
Read Free Pdf Tobago And Trinidad Undp Guidelines Proposal Project

Right here, we have countless ebook **Pdf Tobago And Trinidad Undp Guidelines Proposal Project** and collections to check out. We additionally offer variant types and after that type of the books to browse. The normal book, fiction, history, novel, scientific research, as without difficulty as various extra sorts of books are readily simple here.

As this Pdf Tobago And Trinidad Undp Guidelines Proposal Project, it ends taking place creature one of the favored book Pdf Tobago And Trinidad Undp Guidelines Proposal Project collections that we have. This is why you remain in the best website to see the incredible books to have.

KEY=GUIDELINES - YANG JAKOB

The Routledge Handbook on Responsibility in International Relations Routledge *What does responsibility mean in International Relations (IR)? This handbook brings together cutting-edge research on the critical debates about responsibility that are currently being undertaken in IR theory. This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice. Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance. Chapters with an empirical focus zoom in on particular actor constellations of (emerging) states, international organizations, political movements, or corporations, or address how responsibility matters in structuring the politics of global commons, such as oceans, resources, or the Internet. Providing a comprehensive overview of IR scholarship on responsibility, this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR, international law, political theory, global ethics, science and technology, area studies, development studies, business ethics, and environmental and security governance.*

Handbook on Planning, Monitoring and Evaluating for Development Results United Nations Development Programme *This 'Handbook on Planning, Monitoring and Evaluating for Development Results' is an updated edition of the 2002 edition of 'Handbook on Monitoring and Evaluation for Results'. It seeks to address new directions in planning, monitoring and evaluation in the context of the United Nations Development Programme (UNDP) corporate strategic plan, the requirements of the UNDP evaluation policy approved by the Executive Board in 2006 and the United Nations Evaluation Group (UNEG) 'Standards for Evaluation in the UN System'. The updated Handbook also incorporates information recommended by key users of the Handbook during various workshops held by UNDP units.*

Peace Education International Perspectives Bloomsbury Publishing *This book explores the challenges and possibilities of implementing peace education in diverse global sites.*

Sharing Knowledge Making a Difference The Role of International Scientific Cooperation : World Association for Sustainable Development (WASD), Ninth International Conference, Atlantic City, USA, 26-28 October 2011 eBooks2go, Inc. *Information communications technologies (ICTs) are generally viewed as the new vehicle to redress developmental problems. The book assesses the value of such claims by analyzing the structure and workings of the global political economy (GPE) and its impact on, and prospects for developing countries in the current techno-economic context. The book uses a case study of the Caribbean to illustrate the challenges and opportunities faced by small-island developing states (SIDS) in the new techno-economic paradigm. The question must be asked, can small island developing states such as those of the Caribbean leverage modern ICTs for growth and development against the backdrop of a yawning global digital divide? Hence, the book addresses the central problem of the digital divide and whether emerging ICTs offer any real economic opportunities for the Caribbean region.*

Evaluation of UNDP Contribution at the Regional Level to Development and Corporate Results United Nations Publications *In an increasing inter-connected and inter-dependent world. Regional cooperation has immense potential Countries are collaborating to address challenges that cannot be addressed individually and on regional public goods. New forms of cooperation are taking place with the emergence of new regional and subregional groupings. UNDP, since its inception, has supported regional cooperation through its regional programmes and engagement with regional bodies. UNDP itself is structured along regional lines with five regional bureaux and has also established a presence in all five regions through regional service centres that support country and regional programmes. The evaluation concluded that UNDP regional programmes have made significant and long-standing development contributions. They promoted cooperation among countries in building regional and national institutions as well as addressing cross-border and common challenges. The regional service centres have provided useful and much-appreciated technical support to country offices. However, in all regions, the contribution to results has been affected by fragmentation of regional programmes, insufficient linkages with national programmes, and time-frames that have not taken into account the need for long-term capacity development. UNDP has yet to develop an explicit, holistic and strategic business model that addresses critical capacity in country offices, the provision of supplementary technical support to country offices, management of the regional programme, support to UN coordination at the regional level, and the grounding of corporate positioning in regional knowledge. As a result, the core recommendation of the evaluation is that the organization should develop a strategic corporate business model that covers headquarters/global, regional and country levels --*

