Thirty-two thousand years ago, your many-times-great-grandparents Oog and Aag drew pictures on the wall of a cave. They had an innate need to communicate, but no written language. So they found an easy and natural way to share their thoughts and stories. Today, after so many years when speaking and writing dominated, we're back in another highly visual age. About 90 percent of everything shared online is now visual—selfies, GIFs, smartphone videos, and more. This explosion of communication through pictures isn't a millennial-driven fad; it's as natural as those lines first drawn by Oog and Aag. Just turbo-charged by the latest technology. And yet over the past twenty years, as I've taught people from Fortune 500 CEOs to White House staffers how to harness the power of imagery, the biggest objection I've always heard is, "But I can't draw!" Trust me, you can. You don't need to be da Vinci to be an outstanding visual thinker and communicator. The most effective drawings are the simplest, and you can get good at those in three minutes. In this little book, I'll teach you how to use seven basic shapes to explain just about anything to just about anyone. If you've read my previous books, you'll see one or two familiar tools here, along with a bunch of new tools you can start using right away. If you're new to my approach—welcome! Get ready to work smarter, communicate more clearly, and get better at whatever you do, just by picking up a pen. Get ready to draw to win. **Foul Play in Fairyland A Funny Fairy Tale Mystery, Plus a Draw and Tell Story Createspace Independent Publishing Platform** **Foul Play in Fairyland** is a fun-filled frolic in fairyland which is fraught with mystery. A Trio of Tender Tales Three Tales of Kindness Towards Animals, Plus a Draw and Tell Story This fully illustrated children's picture book tells three simple tales about respect for and the kind treatment of all animals on earth. Next comes "Kids Care," a brief alphabet of ways that kids can show they care about animals, from A to Z. Lastly, there is "The Cozy House That Jack Built," a nonviolent alternative to the old rhyme "The House That Jack Built." It was written as an homage to the philosophy of live and let live, for in it the people and animals share a cozy home. This picture book can help children think about all the animals in their lives and how to help those around them. As with all of Barbara's other original full color illustrated picture books, this book concludes with a bonus draw and tell story which shares the book's theme. In this case it is the theme of compassion for all living things. The book also includes instructions and a big traceable drawing to help any novice learn how to use this traditional storytelling technique to successfully tell a draw and tell story. Draw and tell stories are simple stories for young children. These drawing tales are very easy to use and require no special materials or experience. As each draw and tell story is told, its characters and objects are sketched onto a single sheet of paper, while children look on. These simple elements build up on the drawing until, by the time the story ends, a composite picture representing the subject of the story has emerged, much to the children's delight. The draw and tell form of storytelling is great for parents, teachers and children's librarians. Author Barbara Freedman-De Vito has been creating and using draw and tell stories for many years in her work as a children's librarian, freelance storyteller, teacher and workshop leader.
