Territorial Policy and Governance

Alternative Paths

Taylor & Francis In response to both policy and conceptual debates, alternative narratives have begun to emerge about territorial governance and policymaking. As local and regional policy actors strive to respond to the geographically uneven effects of the economic crises of the early twenty-first century, a crucial question emerges: what are the opportunities and challenges presented by alternative forms of territorially based governance and policy? The aim of this edited volume, therefore, is critically to explore the opportunities and challenges presented by different forms of territorial policy and governance. Drawing on conceptual debates and empirical research from the United Kingdom and other international contexts, the contributors engage with issues around the politics and governance of territorial development, economic development, planning and regeneration and the environment. **Territorial Policy and Governance** addresses the question of how alternative forms of territorial governance and policy can help to shape patterns of urban and regional development, highlighting the related opportunities, constraints and challenges that confront their operationalisation. This book will be essential reading for international audiences with an interest in territorial development, governance, politics, human geography and planning and regeneration.

Science Education in Canada

Consistencies, Commonalities, and Distinctions

Springer This book offers a meso-level description of demographics, science education, and science teacher education. Representing all 13 Canadian jurisdictions, the book provides local insights that serve as the basis for exploring the Canadian system as a whole and function as a common starting point from which to identify causal relationships that may be associated with Canada's successes. The book highlights commonalities, consistencies, and distinctions across the provinces and territories in a thematic analysis of the 13 jurisdiction-specific chapters. Although the analysis indicates a network of policy and practice issues warranting further consideration, the diverse nature of Canadian science education makes simple identification of causal relationships elusive. Canada has a reputation for strong science achievement. However, there is currently limited literature on science education in Canada at the general level or in specific areas such as Canadian science curriculum or science teacher education. This book fills that gap by presenting a thorough description of science education at the provincial/territorial level, as well as a more holistic description of pressing issues for Canadian science education.

Culture, Music Education, and the Chinese Dream in Mainland China

Springer This book focuses on the rapidly changing sociology of music as manifested in Chinese society and Chinese education. It examines how social changes and cultural politics affect how music is currently being used in connection with the Chinese dream. While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics, transformed authority relations, and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society, and how these factors have influenced the renewal of values-based education and practices in school music education in China.

Higher Education in the Era of the Fourth Industrial Revolution

Springer This open access collection examines how higher education responds to the demands of the automation economy and the fourth industrial revolution. Considering significant trends in how people are learning, coupled with the ways in which different higher education institutions and education stakeholders are implementing adaptations, it looks at new programs and technological advances that are changing how and why we teach and learn. The book addresses trends in liberal arts integration of STEM innovations, the changing role of libraries in the digital age, global trends in youth mobility, and the development of lifelong learning programs. This is coupled with case study assessments of the various ways China, Singapore, South Africa and Costa Rica are preparing their populations for significant shifts in labour market demands - shifts that are already underway. Offering examples of new frameworks in which collaboration between government, industry, and higher education institutions can prevent lagging behind in this fast changing environment, this book is a key read for anyone wanting to understand how the world should respond to the radical technological shifts underway on the frontline of higher education.

International Crisis Management: NATO, EU, OSCE and Civil Society

Collected Essays on Best Practices and Lessons Learned

IOS Press Since the end of the Cold War, numerous conflicts have emerged within the Euro-Atlantic and Eurasian space which have affected international relations and highlighted the need for effective strategies for conflict resolution and management. This book presents papers delivered at the NATO Advanced Research Workshop (ARW), Best Practices and Lessons Learned in Conflict Management, held in Bratislava, Slovak Republic, in June 2015. The authors of these texts are recognized authorities within their fields of expertise. Issues raised by the conflict in Ukraine were the main focus of the workshop, as they are of this book, but it also contains valuable information about situations in other countries such as the Republic of Moldova, Afghanistan, Bosnia and Herzegovina, and Belarus. The book presents an analysis of the theoretical background of conflict management and its relevance for multilateral security institutions. It explores various approaches to conflict management, discusses possible future developments, examines new aspects of conflict resolution and outlines the role of international organizations and civil society in these processes. Providing an overview of current thought in the field, this book will be of interest to all those involved in or connected with the processes of conflict management and resolution.

