowledge in the quest to achieve that goal. The purpose of this book is to provide physical education teacher educators and PK-12 physical education teachers with lesson plans and resources on how to address social justice issues in a physical education setting. This book will include sample lesson plans/activities that address a wide variety of social issues - the what, the how and the challenges and possibilities that the author(s) encountered when teaching such a lesson/activity. Addressing social justice issues has been limited in physical education, both in higher education and PK-12, especially in the United States. Numerous scholars, internationally, have engaged in research studies that explored how social justice issues are addressed in physical education teacher education. Although we have research to support the limitations and complexities of teaching about sociocultural issues and for social justice, a more practical resource for teacher educators and inservice teachers is needed. The market for this book will be physical education teacher educators and PK-12 physical education teachers throughout the world.

**Kantian Humility Our Ignorance of Things in Themselves** [Oxford University Press](#) **Rae Langton** offers a new interpretation and defense of Kant's doctrine of things in themselves. Kant distinguishes things in themselves from phenomena, and in so doing he makes a metaphysical distinction between intrinsic and relational properties of substances. Langton argues that his claim that we have no knowledge of things in themselves is not idealism, but epistemic humility: we have no knowledge of the intrinsic properties of substances. This interpretation vindicates Kant's scientific realism, and shows his primary/secondary quality distinction to be superior even to modern-day competitors. And it answers the famous charge that Kant's tale of things in themselves is one that makes itself untellable.

**Sex and Gender A Reference Handbook** [Contemporary World Issues \(Har](#) **Voice and Agency Empowering Women and Girls for Shared Prosperity** [World Bank Publications](#) **Despite** recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and

interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress. **Managerial Issues and Strategies for Rural Urban Migration of Agricultural Labourers** [Archers & Elevators Publishing House](#)

**Gender Responsive Standards** Gender Responsive Standards publication (ECE/TRADE/445) makes the case for mainstreaming gender in the development and implementation of standards. The first chapter places the discussion in the larger perspective of how standards contribute to the achievement of the Sustainable Development Goals of Agenda 2030. It reviews the role of standards as a way of furthering equal participation by both genders in economic decision making; as instruments for women's health, safety and well-being; and finally, as tools for sustainability reporting. The chapter also presents the UNECE "Gender Responsive Standards Initiative" as an important example of partnership among standards bodies, governments, the civil society, academia and other key stakeholders for gender equality. The second chapter reviews a subset of standards, namely, Voluntary Sustainability Standards (VSS), as a common instrument used mostly by businesses to establish, incentivise and enforce commitments to sustainable development. The last chapter introduces recommendations for action directed to standards bodies, governments and donors and international organizations. It calls for all actors to thoroughly analyse the root causes of gender inequality and the impact it may have on standards development and implementation.

**IT Workers Human Capital Issues in a Knowledge Based Environment** [IAP](#) The goal of this book is to serve as a gathering of knowledge and ideas at the intersection of the human resource management (HRM) and management information systems (MIS)/information technology (IT) fields. In striving toward achieving this goal we have relied on authors who responded to our call for work within this intersection. As described more fully below, the chapters clustered into four topic areas: (1) effective management of IT workers, (2) IT workers and their careers, (3) diversity in IT, and (4) organizational issues. Thus, this book focuses on selected areas within the intersection of these fields rather than covering the entire intersection. Of course, the broad goal of this book could not be completely fulfilled - and even if it were, such knowledge would be continually overtaken by the ongoing evolution of people, technology, and their interactions. However, in the process of undertaking this project, we have had the opportunity to make some observations about the current state of knowledge regarding IT workers, the human capital that makes it possible for organizations in a knowledge-based economy to plan, create, integrate, operate, and maintain their various IT-based systems.