World Energy Assessment Energy and the Challenge of Sustainability United Nations Publications *The report discusses the linkages between energy and economic, social, environmental, and security issues, and analyses the contradictions between current patterns of use and objectives in these areas. The WEA also reviews energy resources and technology options from the point of view of sustainability including better end-use efficiency, greater reliance on renewable sources of energy, and next-generation nuclear and fossil-fuel technologies. Further, the report examines plausible scenarios for combining various options to achieve a sustainable and relatively prosperous future. The report concludes by examining policy options for producing and using energy in ways that are compatible with sustainable development.*

The State of the Marine Environment Regional

Assessments United Nations Publications This expert report provides a concise global overview of the developments over the last decade within the area of focus of the Global Programme of Action for the Protection of the Marine Environment from Land-based Activities (GPA). The report identifies that countries have made considerable progress in developing and implementing appropriate policy responses at national, regional and international levels. Nevertheless, progress over the last decade needs to be sustained and strengthened in response to the growing pressures, with special attention to implementation, enforcement and environmental governance. Publishing Agency: United Nations Environment Programme (UNEP).

Education in the Commonwealth Caribbean and Netherlands Antilles A&C Black Education in the Commonwealth Caribbean and Netherlands Antilles provides a contemporary survey of education development and key educational issues in the region. The chapters cover: Anguilla, Antigua and Barbuda, the Bahamas, Barbados, Belize, Bermuda, the British Virgin Islands, the Cayman Islands, Dominica, Grenada, Guyana, Jamaica, the Netherlands Antilles (Aruba, Bonaire, Curacao, Saba, Saint Eustatius and Saint Maarten), Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Surinam, Trinidad and Tobago, and the Turks and Caicos Islands. The book includes discussions of the impact of local, regional and global occurrences, including social, political and geographical events, on education systems and schooling in the region. As a whole, the book provides a comprehensive reference resource for contemporary education policies in the Caribbean, and explores some of the problems these countries face during the process of development. It is an essential reference for researchers, scholars, international agencies and policy-makers at all levels.

World Economic Situation and Prospects 2020 United Nations This is the United Nations definitive report on the state of the world economy, providing global and regional economic outlook for 2020 and 2021. Produced by the Department of Economic and Social Affairs, the five United Nations regional commissions, the United Nations Conference on Trade and Development, with contributions from the UN World Tourism Organization and other intergovernmental agencies.

Handbook on Constructing Composite Indicators: Methodology and User Guide OECD Publishing A guide for constructing and using composite indicators for policy makers, academics, the media and other interested parties. In particular, this handbook is concerned with indicators which compare and rank country performance.

Humanity Divided Confronting Inequality in Developing Countries UN Inequality has emerged as a major source of concern for people all over the world who find it unacceptable that poverty should persist in a world of plenty. Reducing inequality is needed - first and foremost - in order to fulfil people's universal aspiration to dignity and respect. But there are also more instrumental reasons to address excessive and growing inequalities as the high levels of inequality are detrimental to economic growth and limit growth's potential to eliminate poverty. However, the experience of many countries that have managed to significantly reduce gaps in human wellbeing over the last decade shows that the political space for resolute action can be created. This Report represents an important contribution to this debate and, as such, it will assist policy makers in identifying pathways towards greater social justice, prosperity and sustainability.

World Social Report 2020 Inequality in a Rapidly Changing World United Nations This report examines the links between inequality and other major global trends (or megatrends), with a focus on technological change, climate change, urbanization and international migration. The analysis pays particular attention to poverty and labour market trends, as they mediate the distributional impacts of the major trends selected. It also provides policy recommendations to manage these megatrends in an equitable manner and considers the policy implications, so as to reduce inequalities and support their implementation.