Corporate Communication through Social Media

SAGE Publishing India

Sociology in Our Times: The Essentials

Cengage Learning Current and relevant to today's students, **SOCIOLOGY IN OUR TIMES: THE ESSENTIALS**, 11th Edition presents the latest available data and new insights on behaviors, beliefs, issues, and trends in our nation and world from a sociological perspective. The new edition of this bestselling text emphasizes the themes of social change, the

effects of social media on communication, and the intertwining nature of politics and social policy in the United States and worldwide. Students contemplate such issues as gun control, prevention of military suicides, environmental activism, and whether employers should be allowed to spy on their employees. New You Can Make a Difference boxes help students learn how to become involved in their communities and the world through such projects as campus kitchens and global networking to fight hunger. First-person accounts of individuals' lived experiences draw students into each chapter by illuminating topics that reflect the text's primary themes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Smart Economy in Smart African Cities

Sustainable, Inclusive, Resilient and Prosperous

Springer This book highlights the use of information and communication technology (ICT) infrastructures in order to develop smart cities and produce smart economies in Africa. It discusses a robust set of concepts, including smart planning, smart infrastructure development, smart economic development, smart environmental sustainability, smart social development, resilience, and smart peace and security in several African cities. By drawing on the accumulated knowledge on various conditions that make cities smart, green, livable and healthy, it helps in the planning, design and management of African urbanization. In turn, it fosters the development of e-commerce, e-education, e-governance, etc. The rapid development of ICT infrastructures facilitates the creation of smart economies in digitally served cities and towns through smart urban planning, smart infrastructures, smart land tenure and smart urban policies. In the long term, this can reduce emissions of CO₂, promote the creation of low carbon cities, reduce land degradation and promote biodiversity.

Media Law, Ethics, and Policy in the Digital Age

IGI Global The growing presence of digital technologies has caused significant changes in the protection of digital rights. With the ubiquity of these modern technologies, there is an increasing need for advanced media and rights protection. Media Law, Ethics, and Policy in the Digital Age is a key resource on the challenges, opportunities, issues, controversies, and contradictions of digital technologies in relation to media law and ethics and examines occurrences in different socio-political and economic realities. Highlighting multidisciplinary studies on cybercrime, invasion of privacy, and muckraking, this publication is an ideal reference source for policymakers, academicians, researchers, advanced-level students, government officials, and active media practitioners.

Research Handbook on Global Climate Constitutionalism

Edward Elgar Publishing Climate change is causing traditional political and legal concepts to be revisited. The emergence of a global polity through physical, economic and social interaction demands global responses which should be founded upon new principles and which cannot simply be modelled on traditional constitutionalism centred on the nation-state. This Research Handbook explores how to build this climate constitutionalism at a global level, starting from the narrative of Anthropocene and its implications for law. It provides a critical approach to global environmental constitutionalism, analysing the problems of sustainability and global equity which are entwined with the causes and consequences of climate change. The Handbook explores how to develop constitutional discourses and strategies to address these issues, and thereby tackle the negative effects of climate change whilst also advancing a more sustainable, equitable and responsible global society.

Occupational Therapy in Community and Population Health Practice

F.A. Davis Be prepared for the growing opportunities in community and population health practice with the 3rd Edition of this groundbreaking resource. The New Edition reflects the convergence of community and population health practice with expanded content on health promotion, well-being, and wellness. Drs. Scaffa and Reitz present the theories underpinning occupational therapy practice in community and population health. Then, the authors provide practical guidance in program needs assessment, program development, and program evaluation. Both new practitioners and students will find practice-applicable coverage, including expanded case examples, specific strategies for working in the

community, and guidance on securing funding for community and population health programs.