**Women's Health: Understanding Issues and Influences** [2 volumes] [ABC-CLIO](#) Women are more likely than men to experience mood disorders, certain types of cancer, Alzheimer's disease, stroke, arthritis, lupus, and celiac disease. In addition, women face significantly more barriers to health care than men due to a variety of

social, economic, political, and environmental factors, including inequality, poverty, legislation, and pollution. Despite this, the field of women's and girls' health remains both understudied and underfunded. **Women's Health: Understanding Issues and Influences** explores important topics in the field of women's health in the early 21st century, offering readers a comprehensive and informative yet accessible introduction to women's health in the United States. While some topics are unique to women's health, others illustrate how women's health and women's experiences within the U.S. health care system are different from men's, as well as how certain health issues impact women differently than men. Entries have been crafted by a diverse team of contributors with wide-ranging expertise, and each entry features a collection of further readings and cross references to other relevant entries. **The Gender of Oppression Men, Masculinity, and the Critique of Marxism Gender Matters in the Baltics Deceptive Distinctions Sex, Gender, and the Social Order** Argues that previous sociological work has been biased against women, discusses gender roles and social structure, and looks at public perceptions of women. **Designing Ubiquitous Information Environments: Socio-Technical Issues and Challenges** IFIP TC8 WG 8.2 International Working Conference, August 1-3, 2005, Cleveland, Ohio, U.S.A. [Springer](#) This book records one of the continuous attempts of the IFIP Working Group 8. 2, studying the interaction of information systems and the organization, to explore and understand the shifting boundaries and dependencies between organizational activities and their computer support. The book marks the result of the IFIP WG 8. 2 conference on "Designing Ubiquitous Information Environments: Socio-Technical Issues and Challenges. " Since its inception in the late 1970s, IFIP WG 8. 2 has sought to understand how computer-based information systems interact and must be designed as an integrated part of the organizational design. At that time, information systems handled repetitive and remote back-office functions and the main concern was work task design for repetitive input tasks and the potential impact of improved information support on organizational decision-making and structure. The focus of the information system design shifted in the 1980s when computers became part of the furniture and moved into the office. Reflecting this significant change, IFIP WG 8. 2 in 1989 organized a conference dedicated to the design and impact of desktop technology in order to examine how organizational processes and the locus of action changed when the computer was moved into the office. Sixteen years later, we are experiencing another significant change. Computers are now becoming part of our body and sensory system and will move out of the traditional office locations and into the wilderness. Again, IFIP WG 8. **Sexual Orientation at Work Contemporary Issues and Perspectives** [Routledge](#) **Sexual Orientation at Work: Contemporary Issues and Perspectives** brings together contemporary international research on sexual orientation and draws out its implications for lesbian, gay, bisexual, trans and heterosexual employees and managers. It provides new

empirical and theoretical insights into sexual orientation employment discrimination and equality work in countries such as South Africa, Turkey, Australia, Austria, Canada, US and the UK. This book is novel in its focus on how sexual orientation intersects with other aspects of difference such as age, class, ethnicity and disability. It adopts new theoretical perspectives (e.g. queer theory) to analyze the rise of new 'gay-friendly' organizations, and examines important methodological issues in collecting socio-economic data about sexual minorities. Providing an accessible account of key issues and perspectives on sexual orientation in the workplace, *Sexual Orientation at Work* caters to a wide range of readers across business, feminist, and LGBT/Queer Studies fields. *Current Perspectives on Asian Women in Leadership A Cross-Cultural Analysis* [Springer](#) This book explores the unique socioeconomic challenges encountered by female leaders in China, India, Japan, Korea, and other Asian countries where traditional cultural expectations and modernized values coexist. It provides insight into gender inequality and underutilization of female talent as well as ways to develop highly qualified women in organizations. Chapters from expert contributors analyze the similarities and differences between each Asian country, the organizational and institutional challenges for women in the workplace, and how they balance work-family relationships. It will appeal to researchers and students in human resource development, management, leadership, Asia studies, women's studies, and political science, among others. *Policy Issues Affecting Lesbian, Gay, Bisexual, and Transgender Families* [University of Michigan Press](#) A comprehensive account of the discrimination that lesbian, gay, bisexual, and transgender families confront and a look at how policy changes could make them more secure. *Missionary Women Gender, Professionalism, and the Victorian Idea of Christian Mission* [Boydell Press](#) This is the first comprehensive study of the role of gender in British Protestant missionary expansion into China and India during the late nineteenth and early twentieth centuries. Focusing on the experiences of wives and daughters, female missionaries, educators and medical staff associated with the London Missionary Society, the China Inland Mission and the various Scottish Presbyterian Mission Societies, it compares and contrasts gender relations within different British Protestant missions in cross-cultural settings. Drawing on extensive published and archival materials, this study examines how gender, race, class, nationality and theology shaped the polity of Protestant missions and Christian interaction with native peoples. Rather than providing a romantic portrayal of fulfilled professional freedom, this work argues that women's labor in Christian missions, as in the secular British Empire and domestic society, remained under-valued both in terms of remuneration and administrative advancement, until well into the twentieth century. Rich in details and full of insights, this work not only presents the first comparative treatment of gender relations in British Christian missionary movements, but also contributes to an understanding of the importance of gender more broadly in the high imperial age. **History at the University of Northern British Columbia, Canada. Parenting Matters Supporting Parents of Children Ages 0-8** [National Academies Press](#)