Capacity for Development New Solutions to Old Problems Earthscan Leading experts consider how development programs can increase the levels of knowledge, skill, technical know-how and productive capacity of populations in the South. The volume is organized into three parts on ownership, institutional capital and knowledge networks. They explore the participatory empowerment that builds capacity, a framework enabling social forces to contribute, and a new paradigm of knowledge in the network age. The result shows how, in future productivity, capacity development through technical cooperation can be successfully pursued. Contributors include Sunil Chako, Steve Denning, Sakiko Fukuda-Parr, Ruth Hill, Sanjay Lall, Carlos Lopes, Khalid Malik, Thandika Mkandawire, Raj Panday, and Joseph Stiglitz.

Caribbean Regional Integration A Critical Development Approach Taylor & Francis This book provides an in-depth analysis of the role of regional integration in the contemporary Caribbean, challenging the value of the neoliberal ideology that permeates regionalism discourse. The book asks what value neoliberal regionalism holds for the Caribbean, when its economic goals of efficiency and competitiveness serve to actively marginalize small states within the global community. Presenting an alternative framework for assessing success, the book investigates how the Caribbean Community (CARICOM) can confront new challenges and perform a more developmental function, centring economic transformation and a more democratic process. The book also explores long-standing challenges with implementing regional decisions at the national level and the absence of avenues for citizens to influence the direction of the integration movement. It explores these themes against the backdrop of the global pandemic and the climate crisis which underscore the fragility of Caribbean economies, their high levels of indebtedness, weak social security systems, and their marginality. Bringing together decades of research from one of the world's foremost scholars on the subject, this book will be essential reading for researchers of the Caribbean specifically, and for those with an interest in regionalism more generally, across the fields of political economy, international relations, history, geography, economics, and global development.

Mainstreaming Solar Energy in Small, Tropical Islands Cultural and Policy Implications Routledge This book explores how cultural considerations can improve policymaking to achieve mainstream solar energy in small, tropical islands. Focusing on Trinidad, Barbados and O'ahu, Kiron C. Neale looks at how culture can affect and be affected by the policies that support the household adoption of two key energy technologies: solar water heating and photovoltaics. Drawing on interviews with residents and energy officials, and an examination of the institutional, socio-economic and physical factors that affect energy systems such as governance structures and energy resource availability, the author explores themes including the impact of insularity on energy transitions and behavioural and cultural change. Overall, this book rebrands policies as instruments of cultural change and puts forward recommendations applicable to all small, tropical islands. Following the islands' transition to renewable energy, this book will be of great interest to scholars of energy policy, energy transitions, climate change, cultural studies and small states development, as well as industry professionals working on energy policy implementation.

Impact Evaluation in Practice, Second Edition World Bank Publications The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design

evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Trinidad and Tobago Ethnic Conflict, Inequality and Public Sector Governance Springer How does a multi-ethnic society resolve the contentious issue of resource allocation without damaging the state? This study examines inequality in terms of distributive justice, adaptation of political institutions, the role of symbols of recognition in representation and conflict management in power sharing, resource allocation and public policy.

Operational Report on GEF Programs Youth Work in the Commonwealth A Growth Profession Commonwealth Secretariat Youth Work in the Commonwealth: A Growth Profession establishes a baseline to inform the planning and implementation of initiatives to professionalise youth work in Commonwealth member countries. The study was conducted in 35 countries in the Africa, Asia, the Caribbean/Americas, Europe and Pacific regions. It catalogues the extent to which the youth work profession is formally recognised in these countries and examines the qualities and rights-based ethos of the various forms of youth work promoted and practised in the Commonwealth. The report aims to help countries learn from good practices, and assess gaps in establishing youth work as a recognised profession in diverse contexts.

International technical guidance on sexuality education an evidence-informed approach UNESCO Publishing **Achieving Sustainable Development and Promoting Development Cooperation Dialogues at the Economic and Social Council** United Nations Publications This book presents an overview of the key debates that took place during the Economic and Social Council meetings at the 2007 High-level Segment, at which ECOSOC organized its first biennial Development Cooperation Forum. The discussions also revolved around the theme of the second Annual Ministerial Review, "Implementing the internationally agreed goals and commitments in regard to sustainable development."--P. 4 of cover.

The Superpower Myth The Use and Misuse of American Might John Wiley & Sons Incorporated Arguing that American power is limited, a former foreign policy advisor to Bill Clinton shows how the U.S. will increasingly be called upon to prop up and rebuild failed states, a situation that makes military might alone an insufficient gauge of the nation's power.