Because We Are Human

Contesting US Support for Gender and Sexuality Human Rights Abroad

State University of New York Press Offers a complete empirical account of US government programs, policies, and interventions outside the United States on behalf of the human rights of LGBTQ people. Finalist in the LGBT category, 2018 Foreword INDIES Book of the Year Awards Around the world, lesbian, gay, bisexual, transgender, and queer people continue to be threatened, attacked, arrested, tortured, and sometimes executed just for being sexual or gender minorities. Since the final months of the Clinton administration, agencies and officials of the US government have been engaging in programs and projects whose stated purposes are to serve goals of justice and equity for LGBTQ people outside the United States. Because We Are Human gives readers an inside look at US sexual orientation and gender identity (SOGI) human rights assistance programs. Cynthia Burack explores settings where indigenous and transnational human rights advocates meet to fund and strategize SOGI human rights movements. This book also examines key arguments against these programs, policies, and interventions that originate on both the conservative right and the progressive academic left. Burack ultimately recommends support for a US commitment to SOGI human rights and programs that serve the needs of LGBTQ people. Cynthia Burack is Professor of Women's, Gender and Sexuality Studies at the Ohio State University. She is the author of *Sin, Sex, and Democracy: Antigay Rhetoric and the Christian Right* and *Tough Love: Sexuality, Compassion, and the Christian Right*, both also published by SUNY Press.

Global Citizenship Education

Everyday Transcendence

Routledge Global Citizenship Education addresses the intersection of globalization, education and programmatic efforts to prepare young people to live in a more interdependent, complex and fragile world. The book explores topics such as sustainability education, cultural diversity, and human rights education, offering critical insights into how these facets of GCE are interpreted around the world. The book also strives to give voice to student populations within historically marginalized communities, rather than focusing solely on the role of GCE in elite schools. Gaudelli blends theory and practice to provide both an overview of GCE as well as examining current efforts to develop more globally-conscious classrooms. Blending empirical research and practical illustrations, this important volume encourages educators to take seriously their own call to prepare young people to engage global challenges with a sense of urgency and helps chart a new direction for global learning that is increasingly expansive, dialogic and inclusive.

Oxford Textbook of Inpatient Psychiatry

Oxford Textbooks in Psychiatry The Oxford Textbook of Inpatient Psychiatry offers a comprehensive and pragmatic guide to the UK's inpatient mental health care system.

The Practical Guide to Corporate Social Responsibility

Do the Right Thing

Routledge Corporate social responsibility has gained substantial traction in recent decades but many still struggle with conveying the importance of integrating ethics and environmental and social values within the demands of a business world understandably concerned with making profit. First published in 2009 as 'Do the Right Thing', The Practical Guide to Corporate Social Responsibility guides you through the basics, teaching how to recognise CSR benefits and put principles into practice in a business-focussed way. This new edition helps readers get to grips with improving their organisation's environmental management, sustainability, health and safety and trading ethics with straightforward guidance and tips. A new 'Do The Right Thing' Model assists organisations with identifying risks and frames corporate social responsibility in a business context accessible to all. Features include: An updated Do the Right Thing Model aligned to the new ISO high level structure for management system standards 20 global case studies to demonstrate how the model can impact performance A corporate social responsibility policy template for your organisation's use Helpful 'Test your thinking' exercises to check your understanding and stretch your working knowledge 100 practical actions for you to start implementing today This is an essential introduction to the complex areas of corporate social responsibility that affect health and safety practitioners, environmental managers, human resources personnel and those working with quality and business assurance. It will also be critical reading for those looking to understand how CSR fits into the new high level structure of ISO 9001, ISO 14001 and ISO 45001.

Social Engineering in Central and South-East Europe in the Twentieth Century Reconsidered

Instytut Studiów Politycznych Polskiej Akademii Nauk The book is the result of the National Science Centre's project entitled 'Social engineering. Projects of nation-state building and their representation in historiography and historical memory: Croatia, Germany, Poland and Ukraine in the twentieth century'. The project was conducted at the Institute of Political Studies of the Polish Academy of Sciences (PAN). The aim of the participants in the project, developed jointly by the Department of German Studies and the Department of History of Eastern Territories, was to provide a broad perspective on nation-building processes in Central Europe in the nineteenth and twentieth centuries and to determine the place of projects on population policy (social engineering) in these processes. The authors also analyse the role of the memory of these projects in developing nation states in this region of Europe in the second half of the twentieth century and contemporary times. The subjects analysed cover a broad spectrum of issues related to the emergence of modern states, demography, eugenics, racial hygiene, statistics, geography and specific policies - from supporting the birth of preferred groups to genocide. The book concerns both the development of modern societies and the problems of nationalism, racial ideology and the idea of 'the body of the nation'.

