Christopher Columbus and the Age of Exploration for Kids

With 21 Activities

Chicago Review Press An NCSS Notable Social Studies Trade Book for Young People Christopher Columbus is one of the most famous people in world history, yet few know the full story of the amazing, resourceful, and tragic Italian explorer. Christopher Columbus and the Age of Exploration for Kids portrays the "Admiral of the Ocean Seas" neither as hero nor heel but as a flawed and complex man whose significance is undeniably monumental. Kids will gain a fuller picture of the seafarer's life, his impact, and the dangers and thrills of exploration as they learn about all four of Columbus's voyages to the New World, not just his first, as well as the year that Columbus spent stranded on the island of Jamaica without hope of rescue. Students, parents, and teachers will appreciate the in-depth discussions of the indigenous peoples of the New World and of the consequences of Columbus's voyages—the exchange of diseases, ideas, crops, and populations between the New World and the Old. Fun hands-on activities illuminate both the nautical concepts introduced and the times in which Columbus lived. Kids can: Tie nautical knots Conduct a blanket (silent) trade Make a compass Simulate a hurricane Take nautical measurements And much more

Who Was Christopher Columbus?

Christopher Columbus and the Age of Exploration for Kids

With 21 Activities

Chicago Review Press While all kids know something about Christopher Columbus, few know the full story of this amazing, resourceful, and tragic man of history. Christopher Columbus and the Age of Exploration for Kids takes a comprehensive, nuanced, and inclusive approach to Columbus, placing him in the context of the explorations that came before, during, and after his lifetime and portraying the "Admiral of the Ocean Seas" neither as hero nor heel but as a flawed and complex man whose significance is undeniably monumental. Providing kids, parents, and teachers with a fuller picture of the seafaring life and the dangers and thrills of exploration, the book details all four of Columbus's voyages to the New World, not just his first, and describes the year that Columbus spent stranded on the island of Jamaica without hope of rescue. A full chapter is devoted to painting a more complex portrait of the indigenous peoples of the New World and another to the consequences of Columbus's voyages—the exchange of diseases, ideas, crops, and populations between the New World and the Old. Engaging crosscurricular activities such as taking nautical measurements, simulating a hurricane, making an ancient globe, and conducting silent trade elucidate both nautical concepts introduced and the times in which Columbus lived. Ronald Reis is the technology department chair at Los Angeles Valley College and the award-winning author of sixteen nonfiction books for young adults on subjects as varied as African Americans and the Civil War and Simón Bolívar.

The Life of Christopher Columbus

Createspace Independent Publishing Platform John Stevens Cabot Abbott (September 19, 1805 - June 17, 1877), an American historian, pastor, and pedagogical writer, was born in Brunswick, Maine to Jacob and Betsey Abbott. Early life: He was a brother of Jacob Abbott, and was associated with him in the management of Abbott's Institute, New York City, and in the preparation of his series of brief historical biographies. Dr. Abbott graduated at Bowdoin College in 1825, prepared for the ministry at Andover Theological Seminary, and between 1830 and 1844, when he retired from the ministry in the Congregational Church, preached successively at Worcester, Roxbury and Nantucket, all in Massachusetts. Literary career: Owing to the success of a little work, *The Mother at Home*, he devoted himself, from 1844 onwards, to literature. He was a voluminous writer of books on Christian ethics, and of popular histories, which were credited with cultivating a popular interest in history. He is best known as the author of the widely popular *History of Napoleon Bonaparte* (1855), in which the various elements and episodes in Napoleon's career are described. Abbott takes a very favourable view towards his subject throughout. Also among his principal works are: *History of the Civil War in America* (1863-1866), and *The History of Frederick II, Called Frederick the Great* (New York, 1871). He also did a forward to a book called *Life of Boone* by W.M. Bogart, about Daniel Boone in 1876. In general, except that he did not write juvenile fiction, his work in subject and style closely resembles that of his brother, Jacob Abbott... Christopher Columbus (1451 - 20 May 1506) was an Italian explorer, navigator, and colonizer. Born in the Republic of Genoa, under the auspices of the Catholic Monarchs of Spain he completed four voyages across the Atlantic Ocean. Those voyages and his efforts to establish settlements on the island of Hispaniola initiated the permanent European colonization of the New World. At a time when European kingdoms were beginning to establish new trade routes and colonies, motivated by imperialism and economic competition, Columbus proposed to reach the East Indies (South and Southeast Asia) by sailing westward. This eventually received the support of the Spanish Crown, which saw a chance to enter the spice trade with Asia through this new route. During his first voyage in 1492, he

reached the New World instead of arriving in Japan as he had intended, landing on an island in the Bahamas archipelago that he named San Salvador. Over the course of three more voyages, he visited the Greater and Lesser Antilles, as well as the Caribbean coast of Venezuela and Central America, claiming all of it for the Crown of Castile. Columbus is the European explorer credited with establishing and documenting routes to the Americas, though he was preceded by the Viking expedition led by Leif Erikson in the 11th century. Moreover, the voyages of Columbus led to the first lasting European contact with the Americas, inaugurating a period of exploration, conquest, and colonization that lasted several centuries. These voyages thus had an enormous effect on the historical development of the modern Western world. He spearheaded the transatlantic slave trade and has been accused by several historians of initiating the genocide of the Hispaniola natives. Columbus himself saw his accomplishments primarily in the light of spreading the Christian religion. Columbus had set course in hopes of finding a western route to the Indies (Asia). He called the inhabitants of the lands that he visited indios (Spanish for "Indians"). His strained relationship with the Spanish crown and its appointed colonial administrators in America led to his arrest and dismissal as governor of the settlements on the island of Hispaniola in 1500, and later to protracted litigation over the benefits that he and his heirs claimed were owed to them by the crown.....