Global Parliamentary Report The Changing Nature of Parliamentary Representation Inter-Parliamentary Union **World Investment Report 2020 International Production Beyond the Pandemic** United Nations The 30th edition of the World Investment Report looks at the prospects for foreign direct investment and international production during and beyond the global crisis triggered by the COVID-19 (coronavirus) pandemic. The Report not only projects the immediate impact of the crisis on investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. The system of international production underpins the economic growth and development prospects of most countries around the world. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.

DAC Guidelines and Reference Series Applying Strategic Environmental Assessment Good Practice Guidance for Development Co-operation Good Practice Guidance for Development Co-operation OECD Publishing This Guidance volume explains the benefits of using SEA in development co-operation and sets out key steps for its application based on recent experiences.

Family Planning and the 2030 Agenda for Sustainable Development (Data Booklet) This booklet is based on the Estimates and Projections of Family Planning Indicators 2019, which includes estimates at the global, regional and country level of contraceptive prevalence, unmet need for family planning and SDG indicator 3.7.1 "Proportion of women who have their need for family planning satisfied by modern methods".

Emerging Issues for Small Island Developing States Results of the UNEP/UN DESA Foresight Process United Nations The 2012 UNEP Foresight Process on Emerging Global Environmental Issues primarily identified emerging environmental issues and possible solutions on a global scale and perspective. In 2013, UNEP carried out a similar exercise to identify priority emerging environmental issues that are of concern to the Small Island Developing States (SIDS). The social and economic emerging issues were also identified using the same set of criteria. At the core of the process was a SIDS Foresight Panel consisting of 11 SIDS experts (for the UNEP Panel) and 12 experts (for the UN DESA Panel) from the three SIDS regions, representing the global SIDS community and a wide range of disciplines. The process was designed to open the discussion on emerging environmental issues to a broad range of views both from the Foresight Panel and a wider community of relevant experts from across the globe. Through the Foresight Process, separate lists of 20 environmental and 15 socioeconomic emerging issues were identified and discussed in this report.

Guidelines for National Waste Management Strategies Moving from Challenges to Opportunities UN In June 2012 the United Nations Conference on Sustainable Development adopted, as part of the main outcome document, *The Future we Want*, a call for countries to develop and enforce comprehensive national and local waste management policies, strategies, laws, and regulations. This call was a response to the challenges presented by unsustainable production and consumption, including the clear and unavoidable evidence of that unsustainability in the generation of waste. Increasingly, that challenge will come to be faced most acutely in developing countries. The objective of this guidance document is to help countries respond to that call: to develop and implement national waste management strategies, or, if they already have such strategies, to help them review, revise and update them.

Shaping the future we want UN Decade of Education for Sustainable Development; final report UNESCO **Legacies of slavery a resource book for managers of sites and itineraries of memory** UNESCO Publishing **Analysis of Agricultural Policies in Trinidad and Tobago** Inter-American Development Bank Although the agricultural sector contributes only 0.5% to Trinidad and Tobago's GDP, it accounts for over 4% of employment and is important for the diversification of the economy. The Government of Trinidad and Tobago supports agriculture through a combination of incentives to agricultural producers, support for

research and infrastructure, and border protection measures. Support to producers averaged 22.4% of gross farm receipts in 2013-2015, and a significant share of that support (44%) was provided in the form of transfers to general services. At the same time, total transfers arising from agricultural policy amounted to only 0.34% of the national GDP. Reorienting agricultural policy towards goals and actions that are less production-distorting, and that address agricultural productivity and profitability, will help create a possibly small, but efficient agricultural sector, as well as exploit certain specific competitive advantages.

A Manual on Statistics of International Trade in Services International Monetary Fund The Manual sets out an internationally agreed framework for the compilation and reporting of statistics on international trade in services in the broad sense. It addresses the growing need, including in international trade negotiations and agreements, for more detailed, comparable, and comprehensive statistics on this type of trade in its various forms. The recommendations will enable countries to progressively expand and structure the information they compile in an internationally comparable way. The Manual conforms with and explicitly relates to the System of National Accounts 1993 and the fifth edition of the IMF's Balance of Payments Manual. It is published jointly by the United Nations, European Union, IMF, OECD, UNCTAD, and World Trade Organization.