EBOOK: Principles and Practice of Marketing

McGraw Hill EBOOK: Principles and Practice of Marketing

The Industrial Revolution-Lost in Antiquity-Found in the Renaissance

Lulu.com "The Industrial Revolution-Lost in Antiquity-Found in the Renaissance" is a revisionist, well-researched work being a definitive account of the historical roots of the Industrial Revolution that began with Ctesibius in 270 BC at the onset of the Hellenistic Period and continued on with the invention of the steam engine by James Watt in 1776 and Oliver Evans in the early 19th-century, encompassing almost 2000 years of history.

Generation Z

Born for the Storm

Simon and Schuster GENERATION Z is called and equipped to rise above the global storm we are experiencing and initiate the greatest awakening our world has ever seen. They are ready. They are willing. They are born for the storm. Generation Z is officially the largest generation in the world today. They are creative, driven, entrepreneurial, and technologically advanced. Generation Z comes of age in a unique time. This generation is surrounded by turbulence: a global pandemic, racial tensions, political upheaval, economic unrest, and social tensions not experienced by previous generations. They live in a tumultuous life-sea where the waves are high, the winds are strong, the intensity is unceasing, and the challenges feel insurmountable. This new generation, born between 1997 and 2012, has never witnessed a calm sea. Social harmony, economic stability, physical tranquility, and domestic peace have all been very distant during this period. While those from earlier generations are often disturbed by it all, Generation Z considers these storms a part of their existence. They are survivors, and they are being equipped by God for maximum kingdom impact during a time when the world needs them the most. **Generation Z: Born for the Storm** is written as a book of hope for this new generation. It examines the environment surrounding Gen Z and tries to understand who they are. It also looks at the unique qualities God is forming in Gen Z believers. The book inspirationally describes qualities already emerging and predicts qualities that will emerge as Gen Zers take their place of leadership in the world. Each chapter focuses on a person or persons from the Bible whose names begin with "Z" and who embody qualities God is forming in this new generation. This is not an exhaustive volume on Gen Z. It is simply a snapshot in time connected to the timeless truths of Scripture that will help us reflect upon, respond to, and empower the most important generation to ever live. Their potential is beyond description. Gen Z will take the negative circumstances they have been given and, by God's grace, turn them into positives. Generation Z is ready. God is equipping. The Holy Spirit is moving. The world is waiting. The winds are blowing, and the waves are roaring. Spiritual history is going to be made because Generation Z is born for the storm.

Faith and Fashion

How High Is a Holy Hemline?

Wipf and Stock Publishers We all wear clothes. But are you concerned that your fashion choices are mere vanity or wasteful or environmentally harmful? The question is how to look our best in a responsible and wise way that avoids guilt, vanity, and immodesty. Jules and Graham Cole bring their expertise to bear on this question in this unique collaboration: Jules as a fashion designer and Graham as a theologian. This book pays attention to differences in body type and the challenge of best fit and does so in an environmentally sustainable way. In this work, you will find hints on how to dress and how to coordinate a wardrobe that is economically responsible and minimizes landfill. The book seeks to honor the God of the Bible who values beauty. The discussion culminates in considering the ultimate wardrobe change. Fashions come and go, but to be clothed with Christ is never out of date.

Ethics Management for Public and Nonprofit Managers

Leading and Building Organizations of Integrity

Routledge This practical book is dedicated to building ethical organizations. It has been written for college students preparing for careers in public service as well as for elected and appointed officials, administrators, and career public servants in the United States and elsewhere. Concise and comprehensive, **Ethics Management for Public and Nonprofit Managers** takes a managerial ethics approach to building and leading ethical public organizations. It includes: a discussion of the U.S. constitutional and administrative environment in which officials carry out their duties; descriptions and assessments of the tools available to elected and appointed officials who are committed to building ethical organizations; an

overview of legislative and administrative measures taken by Congress, presidents, the judiciary, and the fifty states to foster ethical governance; unique coverage of ethics management around the world, with a focus on the US, Europe, and Asia; and hands-on skill-building exercises with active learning opportunities that conclude each chapter. This third edition includes a new chapter on 'achieving ethical competence,' exploring a wide range of ethical issues that confront public and nonprofit managers in their efforts to lead and build organizations of integrity. Examples and cases from both the public and the nonprofit sectors are incorporated throughout the third edition so that the book acts as a kind of 'field guide' for ethical behavior, with descriptions and assessments of the tools available to elected and appointed officials at every level. Accompanying the third edition text is a series of exercises that build ethical competence skills, asking the reader to judge the ethical competence of key actors in cases drawn from recent headlines.