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. **Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.**

**Integrating gender into forestry research A guide for CIFOR scientists and programme administrators** [CIFOR](#) How do we integrate gender analysis into forestry research? Where do we start? What challenges are we going to face? What skills are required to conduct gender analysis? What methods are appropriate? What do we do with the data we collect? The answers to these questions often feel elusive. However many of them are within our reach. If you are a CIFOR scientist, partner or other researchers curious about what it means to conduct gender-responsive forestry research this guide is for you. This guide for was developed to help CIFOR scientists, partners, and program administrators more easily develop their own skills in gender analysis or find the needed resources elsewhere to advance efforts to integrate gender issue into forestry research. The guide provides researchers,

ranging from those with no knowledge of gender concepts to those with some familiarity with the topic, with an introduction to the concept of gender and the gender dimensions of key forestry issues. Short thematic briefs outline the key dimensions of various topics including climate change, REDD+, and value chains. Gender related research questions and methods for conducting gender analysis are also described. The guide also provides tips and advice for building the right research team and gender-sensitive field strategies. [Current Issues in Economics and Finance Springer](#)

This book discusses wide topics related to current issues in economic growth and development, international trade, macroeconomic and financial stability, inflation, monetary policy, banking, productivity, agriculture and food security. It is a collection of seventeen research papers selected based on their quality in terms of contemporary topic, newness in the methodology, and themes. All selected papers have followed an empirical approach to address research issues, and are segregated in five parts. Part one covers papers related to fiscal and price stability, monetary policy and economic growth. The second part contains works related to financial integration, capital market volatility and macroeconomic stability. Third part deals with issues related to international trade and economic growth. Part four covers topics related to productivity and firm performance. The final part discusses issues related to agriculture and food security. The book would be of interest to researchers, academicians as a ready reference on current issues in economics and finance. [OECD Science, Technology and Industry Scoreboard 2017 The digital transformation OECD](#)

With some 200 indicators, the 2017 edition of the OECD Science, Technology and Industry (STI) Scoreboard shows how the digital transformation affects science, innovation, the economy, and the way people work and live. It aims to help governments design more effective science, innovation and industry policies in the fast-changing digital era. The charts and underlying data in this publication are available for download and over half the indicators contain additional data expanding the time and/or country coverage of the print edition. **Legal, and Social Issues The Changing Practice Professional Challenges, Collaboration, & Conflict Violence Prevention and Care: Nursing's Role Definitions of Nursing Changing Education Georgia Country Gender Assessment** [Asian Development Bank](#) This publication provides a gender analysis of socioeconomic areas and issues in Georgia and relevant operations of the Asian Development Bank. Georgia has advanced its gender equality agenda but progress is still needed to achieve some key gender equality outcomes. Georgia continues to fare poorly on key global indicators of economic status and political voice. Violence against women also remains a pervasive issue in the country, affecting one in seven women. Some gender-responsive practices were identified, but significant gaps and missed opportunities for women's empowerment and inclusion were also identified. Recommendations include the need for capacity-building on gender mainstreaming, increased human and financial resources, and an improved evidence base.