Christopher Columbus Biography

Christopher Columbus was an Italian explorer, navigator, and colonizer. Born in the Republic of Genoa, under the auspices of the Catholic Monarchs of Spain he completed four voyages across the Atlantic Ocean. He died thinking he had discovered a shortcut to Asia across the Atlantic Ocean. He never knew what an amazing discovery he had made.

The Life of Christopher Columbus from His Own Letters and Journals

1st World Publishing This book contains a life of Columbus, written with the hope of interesting all classes of readers. His life has often been written, and it has sometimes been well written. The great book of our countryman, Washington Irving, is a noble model of diligent work given to a very difficult subject. And I think every person who has dealt with the life of Columbus since Irving's time, has expressed his gratitude and respect for the author. According to the custom of biographers, in that time and since, he includes in those volumes the whole history of the West India islands, for the period after Columbus discovered them till his death. He also thinks it his duty to include much of the history of Spain and of the Spanish court. I do not myself believe that it is wise to attempt, in a book of biography, so considerable a study of the history of the time. Whether it be wise or not, I have not attempted it in this book. I have rather attempted to follow closely the personal fortunes of Christopher Columbus, and, to the history around him, I have given only such space as seemed absolutely necessary for the illustration of those fortunes.

Explorers: Amazing Tales of the World's Greatest Adventures

Meet famous explorers and adventurers in this exciting non-fiction storybook for children. Venture into steaming jungles in search of lost temples, fight off frostbite in the Arctic, and blast off into space! Great explorers have one thing in common - a desire to leap into the unknown, no matter how dangerous that might be. From Ferdinand Magellan's first circumnavigation of the world 500 years ago to Barbara Hillary's treks to the North and South poles while in her seventies, Explorers documents the trials and hardships of the men and women who rewrote our understanding of the world, and showed us what humans are capable of. Explorers looks at the towering achievements of more than 50 explorers in great detail, with incredible cross-sections revealing the amazing detail inside Spanish galleons, lost cities, and spaceships. Hand-drawn maps reveal their intrepid journeys in great detail, and photographs highlight the artefacts and relics they found along the way. The explorers come from all walks of life and parts of the world. Packed with jaw-dropping facts and written in language that will get the heart racing, Explorers is the perfect book for any budding young adventurer, combining both beautiful illustrations by Jessamy Hawke and fantastic photography.

Christopher Columbus

Great Explorer

Chronicles the life, voyages, and discoveries of the intrepid explorer.

The Book of Prophecies

Wipf and Stock Publishers Christopher Columbus returned to Europe in the final days of 1500, ending his third voyage to the Indies not in triumph but in chains. Seeking to justify his actions and protect his rights, he began to compile biblical texts and excerpts from patristic writings and medieval theology in a manuscript known as the Book of Prophecies. This unprecedented collection was designed to support his vision of the discovery of the Indies as an important event in the process of human salvation - a first step toward the liberation of Jerusalem and the Holy Land from Muslim domination. This work is part of a twelve-volume series produced by U.C.L.A.'s Center for Medieval and Renaissance Studies which involved the collaboration of some forty scholars over the course of fourteen years. In this volume of the series, Roberto Rusconi has written a complete historical introduction to the Book of Prophecies, describing the manuscript's history and analyzing its principal themes. His edition of the documents, the only modern one, includes a complete critical apparatus and detailed commentary, while the facing-page English translations allow Columbus's work to be appreciated by the general public and scholars alike.

The Catalogue of Shipwrecked Books

Christopher Columbus, His Son, and the Quest to Build the World's Greatest Library

Scribner This impeccably researched and "adventure-packed" (*The Washington Post*) account of the obsessive quest by Christopher Columbus's son to create the greatest library in the world is "the stuff of Hollywood blockbusters" (*NPR*) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus's death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father's campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include "all books, in all languages and on all subjects," even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. "Magnificent...a thrill on almost every page" (*The New York Times Book Review*), *The Catalogue of Shipwrecked Books* is a window into sixteenth-century Europe's information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.

The Story of Christopher Columbus

Demonstrates the value of curiosity in the life of Christopher Columbus.

The Life of Admiral Christopher Columbus by His Son Ferdinand

*"The cornerstone of the history of the American continent." --Washington Irving This revised edition (originally published in 1959) of the famous biography of Columbus by his son Ferdinand was published to coincide with the Columbus quincentenary celebrations. Benjamin Keen's introduction traces the changing assessments of Columbus and his Discovery over almost five centuries, as reflected in the writings of historians, other social scientists, novelists, and poets, and shows how these assessments were influenced by varying political, social, and intellectual conditions. Keen has also revised his translation and notes to reflect new information and viewpoints. Ferdinand's book is a moving and personal document. Provoked in part by the Spanish Crown's attempts to diminish Columbus's role as discoverer, it reveals the restrained emotions of a loving son jealous of his father's honor. Ferdinand had access to all of his father's papers. At the age of thirteen, he accompanied Columbus on the last voyage and participated in many of the events he relates here. The narrative has the irresistible excitement of an adventure story: shipwreck, storms, and battles with mutineers or Indians. Ferdinand's imaginative insight into the many-faceted personality of the discoverer and his artistry with words make this biography, as Henry Vignaud has said, "the most important of our sources of information on the life of the discoverer of America." Benjamin Keen is Professor Emeritus of Latin American history at Northern Illinois University. He is the author of *The Aztec Image in Western Thought* (Rutgers University Press) and many other books.*