Environmental Education

Studera Press The book deals with recent trends in Environmental Education and its relevance in different countries and stream of studies. The chapters have extensively elaborated the Indian and international legal provisions and policies for the preservation and protection of environment and ecosystem. The book has five broad sections and twenty three chapters contributed by the subject experts in the field to discuss: Primary introduction to the Environmental education and the case studies from the teacher education programmes, higher education and school education. Thorough scrutiny of environmental issues and concerns through the discussion of Conservation of Environment and Ecosystem; Global Environmental Problems and Pollution; extinction of flora and fauna, deforestation, soil erosion; impact of disasters acting upon the environment; and policies and initiatives in India and international fora. Recent trends in Environmental Education explaining Eco-psychology and Eco-feminism with social pollution; sustainability for pro-environmental behavior; life-style; environmental attitude. Sustainable development with its conceptual note, literature, guiding principles, initiatives by Indian and international organizations; draft regulations and effect on livelihoods. Pedagogy of teaching environmental education; teaching strategies, approaches and methods; programmes laid for different levels of education in India; and Curriculum and volume of units at different grades in school; professional development in and through environmental education. The book is intended for the students of Teacher Education Programmes, i.e., B.Ed and M.Ed, for all the Indian Universities across India and overseas. The articles are written in line with NCTE guidelines and National Curriculum Framework for Teacher Education (NCFTE) 2010.

Global Marketing Strategy

An Executive Digest

Springer This book has been written for experienced managers and students in postgraduate programs, such as MBA or specialized Masters programs. In a systematic yet concise manner, it addresses all major issues companies face when conducting business across national and cultural boundaries, including assessing and selecting the most promising overseas markets, evaluating market entry alternatives, examining the forces that drive adaptation versus standardization of the marketing mix. It looks at the various global marketing challenges from a strategic perspective and also addresses topics not usually found in international marketing texts, such as aligning marketing strategies with global organizational structures, managing the relationship between national subsidiaries, regional headquarters and global headquarters, as well as corporate social responsibility challenges, and pertinent future trends that are likely to affect global business.

The Book of Great Quotes

Claritas Books Throughout the centuries, the world has come to know some great leaders who have been revered as shapers and makers of civilisation. Many of them have been celebrated, whilst others have been forgotten, and some, for one reason or another, have been overlooked. The leaders profiled within this book occupy that last category. Although they did not build palaces or author extensive literary works, their legacies are considered to be unique in Islamic history. Inspired by the message of their teacher, Prophet Muhammad (s), to this day they continue to enrich and influence the lives of millions across the world. These great polymaths are known as the first four caliphs of Islam. They include Abu Bakr As-Siddiq, Umar bin Al-Khattab, Uthman bin Affan and Ali ibn Abi Talib (ra). Flamur Vehapi's work brings together some of the most inspirational quotes from that era. They are sure to motivate and capture the hearts of Muslims everywhere.

China Dream: Still Coming True?

Edizioni Epoké At a time when the economic transition in China is casting shadows on the weak world recovery, and the country is further increasing military spending at double-digit rates, it is key to assess how far President Xi has gone in fulfilling the “China Dream” of ascendance to cultural, economic and military power. Even more important is to try to figure out what the substance of the “China Dream” is likely to be in the near future. The current risk is that the Chinese people and the Chinese government are dreaming different dreams, and that Xi’s “China Dream” might be more a dream for the country and much less so for the people. China has recently reached a series of symbolic milestones: the Yuan’s inclusion in the IMF’s SDR basket; the new China-led Asian Infrastructure Investment Bank (AIIB); the market economy status by a number of countries. The 2016 Chinese G20 Presidency will provide a timely occasion for China to better define its role in global economic governance. However, progress on reforms is lagging behind expectations and international tensions are on the rise. This volume explores the viability of the China Dream and analyzes its major challenges.