**A History of the World in Seven Cheap Things A Guide to Capitalism, Nature, and the Future of the Planet** [Verso Books](#) Nature, money, work, care, food, energy, and lives: these are the seven things that have made our world and will shape its future. In making these things cheap, modern commerce has transformed, governed, and devastated Earth. In *A History of the World in Seven Cheap Things*, Raj Patel and Jason W. Moore present a new approach to analyzing today's planetary emergencies. Bringing the latest ecological research together with histories of colonialism, indigenous struggles, slave revolts, and other rebellions and uprisings, Patel and Moore demonstrate that throughout history, crises have always prompted fresh strategies to make the world cheap and safe for capitalism. At a time of crisis in all seven cheap things, innovative and systemic thinking is urgently required. This book proposes a radical new way of understanding—and reclaiming—the planet in the turbulent twenty-first century.

**The Psychology of Physical Attraction** This book begins the task of providing a scientific look at physical attraction by presenting an overview of scholarly work on physical beauty, culture, evolution, and other aspects of human attractiveness. It begins by discussing the role of evolution in the development of what it means to be "attractive" in contemporary society. It provides a general overview of evolutionary psychology and mate choice, as well as an in-depth focus on physical characteristics such as physical symmetry, body weight, and ratios, and youthfulness. It goes on to explore the role of societal and cultural ideals of beauty through a discussion of the social psychology of human beauty. Finally, the "morality" of physical attractiveness is examined, looking at issues such as discrimination on the basis of looks, body image and eating disorders, and cosmetic surgery.

**The Health of Lesbian, Gay, Bisexual, and Transgender People Building a Foundation for Better Understanding** [National Academies Press](#) At a time when lesbian, gay, bisexual, and transgender individuals--often referred to under the umbrella acronym LGBT--are becoming more visible in society and more socially acknowledged, clinicians and researchers are faced with incomplete

information about their health status. While LGBT populations often are combined as a single entity for research and advocacy purposes, each is a distinct population group with its own specific health needs. Furthermore, the experiences of LGBT individuals are not uniform and are shaped by factors of race, ethnicity, socioeconomic status, geographical location, and age, any of which can have an effect on health-related concerns and needs. The Health of Lesbian, Gay, Bisexual, and Transgender People assesses the state of science on the health status of LGBT populations, identifies research gaps and opportunities, and outlines a research agenda for the National Institute of Health. The report examines the health status of these populations in three life stages: childhood and adolescence, early/middle adulthood, and later adulthood. At each life stage, the committee studied mental health, physical health, risks and protective factors, health services, and contextual influences. To advance understanding of the health needs of all LGBT individuals, the report finds that researchers need more data about the demographics of these populations, improved methods for collecting and analyzing data, and an increased participation of sexual and gender minorities in research. The Health of Lesbian, Gay, Bisexual, and Transgender People is a valuable resource for policymakers, federal agencies including the National Institute of Health (NIH), LGBT advocacy groups, clinicians, and service providers. The Social Psychology of Group Cohesiveness From Attraction to Social Identity A tour de force. As a comprehensive review, it stands out as a unique resource not matched by any recent treatment of the group literature.--Marilyn Brewer, Professor of Psychology, University of California, Los Angeles. This advanced-level textbook analyzes how social psychology conceptualizes group cohesiveness and solidarity. Since 1950, the dominant perspective on this topic has been exposed through the concept of group cohesiveness: a concept tied to interpersonal processes among small interactive aggregates of people. Although repeatedly challenged, this perspective still thrives. In the first part of the book, Michael Hogg describes in detail the origins and nature of this concept, showing precisely how it has been modified, simplified, and ultimately reduced to personal attraction. A critique of reductionism in social psychology frames his central argument that problems with the group cohesiveness concept are due to its reduction of group processes to interpersonal processes. This critique sets the scene for the second part of the book, which presents an alternative, positive conceptualization of group cohesiveness and solidarity. This new perspective centers on social and self-categorization theories and presents current research in detail. Hogg uses new conceptual and methodological developments in social psychology to present an account of group cohesiveness more sophisticated and more complete than those based on a traditional understanding. The book ends with an examination of implications for our understanding of phenomena such as groupthink, social loafing, and group performance.