The Oxford Handbook of Global Lgbt and Sexual Diversity Politics Oxford University Press, USA Struggles for LGBT rights and the security of sexual and gender minorities are ongoing, urgent concerns across the world. For students, scholars, and activists who work on these and related issues, this handbook provides a unique, interdisciplinary resource. In chapters by both emerging and senior scholars, the Oxford Handbook of Global LGBT and Sexual Diversity Politics introduces key concepts in LGBT political studies and queer theory. Additionally, the handbook offers historical, geographic, and topical case studies contextualized within theoretical frameworks from the sociology of sexualities, critical race studies, postcolonialism, indigenous theories, social movement theory, and international relations theory. It provides readers with up-to-date empirical material and critical assessments of the analytical significance, commonalities, and differences of global LGBT politics. The forward-looking analysis of state practice, transnational networks, and historical context presents crucial perspectives and opens new avenues for debate, dialogue, and theory.

Contraceptive Use by Method 2019 Data Booklet This data booklet highlights estimates of the prevalence of individual contraceptive methods based on the World Contraceptive Use 2019 (which draws from 1,247 surveys for 195 countries or areas of the world) and additional tabulations obtained from microdata sets and survey reports. The estimates are presented for female and male sterilisation, intrauterine device (IUD), implant, injectable, pill, male condom, withdrawal, rhythm and other methods combined.

Socio-economic Assessment Promoting and Protecting Minority Rights A Guide for Advocates United Nations Publications Minorities make significant contributions to the richness and diversity of society, and States that recognise and promote minority rights are more likely to remain tolerant and stable. The United Nations and other intergovernmental organisations recognise that minority rights are essential to protect those who wish to preserve and develop values and practices which they share with other members of their community. This Guide offers information related to norms and mechanisms developed to protect the rights of persons belonging to national, ethnic, religious or linguistic minorities. It provides detailed information about procedures and forums in which minority issues may be raised within the United Nations system and in regional systems. It is hoped that this Guide will be useful in assisting minority advocates to make full and effective use of existing international mechanisms and, ultimately, to promote and protect the rights guaranteed under international instruments.

Managing FDI for Development in Resource-Rich States The Caribbean Experience Springer This book is a timely study in light of the resurgence of resource nationalism that is currently occurring in several resource-rich, developing countries. It moves away from the traditional explanations for the disappointing economic performance of resource-rich, developing countries, notably those advanced by key researchers.

Millennium Development Goals Report 2015 This report presents the yearly assessment of global progress towards the Millennium Development Goals (MDGs), determining the areas where progress has been made, and those that are lagging behind. The report is based on a master set of data compiled by the Inter-Agency and Expert group on MDG indicators led by the Statistics Division of the Department of Economic and Social Affairs.

Mind Tools for Managers 100 Ways to be a Better Boss John Wiley & Sons "This book helps new and experienced leaders develop the skills they need to be more effective in everything they do. It brings together the 100 most important leadership skills--as voted for by 15,000 managers and professionals worldwide--into a single volume, providing an easy-access solutions manual for people wanting to be the best manager they can be. Each chapter details a related group of skills, providing links to additional resources as needed, plus the tools you need to put ideas into practice. Read beginning-to-end, this guide provides a crash course on the essential skills of any effective manager; used as a reference, its clear organization allows you to find the solution you need quickly and easily"--

Men in Families and Family Policy in a Changing World United Nations Publications "The perceptions of the role of women and men in families have changed over the past few decades. Men are no longer perceived as the economic providers to families. The role of men in the family has undergone many "diverse demographic, socio-economic and cultural transformations" impacting the formation, stability and overall well-being of families. In light of this development, DESA's Division for Social Policy and Development (DSPD) launched a new publication on "Men in Families and Family Policy in a Changing World" on 17 February focusing on the shifting roles and views of men in families."--Provided by publisher.