Gold Mining and the Discourses of Corporate Social Responsibility in Ghana

Springer This book critically examines the practice and meanings of corporate social responsibility (CSR) and how the movement has facilitated a positive and somewhat unquestioned image of the global corporation. Drawing on extensive fieldwork material collected in Ghanaian communities located around the project sites of Newmont Mining Corporation and Kinross Gold Corporation, the monograph employs critical discourse analysis to accentuate how mining corporations use CSR as a discursive alibi to gain legitimacy and dominance over the social order, while determining their own spheres of responsibility and accountability. Hiding behind such notions as ‘social licence to operate’ and ‘best practice,’ corporations are enacted as entities that are morally conscious and socially responsible. Yet, this enactment is contested in host communities, as explored in chapters that examine corporate citizenship, gendered perspectives, and how global CSR norms institutionalize unaccountability.

Flock Together

A Love Affair with Extinct Birds

U of Nebraska Press After stumbling upon a book of photographs depicting extinct animals, B.J. Hollars became fascinated by the creatures that are no longer with us; specifically, extinct North American birds. How, he wondered, could we preserve so beautifully on film what we’ve failed to preserve in life? And so begins his yearlong journey to find out, one that leads him from bogs to art museums, from archives to Christmas Counts, until he at last comes as close to extinct birds as he ever will during a behind-the-scenes visit at the Chicago Field Museum. Heartbroken by the birds we’ve lost, Hollars takes refuge in those that remain. Armed with binoculars, a field guide, and knowledgeable friends, he begins his transition from budding birder to environmentally conscious citizen, a first step on a longer journey toward understanding the true tragedy of a bird’s song silenced forever. Told with charm and wit, *Flock Together* is a remarkable memoir that shows how knowing the natural world even just a small part illuminates what it means to be a global citizen and how only by embracing our ecological responsibilities do we ever become fully human. A moving elegy to birds we’ve lost, Hollars’s exploration of what we can learn from extinct species will resonate in the minds of readers long beyond the final page. "

Strategic Place Branding Methodologies and Theory for Tourist Attraction

IGI Global Drawing the attention of tourists to different destinations around the world assists in the overall economic health of the targeted region by increasing revenue and attracting investment opportunities, as well as increasing cultural awareness of the area’s population. *Strategic Branding Methodologies and Theory for Tourist Attraction* investigates international perspectives and promotional strategies in the topic area of place branding. Highlighting theoretical concepts and marketing techniques being utilized in the endorsement of various destinations, regions, and cities around the world, this publication is a pivotal reference source for researchers, practitioners, policy makers, students, and professionals.

Capitalism in the Anthropocene

Ecological Ruin Or Ecological Revolution

NYU Press Over the last 11,700 years, during which human civilization developed, the earth has existed within what geologists refer to as the Holocene Epoch. Now science is telling us that the Holocene Epoch in the geological time scale ended, replaced by the onset of a new, more dangerous Anthropocene Epoch, which began around 1950. The Anthropocene Epoch is characterized by an “anthropogenic rift” in the biological cycles of the Earth System, marking a changed reality in which human activities are now the main geological force impacting the earth as a whole, generating at the same time an existential crisis for the world’s population. What caused this massive shift in the history of the earth? In this comprehensive study, John Bellamy Foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest. The result is a planetary emergency that threatens all present and future generations, throwing into question the continuation of civilization and ultimately the very survival of humanity itself. Only by addressing the social aspects of the current planetary emergency, exploring the theoretical, historical, and practical dimensions of the capitalism’s alteration of the planetary environment, is it possible to develop the ecological and social resources for a new journey of hope.

The Achievement Gap

A Poverty Crisis, Not an Education Crisis

Rowman & Littlefield Dr. Wages has written a detailed, well documented book that can serve as an informative resource to create an awareness of the multidimensional and complex issues of poverty.

Blockchain for International Security

The Potential of Distributed Ledger Technology for Nonproliferation and Export Controls

Springer Nature This book intersects the distributed ledger technology (DLT) community with the international security community. Given the increasing application of blockchain technology in the fields of business and international development, there is a growing body of study on other use cases. For instance, can blockchain have a significant role in preserving and improving international security? This book explores this question in the context of preventing the proliferation of some of the most dangerous materials in the world—items that if not secured can lend to the development of weapons of mass destruction. It considers how blockchain can increase efficiencies in the global trade of nuclear and chemical materials and technology, thereby increasing assurances related to compliance with international nonproliferation and disarmament treaties.

EBOOK: Principles and Practice of Marketing, 9e

McGraw Hill EBOOK: Principles and Practice of Marketing, 9e

Bleeding Heart Conservatives

Why It's Good to Be Right

Post Hill Press The human spirit is at the heart of Conservatism. Conservatives have become a marginalized and misunderstood demographic in our pop-political culture. They are not as they are often portrayed: greedy, racists, sexist, homophobic and violent. Rather, they believe in equality, opportunity, accountability, freedom and independence. Harvard graduate Pillinger Choi, a first generation daughter of a Korean mother and a Jewish father, presents conservative views on social, fiscal and foreign policy issues from a modest and compassionate perspective. Bleeding Heart Conservatives will invigorate jaded conservatives, closet conservatives, and conservatives-turned-libertarian/independent, as well as enlighten curious apoliticals and liberals.

The Multiple Hats That Teachers Wear

Page Publishing Inc Every branch of knowledge (all disciplines) that exists is manifested in the teacher role, be it at the elementary, middle, or high school. A teacher is a disciplinarian, a psychologist, a psychiatrist, a nurse, a surrogate parent, a coach, a cheerleader, and an advocate to mention a few. Never before as in present day has the teacher role been placed in a position to deal with issues far removed from the actual role of imparting knowledge.

Diagnosis and Treatment of Chronic Fatigue Syndrome and Myalgic Encephalitis

It's Mitochondria, Not Hypochondria

Chelsea Green Publishing Mitochondria are the powerhouses of our cells, essential for the production and management of energy at the cell level. Dr. Sarah Myhill has spent years studying the relationship between mitochondrial malfunction and one of the most common problems that leads people to the doctor's office: fatigue. In *Diagnosis and Treatment of Chronic Fatigue Syndrome and Myalgic Encephalitis*, Dr. Myhill examines this essential role of our mitochondria in energy production and why it is key to understanding and overcoming Chronic Fatigue Syndrome (CFS) and the inflammation that often accompanies it: Myalgic Encephalitis (ME). She explains the importance of healthy mitochondria, how we can assess how well they are functioning, what we can do to keep them healthy, and how to restore them to health if problems arise. Since publication of the first edition in 2014, new research and new clinical findings have shed further light on a condition that is debilitating to those who suffer from it, but "all in the head" to many doctors. The second edition of this groundbreaking book includes new insights and chapters on why CFS/ME is the most poorly treated condition in Western medicine, the role of the gut, allergy and autoimmunity, Lyme disease and other coinfections, reprogramming the immune system, reprogramming the brain, and the roadmap to recovery.

Digital Activism and Cyberconflicts in Nigeria

Occupy Nigeria, Boko Haram and MEND

Emerald Group Publishing This book offers fresh insights on digital activism and cyberconflicts through a comparison of sociopolitical and ethnoreligious movements in Nigeria. **Occupy Nigeria, Boko Haram and The Movement for the Emancipation of the Niger Delta (MEND)** highlight the digital and organizational aspects of conflict mobilization in contemporary Nigeria.

Authoritarian Politics in Turkey

Elections, Resistance and the AKP

Bloomsbury Publishing Despite being democratically elected, Turkey's ruling AKP party moved towards increasingly authoritarian measures in the years that followed. After the coup attempt in July 2016, the AKP government declared a state of emergency which President Erdoğan saw as an opportunity to purge the public sector of pro-Gülenist individuals and criminalise opposition groups including Kurdish separatists, Alevites, leftists and liberals. The country experienced political turmoil and rapid transformation, and debates around constitutional amendments began that would change the regime to a "Turkish style" presidential system. This book identifies the process of democratic reversal in Turkey. In particular, contributors explore the various ways that a democratically elected political party used elections to implement authoritarian measures. They scrutinise the very concepts of democracy, elections and autocracy to expose their flaws which can be manipulated to advantage. The book includes chapters discussing the roots of authoritarianism in Turkey; the political economy of elections; the relationship between the political Islamic groups and the government; Turkish foreign policy; non-Muslim communities' attitudes towards the AKP; and Kurdish citizens' voting patterns. As well as following Turkey's political trajectory, this book contextualises Turkey in the wider literature on electoral and competitive authoritarianisms and explores the country's future options.
